Port Townsend Progress. Mr. E. H. Fisher, architect, is preging plans for three brick blocks to erected at Port Townsend, at a cost about \$40,000. Our neighlior over i water appears to be prospering.

Goldstream. A new hotel will be built at Goldstre this summer by Mr. James Phair at a c of \$6,000 or \$8,000. Now that the Esc malt and Nanaimo railway is comple this famous resort will be still more lar ly visited by tourists and others the formerly.

Shipping Fish East.

Mr. W. J. Herring, as an experime will ship to-day a quantity of fresh c ked in ice, to Donald and other po along the Canadian Pacific. Mr. Herr as his name might suggest, understa the business perfectly and will, doubt make the enterprise a success.

Solid Sooke. It was scarcely expected by Planta's most sanguine supporters tha would poll the solid Sooke vote, and fact that he did shows that his friend that part of the district were not idle. candidate realizes the uncertainties electioneering when his own-agents against him.

A Provincial University.
Secretary Hayward, Mr. H. F. Heis
man and Dr. Milne, of the Victoria sel
board, had an interview with the pro
cial secretary yesterday, when they ur
the importance and necessity, in the
terest of education, of the establishm of a provincial university. The mini-received the deputation cordially promised that the project would rec-the early attention of the government that the scheme, if favorably entertain might be laid before the house at the r

In the house the other day Hon. Robson gave the member for Cassia little bit of "fatherly advice," and ittle bit of "atherly advice," and cluding said that as a man was gener known by the company he kept, the lorable gentleman had better cross floor of the house and join the gow ment side where the surroundings were better order and the influe elevating. The bumptious member would be only too glad to get such an portunity, was promptly informed by Dunsmuir that the government side na' want him."

Quick Work. Quick Work.

On Tuesday morning at six o'clock
Dunsmuir & Sons steamer Welling
arrived at Departure bay, loaded 2
tons of coal and sailed for San Franci
at two o'clock yesterday afternoon. D
ing that short space the steamer lay
the wharf six hours without loading, that the 2500 tons was loaded in abo hours. The contention that the Welli ton shutes would not be able to load-transpacific steamships rapidly enou-would thus seem to be without any fo

Steam Service for Alberni.

The steamer Hope which left for clay sou d is the first to visit the settlement of Alberni since December. The consequence has been that the set in many cases have run short of the monest necessaries of life, and during past severe winter have not put in a pleasant experience. The Woodside leave in a few days for the same between the leave in a few days for the same p and then the two stores will have recefull stocks. It has been impossible to in anything by the Nanaimo-Alberni r and it has been suggested that a subsidy be given a steamer for ma regular trips. It is understood that an inducement would secure to thabitants of Alberni the convenience weekly or semi-morthly steam as habitants of Alberni the convenience weekly or semi-monthly steam ser which, in the present condition of settlement a great boon. It will be membered that in the early settlement Cowichan the Sir James Douglas was to that point for the print for the control of to that point for the purpose of fa ing settlement, and the government now be doing a commendable action the outlay of a small sum, they ca
