

NEWS OF SPECIAL INTEREST TO WOMEN

MADRID IS IN FLUTTER OVER KERMIT ROOSEVELT'S WEDDING

Approaching Visit of Colonel Adds to Excitement in Spanish Capital—Royal Favor to Be Extended to Bridal Party, It is Announced.

Special Cable to The World.

MADRID, June 6.—The approaching wedding of Kermit Roosevelt, son of the President, and Miss Belle Willard is exciting lively interest here, and the pending arrival of his distinguished father, perhaps even more. Although not a popular personality in Spain, there would have been great disappointment if, as rumored, his health has not permitted Colonel Roosevelt to make the long journey here.

Of course Spanish courtesy precludes the possibility of anything but the most polite manifestation of interest toward him, and King Alfonso's action in inviting the bride and bridegroom-elect to luncheon shows that he at least wishes no remembrance of the past to interfere with the traditions of Spanish hospitality.

Respects to Royalty.
King Alfonso and Queen Victoria had decided to go to La Granja Palace, near Segovia, immediately following the expected happy event in the family of Prince Charles Bourbon. The wedding was arranged that the king would have the bride couple to luncheon after the ex-president had arrived, but as his coming has been delayed it may not be possible and it is understood that the colonel will pay his respects to the king and queen at the royal palace.

Kermit Roosevelt has been staying at the American Embassy. He is looking fairly well but extremely thin. Already he is being recognized by the public, and is constantly recognized in the street.

The civil marriage will be on Wednesday, in a specially prepared room in the magistrat's residence.

Unprecedented Ceremony.
The religious ceremony on Thursday will be in the small British Embassy Chapel. As it has no choir, Ambassador Willard has engaged a famous harpist to play in a small pavilion, erected for the occasion, close to the chapel door, which will remain open.

The church wedding, the unprecedented, according to the wish of the Willards, will be very pretty, for the British Embassy garden will be at its best, and the little chapel set in the midst of it will be shaded in beautiful flowering trees. The altar is to be decorated with especial care, and a crimson carpet will cover the white matting. No other guest but the bride and groom will be seated in the chapel, which seats less than one hundred. The bride procession will form in the large hall of the embassy. The marriage ceremony there will not last more than 10 minutes, and the bride party will be back in the American Embassy twenty minutes after leaving it. Luncheon will be served in the large dining-room at the embassy by the Ritz Hotel.

Distinguished Guests.
Among those invited to the ceremony and the luncheon are the British Ambassador and Lady Hardinge, the German Ambassador and Princess Reibor, with their families, and the staff of the American Embassy and perhaps the Spanish foreign minister, Marquis Lema.

The bride's dress, made in Paris, is of ivory satin covered with tulle and orange blossoms and draped in rich old lace. She will wear a long tulle veil and a court train. The bridegroom will wear white with a tulle collar and cuffs. They will have white touches of yellow ribbon and carry bouquets of yellow orchids. The bridesmaids, Miss Elizabeth Willard, the bride's younger sister, and the step-daughter of the German Ambassador, Miss Page, daughter of the United States Ambassador to the British Court, and Miss Christian, the ambassador will give her daughter away.

Many Presents.
Miss Willard has received great numbers of presents, among them a gift from the American colony here. The number of guests at the wedding must necessarily be small, because of the smallness of the chapel and also because the embassy is not yet fitted up for big reception, although the house is large and commodious. The bride couple will leave for a short honeymoon in Andalusia, and then will go to Lisbon to embark for Brazil, where Kermit Roosevelt will engage in business as an official of the Anglo-Brazilian Iron Company in Sao Paulo.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION
By a Stomach Specialist.
As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, which causes all the pain and difficulty, is acid in the stomach, usually due to, or aggravated by, food fermentation. Acid in the stomach causes the stomach to ferment, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by the foreign elements—acid and food. In all such cases—and they comprise over 90 per cent. of all stomach difficulties—the only and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm cold water immediately after eating, from one to two teaspoonfuls of bleached magenta, which is the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by the foreign elements—acid and food. In all such cases—and they comprise over 90 per cent. of all stomach difficulties—the only and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm cold water immediately after eating, from one to two teaspoonfuls of bleached magenta, which is the process of digestion.

Does she put all

her things away?

Oh, no! But over

them we stumble;

And so we scold

and talk and grumble;

Nothing annoys

a person more

Than toys and things

left on the floor!

Don't Be A Goop!

