

JUBILEE HOSPITAL BOARD.

The System of Management Under Discussion and Committee of Inquiry Appointed.

An Appreciative Letter—Necessity for Retrenchment—Tenders Received for Supplies.

The Jubilee Hospital board met last evening, the president, Mr. Joshua Davies, in the chair, and there being also present Messrs. J. B. Yates, Thos. Shotholt, John Braden, D. M. Roberts, T. Braverman, Alex. Wilson, F. B. Pemberton, W. H. Ellis, J. L. Crimp, H. D. Helms, Geo. Brown, Chas. Hayward, W. M. Chadley, treasurer, and H. M. Yates, secretary.

A letter from Thos. Shaw, of 6 James street, James Bay, making suggestions as to the raising of produce on the hospital grounds, and the taking up of Saturday collections by ladies on the street corners, was read and referred to committee, the secretary being instructed to thank Mr. Shaw.

A letter from Mr. Clive Phillips, Wolley was read, expressing his appreciation and that of Mr. Wolley, of the exceeding kindness and care shown her during her recent illness in the hospital. The secretary was requested to thank Mr. Wolley for the kind manner in which he had written of the hospital in his letter.

The Treasurer presented an estimate of receipts and expenditures, on the present basis of hospital affairs, from which it appeared that while the expenses would be about \$25,000 the revenue in sight is but \$19,000 for the current year.

Mr. Hayward said that while contributions from citizens would make up \$2,000 or \$3,000 of the difference between these amounts, the deficiency which still would remain should be provided against by reducing the expenses of the institution.

The Treasurer's statement was laid on the table for further discussion.

Mr. Helms moved, seconded by Mr. Yates: "That it shall be the duty of the President for the year to prepare the annual report for presentation at the annual meeting of subscribers." The mover explained that his idea was simply to fix the responsibility for the presentation of the report.

Mr. Hayward thought that as the board has a paid secretary the duty referred to should not be thrust upon the honorary president.

After a little discussion the resolution was carried.

Mr. Hayward moved, seconded by Mr. Shotholt, "That in the opinion of the hospital board the business of the hospital should be managed in a judicious manner, and that a special committee be named for the purpose of drafting a by-law to that effect." The mover thought this plan would ease the members generally of a great deal of work, and make the line of management more continuous.

A general discussion upon the resolution took place, it being contended by Mr. Wilson and Mr. Yates on one hand that the system heretofore followed of dealing with everything through the board as a whole is the proper one; and on the other hand by the mover and Mr. Ellis, that that system is too cumbersome and apt to result in delay.

The resolution being put, and a show of hands being called for, it was declared lost, the ayes being Messrs. Ellis, Crimp, Hayward, Shotholt, Pemberton, Braden (3), Brown, Braverman, Yates, Roberts and Wilson (7).

Mr. Hayward, Mr. Crimp and Mr. Shotholt asked that the names be recorded; but Mr. Roberts contended that under the rules this could not be done, and the chairman said he could find no authority for recording the names.

Mr. Helms moved, seconded by Mr. Yates, "That a committee of five members be appointed to inquire into the management of the hospital, with a view of ascertaining in what way it can (if possible) be more economically conducted consistent with maintaining the present state of efficiency." Mr. Helms explained the proposition because of the many allegations he had heard as to mismanagement, and that as one of the representatives of the city council on the board he wished to find out what ground if any there is for these statements.

His resolution being seconded, Mr. Hayward's resolution became the subject of discussion. The mover contended that the resolution was not proposed to be appointed had reported.

The resolution was adopted and the Chairman named as the committee Messrs. Hayward, Yates, Crimp, Braden, Brown, and Brown. On motion the committee were requested to report within one month.

Tenders for supplies were opened: For drugs, Messrs. C. & M. J. A. Casanova, Watson & Clark, Roberts, Roberts, and Munday; for bread, McKillop Bros. and Mathew E. Blaguer; meat, R. Porter & Sons; L. Goodacre, B. C. Cattle Co., and John Parker; vegetables, Al. Mos & Co. and Campbell & Fraser; washing, Victoria Steam Laundry; for coal, Messrs. Braverman, Messrs. Gordon, Fell & Co., Braverman, Saunders and Jameson; wood, James MacMillan. The tenders were referred to special committees with power to act.

The board then adjourned.

The board then adjourned.

The board then adjourned.

THE CITY.

REQUIRE mass was celebrated at St. Andrew's (R.C.) cathedral yesterday for the deceased priests and bishops of the diocese.

