CLEANER MILK—BIGGER PROFITS

Every dairyman—every farmer—anybody who owns one milch cow or more should use the **STERILAC SANITARY MILK PAIL**. It prevents contagion and disease, makes clean milk an absolute certainty, it saves time, and puts an extra profit on your milk supply. The Sterilac Pail has a capacity of 14 quarts, stands nearly 14 inches high, and has no joints or seams on the inside, thus making it germ-proof and easy to clean. It has extra wide detachable funnel, equipped on the inside with a deep metal dirt shelf. Place a piece of ordinary cheese cloth over the bottom of the funnel as a strainer. All dirt falling into the funnel opening is caught on the shelf or screen—not on the milk strainer, which is protected from falling dirt by the top part of the pail. As the milk falls on the slant, it passes over the shelf direct to the strainer into the pail. Milk and dirt do not come in contact—no chance of anything falling on the strainer but milk. This is the only effective and economical sanitary pail on the market. Highly endorsed by medical authorities. Price, \$2.50; in lots of six or more, \$2.25—money back if not as represented. Write for big Catalogue of dairy supplies—free.
