

The treatment of indigestion, whether gastric or intestinal, is invariably facilitated by the use of

LACTO-GLOBULIN

as an adjuvant to treatment. When this food is used as sole diet for a few days, there is a marked subsidence of the symptoms, and its continued use will result in permanent relief.

LACTO-GLOBULIN is absolutely the most easily assimilated form of nourishment known, and has a peculiarly soothing action on the digestive tract, decreasing local irritation and minimizing the work entailed on the organs.

ANY DRUGGIST CAN SUPPLY IT.

Lacto-Globulin Co.,

LIMITED.

795 CRAIG STREET, MONTREAL.