The case of Robt. Ward & Co., Ltd., v. McLeish, which was begun in the Supreme court on Saturday, was continued yesterday at court, the plaintiffs agreeing to accept half the amount of claim, which is about equivalent to knocking off the interest in dispute. Each party will pay their own costs.

Mr. William McKinnon, proprietor of the Oriental hotel, is the owner of two very fine carrier pigeons. On Sunday the birds were taken out to Sidney on the Victoria & Sidney railroad, where they were given their freedom with the result that both birds returned home, the younger a little in advance of the older.

Devilish steps will be taken in the matter of choosing a pastor for the James Ray Methodist church on Friday evening when a meeting of the managers will be held to consider the question. It is expected that the Rev. Mr. Knox, who has filled the pulpit of the church for several Sundays past, will receive the appointment.

Upon inspection and condemnation by Dr. George Duncan, city health officer, and Sanitary Inspector Collins, yesterday, a large quantity of provisions, including numerous hams, etc., which were being sold at a low price, were yesterday dumped into the refuse sewer. A quantity of bananas found at another place were similarly disposed of.

The Equilateral graving dock was on Saturday visited by H.M.S. Hyacinth, and on Thursday the Royal Arthur will enter to receive some copper on her bottom. The Royal Arthur will be the largest vessel which has entered the dock. It is expected that the Hyacinth will leave for Seattle early next week. She is now re-equipping for the cruise.

FIFTEEN applicants to the legal profession presented themselves before the bar examiners yesterday. Of these seven took the intermediate and seven the final examination, conducted by Messrs. A. A. Richards, Q.C., and Mr. D. M. Roberts, Q.C. Mr. J. Stuart Yates had one candidate for preliminary examination before him. The agency will probably be over this afternoon.

The first sample of paper turned out by the Albert paper mills was received here on Saturday. It is a jute wrapping paper, to be used for covering the paper shipped from the mills. Thursday last the mills started up regular work, and are now engaged in turning out manilla paper, for which the company have a large number of orders ahead. The capacity is 15 tons a week working day time, but the output can be increased to 35 tons weekly working day and night shifts.

On Sunday afternoon Walter, a son of Lieut. Col. Wolfenden, who was camping with some friends up the Gorge, fell from a tree and hurt himself somewhat seriously. One of his wrists was sprained and his back was injured. He was brought home in a hack, and last night was reported to be getting along very nicely. He was fortunate in not receiving more severe injuries, as he fell fully thirty feet to the ground. The branches of the tree, however, broke his fall.

MILTON lodge, Sons of St. George, have decided to attend divine service at St. Saviour's church, on Sunday next, on which occasion Rev. W. D. Barber will preach the annual sermon. The brethren will meet at St. George's hall and start therefrom at 2:30 p.m., arriving at the church at 3, where the Daughters of St. George will be waiting. The Daughters of St. George contemplate celebrating their first anniversary by way of a social concert on Friday evening in Harmony hall.

The Salvation Army last evening took possession of their new barracks, or rather their post, which was once before the home of the old Methodist schoolroom on Lyceum hall on Broad street. Adjutant and Mrs. Archibald had charge of the meeting, which were of special importance, and these officers will again direct the exercises of today. The Broad street barracks are central, convenient and in other ways well adapted to the use of the army; it is expected that there will be no more moving until the promised handsome barracks which the corps here expect to build are completed and ready for use.

The trial of Lantz et al. v. Baker came up yesterday before Mr. Justice Walker on a special jury. Plaintiffs had a contract to do certain work on a mining claim, the defendant at so much per foot, the agreement being that should they be stopped from working before completing the full amount of their contract, the plaintiffs would receive \$1,000 compensation. THE CITY.

FROM THE DAILY COLONIST, AUGUST 1. BOARD OF ALDERMEN.

A Little Electricity Introduced into the Meeting With Lively Results.

Ald. Wilson Tarrs on the Current by Moving to Discharge Mr. Stickels.

The City Council had a decidedly lively meeting last night, electric lighting being the subject of discussion. The proceedings were opened by the reading of the letter from the Albion Iron Works, received at Monday's meeting, offering to tender for boilers and machinery. The letter was read and filed and some general discussion was indulged in.

Ald. LINDINGHAM supported the proposition already advanced of arranging the boiler grates to burn the city garbage with the exception of night soil.

Ald. MUNN wanted to know how much of the garbage would burn.

Ald. HARRIS replied about 70 per cent, and the residue after burning could be put on the roads.

Ald. Dwyer was ready enough to have the garbage burned in this connection if it could be shown to him to have been a success already elsewhere, but he did not want to simply start an experiment.

His Worship said it was not a question simply of burning garbage, but whether there was going to be any saving to the city.