NEXT CONFERENCE

TO BE IN HAMILTON

Special to The Toronto World.

ST. CATHARINES, June 6.—The

Hamilton Methodist conference today

decided to meet next year in the First

Church, Hamilton, the first Sunday in

June to be conference Sunday. Chair-

men and secretaries of the various com-

mittees, the chairman being first name

were selected as follows: Class Lead-

ers—Rev. Alfred Andrews, Rev. W. T.

Savage, Sunday school—Rev. C. D.

Draper, T.P. Todd, Continuation—G.

Boote, E. Sheppard, Sustenance fund,

Temperance and moral reform—

Carters, Judson Trux, Memorial—D.

A. Moly, A. Walker, Sabbath Observ-

ance—D. W. Snyder, Rev. W. Scholfield,

Church Property—G. Livingston, G.

T. Morris, State of Work—J. E. Auld,

W. J. Waugh, Nominations—Dr. Ben-

son, A. Hackett, Statistics—J. E.

Peters, Education—C. L. McElvaine, A.

E. Large, Epworth League—Rev. W. I.

Reid, W. G. Bull. The following

clergymen were received into the con-

ference: Joseph Gurbollard, born in

Rome, ordained in M. E. Church, New-

ark, N. H.; Rev. Albert H. Pyle, of

Quinte, W. J. Fiddes, elder of the

Evangelical Association of Canada; Rev.

Alfred Yeoman of M. E. Church of

Newark, N. H.; Rev. Albert H. Pyle,

Evangelical Association of Canada; W.

E. Sloan was granted another year's

leave of absence, and his relation to the

conference will be on Sunday night, arriv-

ing Toronto 10:15.

SUMMER SERVICE.

Canadian Northern Change in Time.

The Lake Shore Express, the fast

Muskoka train, leaving Toronto 10:00

a.m., will go on next Saturday; it will

connect with boats for all points on

Muskoka Lakes. The Saturday after-

noon train for the north will leave

at 1:10 p.m., a little earlier than last

year. Another change in the service

in the early morning train which

will leave at 7:30 a.m. after June

21st make connections at Lake Joseph

for Stanley House and Port Cockburn.

The Saturday afternoon train for

Napanea and intermediate points is

another evidence of summer, leaves at

2:10 p.m. and connects for Picton; there

is a return train on Sunday night, arriv-

ing Toronto 10:15.

Are You Going to Muskoka This

Summer?

If so, take the 10:20 a.m. fast express

from Toronto, daily except Sunday,

arrive Muskoka Wharf 1:45 p.m., where

direct connections are made with

steamers for points on Muskoka Lakes.

This train carries parlor-library-buffet

car and coaches, and passengers are

assured of a comfortable ride along the

to the far-famed Muskoka Lakes.

The curative odor of balsam and pine

and the preponderance of water area

to land surface, together with the high

altitude (1000 feet above the sea), ren-

der her a perfect immunity from this an-

noying ailment is assured.

Tourist tickets at very low fares are

now on sale to Muskoka Lakes points;

good for stop-over, and valid to return

until Nov. 30, 1914.

Return connection is made with

train leaving Muskoka Wharf 10:30

a.m., daily except Sunday, arriving To-

ronto 2:55 p.m.

If you are contemplating making a

trip, ask Grand Trunk ticket agents

for full particulars, Toronto city office,

Market, N. E. corner King and Yonge

streets, phone Main 4202.

CHEESE MARKETS.

BELLEVILLE, June 6.—There were

221 boxes of white and 150 colored of-

fered. All sold at 12 1/2-15c.

LONDON, June 6.—Ten factories of-

fered 125 boxes; 250 selling at 12 1/2c

and 124c. Bidding from 12c to 12 1/2c.

meeting of the Eastern Township Dairy-

men's Association, held here this after-

noon, ten factories offered 945 packages

of butter. Seven buyers were present,

and 755 packages sold at 25 1/2c; balance

at 25c.

ST. HYACINTHE, June 6.—Three hun-

dred and seventy-five packages of butter

offered here today at 24c, and 755 boxes

of cheese sold at 12 1/2c.

Of course, if by chance our gardeners

have several inquiries before me

from our amateurs regarding the cul-

ture of these herbaceous perennials; so

of office space, the subject will be dealt

with generally.

Those who read the garden talks

must have been left severely alone

well as other perennials is this class.

have been referred to constantly this

season, as the need for watchfulness

has presented itself to us.

