EXTENSIVE FIRE AT HALIFAX.

Total Loss of \$150,000, But Nearly All Covered by Insurance—A Fireman Impaled on a Gate, ALIFAX, N.S., Aug. 21.—The fire we ted early this morning in the big is brick building of Stairs, Son & Morower Water-street, was practically d to that building, though several ad buildings were somewhat damaged, it corched, and the whole building flooded by cater from the top story down. Stairs, son & Morrow's building is completely utted. It was valued at about \$25,000. Their stock, very little of which was aved, was valued at about \$5000. They have about \$5000 insurance, hough it is impossible as yet to get the letails. The Halifax Insurance Company has \$12,000 on the building, the London and Lancashire \$8000 on the stock. The Commercial Union has \$24,000, and the Eastern Acadia and other companies are interested.

nial of the Story—Name of "The Lady From Malta." LADELPHIA, Aug. 21.—The Times yes published the following from its Lor

on correspondent:

Now that the Government has considered it advisable to issue an official contradiction of the persistent reports according to which the Duke of York had contracted a secret marriage some three years ago with the dughter of a distinguished naval officer it may be just as well to mention the name of the latter, which has been on every tongue for two or three months. or two or three months.

It is that of Sir Michael Culme Seymour, the has just been appointed to succeed the 1-fated Sir George Tryon as commander-innief of the British naval forces in the Medi-

chief of the British naval forces in the Mediterranean.

The lady referred to is his eldest daughter, Mary, now about 22 years of age, and, according to the current gossip in Mayfair and Pall Mell, a sum of \$300,000 has been settled upon her by the Queen. Her father's somewhat unexpected promotion to the Mediterranean command, and the knighthood conferred upon George Lewis, who is reported to have been the lawyer entrusted with the negotiations in the case, are asserted to have bearing upon the matter. The only thing that is not quite understood is that the Government should have deemed it necessary to issue an official denial of the report that connects the name of Prince George with that of Miss Mary Seymour, and there are people who are fill-natured enough to 'draw attention to the fact that the last occasion on which an official denial of this kind was made was during the reign of King George III., when it was held advisable to put a stop to the story that the Prince Regent, afterwards King George IV. had contracted a secret marriage with the beautiful Mrs. Fitzherbert.

Now, it has been proved over and over again by means of documentary evidence and other incontrovertible testimony that a marriage did take place between Mrs. Fitzherbert and the Prince Regent, and hence the parallel drawn between the two cases is rather to the disadvantage of the present denial.

DR. GALLAGHER AND THE EXPERIS

London, Aug. 21.—The false report that Dr. Thomas Gullagher, the Irish-American, had been released from Portland Prison in consequence of mental derangement has caused the publication of considerable medi-Tuke after making examinations agreed that Dr. Gallagher was merely simulating mental and physical illness. The prisoner's knowledge of medicine, they said, enabled him to do this with exceptional cleverness.

Sir James Bennett's private report, made in 1889, stated that he found Gallagher dining off chicken and potatoes, for he had feighed stomach troubles so well that the prison officials had concluded he was unable to digest ordinary prison fare.

The latest report made by Dr. Tuke says that at last Gallagher has been induced to give up his simulation of insanity and go to work with the other prisoners. He is now, says Dr, Tuke, healthy and industrious.

Editor World: In my communication on nunicipal affairs you credit me with giving a net revenue of \$400,000 to the Waterworks tead of \$40,000. As a matter of fact the Waterworks show an actual deficit of \$43,000

per annum.

The Assessment Commissioner writes me that the increase in salaries in his department is only \$300. The figures given in the estimates as amended and adopted by the council June 23, 1893, are those I quoted, \$686.

Russia Will Patrol Behring Sea,
Shanghai, Aug. 21.—It is reported an icebreaker has been taken to Vladivostock in
order that it may keep the harbor open
during the winter for the Russian squadron
to be stationed on East Asiatic coast. The
principal duty of the Russian vessels at this
place will be the preservation of seal fisheries
in Russian waters of the Behring Sea.

Some persons have periodical attacks of Canadian cholera, dysentery or diarrhosa, and have to use great precautions to avoid the disease. Change of water, cooking, and green fruit is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed, no further trouble will be experienced.

If you are, remember that The Sunday World, containing in brief nearly all the news to be found in the Monday morning papers, besides the week's society gossip, togother of the World of

Colic and Kidney Difficulty.—Mr. J. W. Wilder, J.P., Lafargeville, N. Y., writes: "I am subject to severe attacks of colic and kidney difficelty, and find Parmelee's Pills afford me great relief, while all other remedies have failed. They are the best medicine I have ever used." In fact, so great is the power of this medicine to cleanse and purify, that diseases of aimost every name and nature are driven from the body.