Ald. MUNN wondered that the city had never got rich over the many schemes that he suggested to save money. It generally ended in the money being sunk and no good gained.

Ald. LINDINGHAM maintained that the scheme of rotary bars for the grates suggested by Mr. Cartmel would cost only one-third of what the present grates cost, and would be a distinct saving to the city in disposing of the garbage. It was worth trying, and even in the event of its being abandoned the grates could be used without any change being made.

The specifications for engines and boilers to be called for were then taken up in detail.

Ald. KEITH-WILSON wanted the specifications submitted to some competent engineer. The gentleman who had drawn them up was an electric expert but it was to be doubted whether he was an engineer. He was a competent man and he now began to see daylight and wanted to use Mr. McKinnon's services. He moved:

"That Mr. Stickels be informed that his services are no longer required inasmuch as the city has decided to employ Mr. McKinnon as a competent person to draw up the specifications for the new electric plant and we intend to submit all plans and specifications in connection with boilers and engines to an engineer to look after the city's interests."

Mr. Worsnip: "Then I understand you want to have Mr. McKinnon attend to the electrical part of the work."

His Worsnip: "Yes."

His Worsnip: "Then you intend, do you, to throw these specifications over again?"

Ald. KEITH-WILSON thought this matter had hung fire so long that they might just as well start all over again.

Ald. Dwyer thought not a friend of Mr. Stickels nor interested party had been retained personally, wanted some reason given before he could ever think of voting to discontinue that gentleman.

Ald. LINDINGHAM would second the resolution as an engineer.

Ald. HUMPHREY thought the charges in connection with the purchase of the electric wire should be looked into by a committee of the council.

His Worsnip: "O, you can't pay attention to all the reports you hear on the street. If you were to believe all the rumors I have heard you would imagine that all the council should be placed in Sing Sing."

Ald. HARRIS: "Is not Ald. Wilson's motion out of order?"

Ald. KEITH-WILSON held that as the city had already an electrician why get another.

His Worsnip: "This matter was all gone into months ago and very good reasons were given for making the appointment of Mr. Stickels."

Ald. HUMPHREY remarked that the electric wire charges were more than street cleaning charges, and that the city was paying a large sum of money for the purchase of the electric wire, and he believed that the city should be looked into by a committee of the council.

Ald. Dwyer: "If the city was robbed now, how about the city having paid more for the electric wire than it has received for the garbage?"

Ald. MUNN: "Where could the wire have been bought cheaper?"

Ald. HUMPHREY was not complaining of the price of the wire—he only said what he had heard and for that reason wanted an investigation.

Ald. BAKER wanted to know if there was any one engineer any of the aldermen preferred the specifications to be submitted to. The only thing he had heard against the specifications was that they were somewhat loose and would give a chance to contractors to get in a lot of extra. That, however, had been attended to, and there was no way now that a contractor could possibly rob the city. Ald. Dwyer: "If we go and change all the specifications again there is no guarantee that next month they would be any further advanced."

His Worsnip remarked that the different engineers to whom the specifications had been presented all differed in their opinions and if a dozen more were consulted the result would be the same.

Ald. KEITH-WILSON wanted this matter settled. Some of the aldermen had expressed to him that they wanted Mr. Stickels removed and he wanted to give them a chance to vote upon the matter.

The Mayor read the motion, whereupon Ald. BAKER suggested that the last part of the motion be struck out and all words after "required" in his motion.

Ald. MUNN objected to the motion being withdrawn. Only an amendment could be made.

Ald. LINDINGHAM: "It can be withdrawn and amended."

Ald. Dwyer: "It can't unless the rest of the council consent."

Ald. MUNN: "Of course it can't. Amendments would be no use as all H. H. could do this sort of thing. The mover can't snatch up his motion and cut it all to pieces after it is put to the meeting."

Ald. KEITH-WILSON: "I maintain I am perfectly in order."

Ald. MUNN: "You are not."

Ald. KEITH-WILSON: "The same thing is done over and over again in council."

THE CITY.

ALD. MUNN then objected that no notice of motion had been given.

His Worsnip considered this point well taken.

Ald. HUMPHREY thought that the best way was to withdraw the motion and move for a committee to find out whether Mr. Stickels was properly qualified to act as engineer.

His Worsnip would like to know how they could get an unprejudiced committee of the council to deal with the matter.

Then a letter from Mr. J. A. Thomson to the Mayor was read, in which the Mayor declared Ald. Keith-Wilson's motion out of order, no notice of motion having been given.

