President McKenzie Returns,

President William McKenzie of the Toronto Railway Company returned to the city yesterday from a tour in England and Scotland. Mr. McKenzie was accompanied by his family, and spent some three weeks in the old land, wholly on pleasure bent. Most of the time was spent in London, but a short run was made into Scotland. Mr. McKenzie gave business the go-by altogether during the trip, and didn't see anything in the electric systems abroad to atthing in the electric systems abroad to attract his attention. The railways here still cling to the old systems, and while there are electric developments in some quarters the progress is slight.
