The Difference Between Two Pieces of Furniture

which look alike, is mainly a difference in the INTENTIONS of the manufacturer, for good designs may be COPIED and good materials may be LIMITED. The difference is not always visible at once and especially is this true of upholstered furniture—but it is always there, and sooner or later will prove its nature and either honor the dealer or destroy his trade. That single reason prompts us to avoid promiscuous buying and we, therefore, draw on those makers whom we know never depart from the canons of good taste in design and strict integrity in manufacture.

Dominion Government Decided to Only Wait Victoria Wishes to Make an End Songhees Reserve

REQUIRE SURRENDER OF REVERSIONARY RIGHTS

Collingwood Schreiber Rev. His Plea For Asiatic Labor More Time For Completion of Mountain Section

Ottawa, Sept. 13.—The Indian Department still awaits a reply from the city council of Victoria in reference to the Songhees Reserve. Mr. B. is quite willing to meet all the demands of the city, but claims that it is necessary for the department to secure reversionary rights of the city before any part of the land can be transferred for railway or other purposes. At present the city acts the government is ready to do its part.
 Collingwood Schreiber arrived in Ottawa with the same will the used on the coast to the effect, "The mountain section of the G. will never be built, at least until we are grey-headed, unless the contractors are allowed to get in other white laborers. The interview for the lines of those given to Coast and has little new, though it is sent to the employment of Asiatic the mountain section of the G. Mackenzie King, Minister of Labor, prevails, and that there is no possibility of admitting Oriental labor. The policy of the government is to refuse admission to Asiatic labor as a punishment of that policy. It is possible that a bill will be introduced at the coming session extending time for the completion of the mountain section.
 The mayor of Cobalt has applied to the Dominion Government for assistance in meeting the losses sustained by that town last July and during the recent outbreak of typhoid fever. Nothing, however, is likely to be done by the federal authorities, because the fire was not so serious as to be considered a national calamity. Therefore there would be no prospect of action and the typhoid fever epidemic is for provincial not federal consideration.

MANY GUESTS HAVE CLOSE CALL

Long Island Hotel Sacrificed to Cowardice of Unidentified Incendiary.

Edgemere, L.I., Sept. 13.—In which destroyed the Holmt Street here before daylight today, saw five guests and twenty employees narrow escapes. The fire which proprietor said was undoubtedly incendiary origin, started in the basement and worked up through the structure so rapidly that the floor was ablaze before the guests were given the alarm. While the guests were able to leave the stairways a half dozen, among two women, leaped from a second-story balcony but were not seriously hurt. The guests lost practically of their jewelry and clothing, were cared for in neighboring cottages. The hotel building was valued at \$600. A high wind blowing in from the sea carried the sparks to the cottages and the cottages were bucket brigades to prevent the spread of the flames.

A Phantom Promise.

SACO, Me., Sept. 13.—After weeks' idleness the 2,200 employes of the York mill thrown out of employment by the strike of 150 weavers turned to work today at the old wages, the mill management promising to "do something for them as possible."
