

NOTICE TO READERS

External Affairs and International Trade Canada, the federal department responsible for international trade, operates and maintains the Trade Commissioner Service. There are over 925 officers in some 130 offices abroad and 12 offices in Canada. The primary responsibility of the Trade Commissioner is to assist Canadian companies starting or expanding exports sales in international markets. This objective is often achieved through the preparation of market intelligence on various industry sectors in specific territories served by Canadian posts abroad.

The Canadian Embassy in Tokyo, Japan, in its 1990/91 post plan, identified "Fish **JAPAN FISHERIES MARKET REPORT** acts" as a priority subsector for market development activities by the post. This report is one of a series of **OCTOBER 1990** on the Japanese Fisheries market and intended to make Canadian fish exporters aware of current market conditions in Japan.

For further information on the Japanese market please contact the **1-800-415-9311**
