

HAMILTON UNIONS ENTER AGREEMENT

Bricklayers and Plasterers' Union
and Carpenters Will Not
Work With Non-Unionists

RAILROAD OFFENDS

Board of Trade Complain of
New Service Which Neglects the City.

HAMILTON, July 24.—The Bricklayers and Plasterers' Union and the United Brotherhood of Carpenters have entered into an agreement whereby no member of either organization will work on any operation where workmen are employed other than those who are in good standing in the respective unions.

The agreement was accepted by the two bodies and copies have been sent out to all architects of the city, the press, the board of control, city council, board of education and other public bodies and to the builders' exchange.

Mayor Allan is having a busy time just now in interviewing the numerous callers complaining of the law compelling them to pay for the construction of new streets where they are not wanted.

Through the city people are flocking into the municipal buildings stating that the compulsory order is little short of a hold-up and many state that they will refuse to obey the city's orders.

"I think the city is overworking the compulsory clause," said the mayor this morning. "It is a good law in many cases, but the manner in which it is being handled just now is somewhat unreasonable and citizens certainly appear to have just grounds for complaint."

Board of trade and other bodies are up in arms over the way the G. T. R. have treated this city in the new "improved" railway service scheme. Hamilton appears to have been side-tracked by the officials and the secretary of the board of trade has taken the matter up strongly with the district passenger agent in Toronto.

One of the main causes for the trouble in the fact that the new fast daily train between Montreal and Chicago does not stop at Hamilton.

Ernest Boughner and Mike Garee, charged with breaking in and entering the house of William Tates, 66 Maple avenue, appeared before his honor Judge Monck yesterday.

No one appeared for the prisoners who elected to be tried by a judge without a jury.

Constable William Nunn, who failed to report for duty on Tuesday, was charged before Magistrate Jeffs yesterday with assaulting his wife. He was acquitted and was reinstated into the force.

SCARBORO OLD BOYS VISIT NIAGARA FALLS

Large Number Took Part in Association's Annual Excursion Yesterday.

Upwards of five hundred people took part in a very enjoyable excursion to Niagara Falls yesterday, organized by the Scarboro Old Boys' Association. The majority of the excursionists left Yonge street wharf at 8.30 a.m. on the steamer Cayuga, while the remainder crossed by the Chippewa at 9 o'clock. The trip across the lake was very much enjoyed as there was not a ripple on the water, and the party reached the falls at noon, when lunch was served in a large dining hall reserved for the occasion. Small parties were afterwards formed and the evening was spent in sightseeing and amusements. The Cayuga reached Toronto at 9.15 p.m. on the return journey, while the Chippewa docked at an hour later.

LETHBRIDGE, Alta., July 24.—The verdict of the concluded inquest of the victims of the Hillcrest mine disaster is that death was occasioned by an explosion caused by gas and dust. The jury added a rider that they believed the company had infringed the Mines Act. WON THE ACTIVE SERVICE CONTEST

E Co. of Thirty-Sixth Regiment Leads Other Teams in Gowan Cup Test.

The results of the Gowan Cup Active Service Competition, which is competed for annually at the various training camps in Ontario, have just been announced by divisional headquarters as follows:

First, "B" Company, 36th Regiment; second, five teams, 12th Regiment; third, 44th Regiment.

The winning team was under the command of Capt. G. R. N. Collins, and was unique from the fact that every member of the team had seen active service. The company is composed of experienced soldiers, many of whom have served in different parts of the empire, for which they wear medals.

The competition is carried out in active service dress, the teams having to march a distance of five miles, and then to take part in a rifle range, one hour and twenty-six minutes, firing at the rifle ranges, where 50 rounds of ammunition are issued to each man, and the targets are exposed for 14 seconds at each range, at 500, 400, 300, 200 and 100 yards, the team doubling to the next range as each target disappears.

The 48th Regiment, the latest acquisition to the Toronto Garrison, and promises to figure prominently in all military events. The regiment is under the command of Lieut. Col. R. C. Underhill, and was until recently recruited from the Counties of Peel, Dufferin and Simcoe, but authority has now been given for the recruiting of the regiment to be conducted in the City of Toronto, on the same basis as the 12th York Rangers, with its headquarters at West Toronto.

PAST CENSURES CAUSE OF OFFICERS NOT GOING

Irish Crisis Nothing to Do With Decision re Army Manoeuvres.

By a Staff Reporter. OTTAWA, July 24.—It is said here that the real reason that the militia department is not going to send Canadian officers to take part in the British army manoeuvres at Aldershot in the autumn is that the department has been sensible to the blame placed upon it in many quarters in the past for this practice. No person takes seriously here the statement that the officers will not be sent as a result of the Irish crisis.

LIFE-SAVING CREW WAS KEPT HUSTLING

Put Out Blaze on Motor Launch and Pulled Off Stranded Motorboat.

The life-saving crew put in a busy afternoon yesterday responding to three calls—one a launch after the other, the second the reported finding of an upturned canoe off Scarborough and the third a launch driven on sunken piles off Chippewa avenue.

Roger Millar, the island contractor, was the owner and driver of the motor launch which caught fire from the backfiring of her engine off Hanlan's Point at 4 o'clock in the afternoon. The blaze never assumed serious proportions, and the launch was easily extinguished and it rescued the two occupants.

The run to Scarborough Beach to the upturned canoe proved a false alarm, but the stranded launch proved a tough proposition, which required two hours work before she was towed off the pier. Three men of the life-savers were taken off in canoes before the life-savers got there.

The situation is further complicated by a kleptomaniac nephew, whose pilferings are charged to a bank, and a "dress-up" thief. Disguised as a waitress, Lillian turns up in the story of a young man who left his home in London, and is now in Paris, France. There in the Latin Quarter he sought to forget his domestic troubles by mixing in the gay, bohemian life. While following the profession of art he meets a beautiful young Irish girl who poses for him and he falls in love with her. Discovering that she is the possessor of a voice that has a powerful influence on him, he leaves her artist role and eventually becomes a great prima donna. Coerced into a marriage she leaves France and tours the world. How she comes back to Paris and meets her artist lover and how he again wins her love, only to lose her by death, is worked out in an exceptionally gripping climax.