Many professional gardeners claim

that the roots should be planted in

the spring and higher education at

the expense of their training for wife-

hood and motherhood. It is an actual

fact that the highly educated wo-

man is perfectly helpless when it comes

to dealing with the problems of bring-

ing up her children and conducting her

household. For, after all, we cannot

make babies perfect without the very

essential element of common sense.

No child can ever be written, and no

new discoveries in the field of medical

science can ever be made, which will

take the place of common sense in

bringing up a baby. Many decisions

must be made and many questions de-

cided which no book can set forth, and

no routine instruction ever include.

The best in education and the sanest

in common sense is the ideal com-

ination that we are hoping for in our

crusade for perfect babies.

Makes Wrinkles Go

"As If By Magic"

Want to banish every wrinkle—from

face, neck, hands—easily, quickly, com-

pletely? Try the famous axolote, com-

ing nothing else so nearly meets every

requirement. Why? Because it is correct

in principle and really, truly, amply Na-

tural. Possessing remarkable sedative

and tonic properties, it both tightens

and improves capillary circulation,

and nerve tone—tending to strengthen

and bring about a healthy

condition. Yet, powerful as the axolote

is, it won't harm your skin in the

least. It's so easy to get the inst-

mentative ingredients for your druggist's

store. Just dissolve a few drops of axolote

in 1/2 pint of water—then, as, bathe

your face in this immediately every

day. You are perfectly satisfied,

and delighted, with the result. You look

like you've lost years from your age!

(To be continued.)

AFRICAN FARMERS COMING TO

AMERICA.

CAPTOWNS, Union of South Africa

June 6.—A party of 58 farmers, un-

der the leadership of Johannes Ad-

rian Naser, member for Potchef-

stroom in the parliament of the Union

of South Africa, left today for Eng-

land on their way to America, where

they are to make a tour of investiga-

tion of agricultural methods.

EFFICIENT HOUSEKEEPING

BY HENRIETTA D. GRAVEL

DOMESTIC SCIENCE LECTURER.

The Old-Fashioned Perfumes.

THE rose jar—I can just hear you saying that you meant to ask me for those directions for making this potpourri again this year, so offer them without waiting for the deluge of requests that come to me every rose season.

Save all the rose petals, and as you gather them, sprinkle with salt and put them into a deep bowl with a close-fitting cover. When your jar is full, turn out the mass, which will be black and moist. Separate this with a stick or a fork and mix in an equal amount of dried lavender flowers or spices and place in a covered rose jar. The spices may vary with your own taste. I have found that coriander, ground cloves and cinnamon, a little powdered mace and some good sachet powder incorporated with the leaves is delightful for years. It is also good to add a few drops of oil of geranium, or muguet. These are purchased at any druggist's.

Of course oil of rose is the most exquisite thing to add to the rose petals, but this sells for five cents a single drop and is not always the true article at that price.

You must stir the rose jar up from the bottom once in a while after it dries out, from time to time you can add fresh petals from table bouquets. I once saw a great Japanese bowl in the home of a Washington lady, filled with dried rose petals. She said she began filling it with her bridal roses, and that for years she had put all her rose petals into it, not only from the garden, but from birthday and still bouquets.

If you are planning to make a rose jar, you had best look after your rose buds now. The little dainties of the garden like the tender petals as well as you do, and will make a sturdy fight for them.

Spraying the foliage of the rose bushes with a weak solution of tobacco water will discourage and drive away the aphid or green fly. As soon as the buds appear the roses seem to want attention in the shape of fertilization. Put weak liquid manure, or bone dust around the roots, but do not disturb the roots at this time.

Watch for the rose beetle and the slug. Buy a fourth of a pound of arsenate of lead (a deadly poison) and mix it with two and a half gallons of water. Sprinkle this over the roses, buds and leaves in the early morning; it will kill these pests.

The Greeks and Romans, the queen of the flower world, had a favorite perfume, whose beauty was only surpassed by the purity of her heart. She died, and Flora called in Venus, Apollo, the Graces, Bacchus and Pomona, to change this matchless beauty into a flower. The result was the rose. But it had no odor. They all had been busy shaping its lovely form and graceful leaves, they had neglected to provide it with perfume. One day Cupid was dancing on Olympus when he overturned a cup of nectar with his wing. The heavenly liquid fell on the rose and imparted its scent to it.

Very delightful is the celestial odor, so if you