Ald. BAKER did not want it published. It had been sent to him simply for private use. After some further discussion the Mayor declared Ald. Keith-Wilson's motion out of order, no notice of motion having been given.

Ald. Dwyer, seconded by Ald. Humphrey, moved that tenders for engines, boilers, dynamo, lamps and electric work complete be called for in accordance with specifications to be approved by the council. His object in making this was to get to work and do something. Time was slipping away, and at the present outlook it seemed unlikely that the work would be done this year. If the specifications were satisfactory let the council go ahead and call for tenders.

Ald. MUNN moved that the specifications prepared by Mr. Stickels be adopted.

Ald. Dwyer seconded this, and the specifications were adopted without further discussion.

It was decided that the tenders be in by Monday, August 20, the date for the completion of the machinery to be December 10. It was also understood that the City Barristers be written to make out the conveyances for the electric light site at once. The council adjourned shortly after ten o'clock.

BLAND'S BODY FOUND

The mystery surrounding the disappearance of Alfred Bland has been cleared away by the finding of the unfortunate man's body in Indian and Charlie yesterday morning discovered the corpse lying on the rocks near Laurel Point, where it had been left stranded by the ebbing tide. The provincial police were informed and removed the body to the morgue. Dr. Haas, the coroner, held an inquest in the afternoon. Peter Hansen, who was on duty at the time, testified that he had seen Bland between 8 and 9 o'clock on the night of Wednesday the 18th inst., at the Way-House, Esquimalt road. Robert Smith, an Indian, who was on duty at the time, testified that he saw Bland about 10 o'clock, and said he was going home. That was the last seen of him till his body was found yesterday. Thos. Pearson gave evidence to the effect that he saw the body on the beach between 11 and 11:30 on that night. He could not say if there were lights on it or if the guards were open or shut; it was moonlight, and he could see the body. The body was found by John Bland, a brother of the deceased, identified the corpse.

Dr. Lang, who made the post mortem, swore that deceased met his death by drowning. There was a bruise on the back of his head which was not serious in itself, and might have been caused by the fall. No other material evidence was adduced and the jury brought in a verdict "That the deceased, Alfred Bland, was drowned by the water of Seft's point; that he came to his death from drowning, and that there is no evidence to show how he came to be in the water."

The funeral takes place this afternoon at 2:15 from the A.O.U.W. hall, Government street, at fifteen minutes later from St. John's church.

ELECTION NEWS FROM THE NORTH.

PORT SMITHSON, July 24. (Special.)—The steamer Danube arrived here to-day with Captain John Irving on board; he intends to remain in the district until after the elections. Everyone was pleased to see him, and the general feeling is that when he returns to Victoria it will be as member-elect for Cassiar.

The nomination took place at this place on Saturday last. "Captain John" was nominated by Mr. G. W. D. Clifford, the member-elect for Cassiar, and Mr. William Dalby was proposed by Messrs. Robertson and McLaughlin, both of Cassiar. As neither candidate was present there was no speech-making.

Mr. Dalby in his circular to the electors promised to do his utmost to secure for the district telephone connection between the Skeena and outside settlements; Captain Irving will use his utmost endeavors to have communication established to Victoria by the extension of the telephone line to the Skeena, and the telephone connection to the telegraph wire at the nearest possible point.

BURNING LUMBER PILES.

MINNEAPOLIS, Minn., July 31.—Twenty acres of lumber piles, containing twenty-five million feet of lumber belonging to the Sheelin-Carpenter Lumber Company on the bank of the river, a quarter of a mile from the centre of the city, were destroyed by fire this afternoon. The loss is \$300,000. The Chicago, St. Paul, Minneapolis & Omaha R.R. Co. is the owner of the lumber. The piles were burned, together with twenty-one freight cars and a valuable gas plant. The loss there is \$33,000. A spark from an engine is thought to have fallen among the lumber which, dried by long weeks of drought, took quick fire for its fumes. Long before the firemen had arrived the fire was beyond control. Every piece of apparatus in the city is in action. St. Paul sent two engines and crews, and Stillwater started a fire engine to come to the rescue. The fire was extinguished by 1,500,000 bushels of wheat, and several warehouses caught fire several times.

TORONTO TOPICS.

TORONTO, July 31.—(Special.)—Thos. Kelly, a Grand Trunk brakeman, was killed by falling from the top of a car at York. He leaves a wife and three children.

Protests have been entered against two members elect; Sam, Peiron, member in Haldimand and Field, Liberal member in West Northumberland.

The Globe's Ottawa correspondent says the report emanating from Montreal that Hon. Joseph Royal had purchased La Canada, Ottawa, and was to assume its editorship is unfounded.
