

DR. WHEELER'S
ELIXIR FERRI ET CALCIS PHOSPH. CO.
LACTO-PHOSPHATES prepared from the formula of **DR. DUSART, of Paris.**

Compound Elixir of Phosphates and Calisaya—A Chemical Food and Nutritive Tonic.

THIS elegant preparation combines with a sound Sherry Wine percolated through Wild Cherry Bark and Aromatics, in the form of an agreeable cordial, medicinal doses of *Phosphate of Lime, Phosphate of Iron, Phosphate of Soda, Alkaloids of Calisaya Bark, Quinia, Quindia, Cinchonia, and Free Phosphoric Acid.*

The Compound Elixir of Phosphates and Calisaya is the outcome of twenty-five years' investigation of the chemistry and therapeutics of phosphorus and its compounds, testing carefully by prolonged use in practice the relative value of pure phosphorus in pill, solution and combined as phosphoric acid, phosphates and hypophosphites, in the treatment of nerve prostration and wasting diseases, and the most logical medical minds at home and abroad have a common experience, that the preparation is more acceptable to irritable stomachs, more easily assimilated, and more prompt and radical in its restorative action than any other form or combination of phosphorus in existence. It meets a want every day experienced by the busy practitioner of a *general utility* compound of those elements of nutrition that may be safely exhibited to child or adult for prolonged periods, in all forms of debility, without danger of over-stimulating or depressing the organism. Manufacturing chemists and druggists are so persistent in introducing *new theories and new remedy sensations* that it is difficult to secure the attention of the practitioner to any preparation long enough to ascertain its value, but this Compound is now so widely and favorably known to the medical profession that it may be accepted as a standard with perfect confidence; its use in practice will demonstrate its merits. The chemical working of the formula is peculiar to the originator, and the various imitations and substitutes offered by druggists will not fill its place.

DOSE—For an adult, one teaspoonful three times a day, after eating; from seven to twelve years of age, one dessertspoonful; from two to seven, one teaspoonful.

Please mention the "Canada Lancet."

Prepared by **T. B. WHEELER, M.D., MONTREAL, D.C.**

APIOLO

OF DRS. JORET AND HOMOLLE.

APIOLO is a specific for Menstrual disorders: it relieves Suppression, regulates the Periods, and prevents or removes the pain which accompanies them. It is without danger, even in cases of pregnancy. But the trade issues, under the name of *Apiole*, products more or less adulterated; among others, a greenish preparation which physicians should reject. In a state of purity *Apiole* is an oleaginous liquid, of an amber color and denser than water. This is the character of that supplied by Drs. Joret and Homolle, the discoverers of this valuable emmenagogue, the great efficacy of which has been established in the Hospitals of Paris.

It is prepared only at the **PHARMACIE BRIANT, 150 Rue de Rivoli, PARIS.**

Dose.—One capsule morning and evening, during 6 days at the presumed period of the monthly course.
