MIRABEAU, DANTON, GAMBETTA. That Gambetta was the greatest ma among all those whom the third French tion brought to the front is a thing greed upon. The second revolution havbeen but a small affair, bringing out ne

reat man at all, the essayists of the daily press are forced back to the time of the first to the revolution of modern times—in order te find something like his parallel. Already it seems as if Mirabeau would be generally fastened upon, as the character of nearly a hundred years ago with whom the statesman just departed would most fitly compare. But it may appear that Danton also will have to be included, if we would do justice

It is Carlyle's judgment that the first revolution drew out three really great men -Mirabeau, Danton, Napoleon. As Gambetta was not a soldier, he cannot be compared with Napoleon, but in character and career he resembles Mirabeau here and Danton there in several important respects. Like Mirabeau he seemed a born leader of a tumultuous, revolutionary assembly, impatient of control, and with a turn for deserate measures. Mirabeau's supremacy the constituent assembly

never disputed, though it might been had he lived longer; may, he might even have gone to with a wide awake prudent wife. the block as did Camille Desmoulins, Danton. Robespierre, and others, who in turn guided the popular whirlwind until their method will have a paid-for home-humble, when he was at his apparent culmination : whether his star would have declined had remembered only as a matrimonial cement he lived a few years longer it were bootless to inquire. What history does record is that he died without a rival to dispute with him the foremost place in the assembly and the beginning of a year is an appro the control of the revolutionary constituent | sideration. assembly was the control of France.

As the apostle of war against enemies abroad, Gambetta will remain the special par. allel of Danton in French history. When a of divorce are dealt out to those who fall the whole assembly seemed paralyzed with terror, Danton's gigantic force and courage turned the tide and roused the timorous to action. It was boldness, he said, that was wanted, not submission. "De Vaudace, et encore de Vaudace, et toujours de Vaudace." To dare and to be bold, again and always, were the words which, pronounced by Danton in a voice of thunder, infused courage into the waverers at the critical moment. For his spirit of resistance to foreign foes, and for his power rary visit to Chicago as a member of the of communicating that spirit to others, Esmeralda company, suddenly bethought

became a leader of the people. Gambetta, like Danton, sprung from the ranks, andanother parallel-both were lawyers. All three were alike in this, that they put morality at defiance and lived lives of reckless indulgence. Both Mirabeau and Danton died young in consequence, but the guillotime saved all trouble of enquiry as to Danton's health. Danton had scarce ever any opportunity of doing better, but Mirabeau through high connections, and Gambetta through his own wealth and wealthy connections besides might have done better, had they been so disposed. On the whole, and while allowing for some very strong points of resemblance between Gambetta and Danton, it seems likely that in the history which is yet to be written Gambetta will be bracketted with Mirabeau, as the most fitting character which the third revolution has to show to parallel the first.

A HOME OF ONE'S OWN.

None except those who have tried it fully realize how comfortable it is to have a home of one's own. In importance it is next to being happily married. It is doubly dear, because it has been purchased with the savings of mutual earnings of husband and wife.
