THE WINTER CARNIVAL

The approaching winter carnival is at last eligiting considerable attention, and the committee who have the success of this annual event in their hands are working with great energy to attain their object. The executive committee met at the Windsor last night, Mr. Angus Grant in the chair, when the most impersual question of all, the fin-nees, was discussed. About \$3 000 more was asked for appropriations by sub-committees than the funds within view, and the difficult matter of cutting down proposed attractions occupied two hours. It was concluded that not more than \$400 could be granted the curling bonspiel, Mr. Slessor suggesting that lists for supplementary subscriptions be placed in each curling rink. The following is

OUR OTTAWA LETTER.

(From our own Correspondent.)

OTTAWA, Jan. 7 .- In spite of the expostula tions and entreaties of their supporters. Men-isters have finally decided to dissolve Parlia-ment and go to the country. The 5th Feb-ruary is mentioned as about the date fixed for the elections. If this arrangement is agreeable to the Tories it is by no means displeasing to the Liberals, who app ar only too anxiots to try conclusions before the electors.

ONLY EXTREME DESPERATION

could have induced the ministry to take this precipitate step. Their friends here regard it with profound misgiving. But they say Sir John knows what he is about, and has a better idea of what is good for the party than they do. But they confess their inability to penetrate his reasons and say they would not be astonished to see him defeated. A leading Tory with whom I con-eased last evening told me that Sir John him-elf was his authoraty for saying that the excitons would take place immediately. There is

INTENSE ACTIVITY in political circles in consequence, and the contest in this city promises to be the most furious on record. The Tories do not conceal their redouble their energies to make the r expec ed

EASTERN ONTARIO in spite of the gerrymander, will go in the Federal elections pretty much the same as it went for the Local House; and for a very simple rosson—the Tories have alterated the Insh and French, whose votes added to the regular Liberal strength makes this section of the Province safe for Blake. The season is had for electioneering, and may be stormy in February, but you can see the Literals have fire in their eyes. They know they are on the road to success, the country is with them, their organization is good and every man of the party organization is good and every man of the party to harmers. Now or never, is the cry, and they mean new! But they know that to win they must we k, and they will work. They have all the enthusiasm of recens success. They have been over the ground the roughly in the jate campaign and know exactly where their exceptions of water and the second that the party and the party strongth and weakness lie.

SIR CHARLES TUPPER

sails for Canada next Monday. He comes, it is said, to take part in the election. Readers of these latters will remember that some months ago I stated that Sir John had offe e l to retire to the Senate and sucreader the le dership of the purey to Sir Charles only ic aming the Premiership for a limietd period, providing SI Charles would enter the Commons and assume the duties of Minister of Finance. His tinh Com duties of Minister of Pinance. His tinch Commissionership declined at that time, but it is said he now accepts with the understanding that he shall be once Premer and Sir John going England as High Commissioner. Of course this pragramme depends for its runniment on the results of the general election. Sir Charles is undoubtedly the strongest man the Tories could get to had them, now that Sir John is growing infirm and is sinking under the obloquy of his micrable. "No Popery" anti-French coies. It is thought that at Sir Charles had nothing to do with the Riel execution, of the anti-Homa Rule, anti-French, anti-Cathobe blunders, and also unconnected with recent syandals that he could.

firest, however, as the powers of the new leader may be he will find it impossible to alter the facts of the situation, or reverse the verdict already pronounced in the reverse this viridict already pronounced in the hearts and consciences of the people against the hearts and consciences of the people against the heart of the public ventus, is creased the debt to over two hundred millions, heaped on taxes, dissipated the ensures of the country, divided the public demain among themselves and thom followers, created coormons deficits drove the Half-breeds into rebellion, goaled Nova Scotia into secession, lighted the torch of re-ligious bars d, and left no experiment in correation untried, no avenue of iniquity unexnlored.

THE IMPENDING CONVLICT

will partialty less of the character of a general Weekly Review of Montreal Wholewith partake less of the character is general election than of a national uple aval. The yoke of Macdona'dism must be east off. Its continuance mans Orange ascendancy, that most defessable of all tyrannies. It also mans war on the Catholic Church and Catholic institutions, the exclusion of Catholics from their legitimate share in the government of the country. It means the surrender of popplar liberty into the harris of a revergeful faction, and a declusion to the world-that religious toleration is no longer to be permitted in Cacada. Furthermore, it would mean estadoration of

ELOOD-GUILTY TYRANNY AND PUBLIC ROBBERT. All that men have been taught to regard as victors in government is coming before the great court of the people for trial. It is impossible that anything but a verdict of guity can-be returned. Every man who values the public peace, the prosperity of the country, the pre-servation of fiberty, the happiness of his family, should turn cut and work night and day tid the danger and disgrace which threaten the country

are removed.

But, after all, the prospects of a Tory victory are very gloomy. They certainly have an advantage in Ontario through the Gerrymander,

have shown the popular tide running strongly in tavor of the Liberal party, and with the active hostility of the local Government it will be impossible for the Tories to carry the province. Quebec most certainly will live a heavy majority against the party which has made the subjugation of the French one of its leading cries. To New Brunswick and Nava Scotia the upper provinces lock for assistance in bringing about a happier state of affairs than now prevails under

A WEAR AND WICKED MINISTRY.

A WEAK AND WICKED MINISTRY.

No doubt the Tories, according to their immemorial custom, depend largely on corrupt influences. They will debauch the electorate with money wherever they can, but it will be the duty of the Liberal organizations in every constituency to be on the look out for bribers, to capture them, fling them into gool, or run them into the nearest creek. A Ministry strined with every crime will be like at nothing to get a c-reflicate from the people. Afraid to must purliament, they the people. Afraid to meet perliament, they have shellowed the public. Let them get the answer they deserve.

WITNESS:

DEAR SIR, -Although the distance be-tween Monress and the "ambitious city" is about 400 miles, yet there is a keen interest taken here in all matters of importance that transpires in your city. And the Post and TRUE WITNESS play an important part in keeping up this interest. The calm which succeeds the storm has now taken place in our local affairs, since the parliamentary and municipal elections are over. Of the former it is not necessary to say much uow, except that the result was just what might have been expected ander the circumstances. When the Mail mok to riding the Protestant horse to vigor ualy a few months ago, there was some construction created minong that numerous class of our Catholic felloweitz na who had always censist ently adhered to the Conservative party. This surprise was considerably heightenwhen a few mornings afterwards the Specialor made its appe rance mounted on a "No Popery" nag of very considerable preten-sions. And from that time thenceforward he "dethron-ment of the church," the 'reconquest of Quebeo," the "smashing of Contederation," etc., have been rang forth ad nauseum, with the result that honest Protestants have refused to become parties on record. The Tories do not concert meet dread of a Liberal victory, and talk of bringing out Sir John Macdonald himselt, as the only hope of retaining Ottawa. The Liberals are not at all dismayed at the proposition, and will to them and laid heavy hands upon their triumph all the mere glorious, by defeating the arch-boodfer in a city, where, a few years ago, he said they could not e ect a poundkeeper. slanderer's through the medicm of the ballot had cast the first Grit vote in his life for Gibson on the 28th. It now remains to be seen how much longer " The Mail's Charger will keep on in its road to self-destruction. I am informed, however, on protty good authority that the "Spec" in-ends very shortly to sent its No Popery nog to the tatt roofs, as in its present wind broken and spavined condition it is not a desirable piece of property to keep on hand. The project of a winter caraival is being actively convassed here and is meeting with a
