

TABLE OF CONTENTS (continued)

	<u>Page Number</u>
3.9.1 The Relative Significance of Sulphur and Nitrogen Deposition to Acidification of Surface Waters	3-148
3.9.2 Data and Methods for Associating Deposition Rates with Aquatic Effects	3-151
3.9.2.1 Empirical Observations	3-153
Saskatchewan Shield Lakes	3-153
Experimental Lakes Area, Ontario	3-154
Algoma, Ontario	3-155
Muskoka - Haliburton, Ontario	3-157
Laurentide Park, Quebec	3-160
Nova Scotia	3-164
Boundary Waters Canoe Area and Voyageurs National Park, Minnesota	3-167
Northern Wisconsin	3-169
Adirondack Mountains of New York	3-171
The Hubbard Brook Ecosystem, New Hampshire	3-174
Maine and New England	3-177
Summary of Empirical Observations	3-178
3.9.2.2 Short-term or Episodic Effects	3-181
3.9.2.3 Sensitivity Mapping and Extrapolation to Other Areas of Eastern Canada	3-184
Terrestrial	3-184
Terrain characteristics of Three Specific Study Areas	3-185
Results of Terrain Extrapolation	3-191
