

## BOARD OF MANAGEMENT.

The meetings have been held weekly during the past month. It is gratifying to note the steady progress that is being made in the work in the Hospital, as the reports from the various committees testify. A pleasing feature of the meeting held on June 30th was the presentation by the President, Mrs. Baldwin, on behalf of the ladies of the Board, of a handsome travelling-bag to Mrs. Sey on her retirement from the position of Matron of Grace Hospital, after which light refreshments were served and short speeches made, all expressive of the high esteem in which Mrs. Sey is held.

Through the generosity of the members of the Board and Associate members, a Jubilee treat of strawberries and ice cream was provided for the public patients and nurses.

## A POPULAR MATRON.

Universal regret is felt among every member of the staff and every employee at Grace Hospital that Mrs. Sey, who has been matron of that institution for the last five years, is leaving to-day to accept a similar position in Trinity College school, Port Hope. No more popular, efficient or esteemed charge d'affaires has ever presided over the department administered by her, and this was abundantly borne out by a most touching letter of regret from the Board of Management, accompanied by a handsome travelling-bag, with silver monogram. Every department of the Hospital showed its regret at her departure in some tangible form. The nurses presented her with a superb five o'clock tea-service and urn. The employees contributed a large silver fruit-dish, handsomely engraved, and the medical staff sent her a marble clock, and a letter expressing their sentiments of regret and esteem.

## HOSPITAL REPORT.

Patients in June 1st.....	60
Born.....	11
Admitted.....	50
	121
Discharged.....	67
