MANUFACTURERS OF ALL KINDS OF

FIRE AND BURGLAR PROOF SAFES,

Steel Vaults, Vault Doors, Combination Locks, Prison Locks, and all kinds of
 Fire and Burglar Proof Securities.

The only manufacturers of Fire Proof Safes with Non-conducting Steel Flange Doors, which have been demonstrated by actual tests to be the best fire resisting Safes now made.

Messrs. J. & J. TAYLOR,

Toronto, Ont.

Charlottetown, P. E. I., Feb. 29, 1884.

GENTLEMEN,

I have much pleasure in stating that the No. 1 round cornered safe, with your *new patent flange*, purchased from you in September, 1883, proved to be thoroughly fire-proof. My store was burnt with others in the large fire that visited this town on the 20th inst., and the safe, with my stock, etc., was burnt. The safe I may say was *red hot*, so that the *handles and deal* were burnt off, and the outside of the safe was warped and scaled by the heat; but on opening I found everything inside in *good order*, and the writing is as legible as when first written. I have every confidence in recommending your safe to any requiring protection of that kind.

Yours truly,

S. T. NELMES,
