

VALENTINE'S MEAT JUICE.

This dietetic, first offered to the Medical Profession of the United States in 1871, has, in the meantime, been fully tested by them, and through them it has acquired its present position. We desire to submit brief extracts from the testimonials of some of these well-known medical gentlemen for the consideration of the profession in Canada. Any further evidence of the value of the Meat Juice than is contained in this summary of results from its use will appear unnecessary.

The Meat Juice is a liquid extract, from which all fat, fibre, and other matter, not readily assimilable, have been excluded. It can be prepared (with cold water) in an instant, at the bedside of the sick, in travelling, or whenever concentrated nourishment is urgently demanded.

Our Circular—Book—with extended reports, and the recommendations and directions of the practice of the United States, will be forwarded by us, when requested. To the trade we will send our price-letter when advised. The Meat Juice may be obtained in any of the cities of the United States, and in Montreal and Toronto.

Valentine's Meat Juice is probably second only to transfusion, without any of the dangers of the latter expedient.

The Meat Juice is the nutrient *par excellence* for a tired stomach, or to fortify the system against any of exhaustion.

GEO. L. BEARDSLEY, M.D., Late Surgeon in charge Bellevue Hospital, N.Y.

As a concentrated food, I can hardly speak too highly of the Meat Juice. *We have not found a single case in which it was not beneficial, and in which it did not agree with the stomach.*

Bottles of Meat Juice which have been kept through the moist and hot weather of the past twelve months, in this latitude (29°), are perfectly sweet and fresh.

This preparation is one that cannot be dispensed with in very many cases, neither can its place be made good by any substitute that I have tried.

H. A. PAINE, M.D., Albany, N.Y.

The Meat Juice affords opportunity to administer nutriment to the very large class in our Insane Asylums who refuse food in bulk. It is the "*multum in parvo*" that exactly meets the case.

AND. MCFARLAND, M.D., Supt. Oak Lawn Retreat, Jacksonville, Ill.

As an easily digested, concentrated, rapid blood-making, and agreeable nutrient, Valentine's Meat Juice is, in my opinion superior to any of the various preparations of meat in the market, and I may say that my experience with them during the past fifteen years—in both military and civil practice—has been considerable.

OSCAR C. DEWOLF, M.D., Chicago, Ill.

I consider the contents of your little bottle most invaluable in all acute and wasting diseases.

W. M. FITCH, M.D., Charleston, South Carolina.
