a transcontinental line across Canada, tho at that time they only had about 100 miles in operation. J. J. Shallcross, past president of the board of trade, said the steep grade on the C. P. R. across the moun-tains prevented that great system from serving British Columbia as the Canadian Northern would be able to do Claims Maladministration of Council Weakened Fire Department. lian Northern would be able to do Further charges against Alderman Meredith have been made by George A. Hodgson ,who made the affidavit against Ald. Meredith in connection with the nomination of Colorel Lang-ton for the position of fire commiswith curvatures and grades practi-cally eliminated. Sir William's Reply. William Mackenzie, after thanking the deputation, sketched briefly the history of the Canadian Northern the history of the Canadian Northern system, which now has over 10,000 miles under operation. In 1898, he said, he and Sir Donald Mann were merely contractors, and they had then under-taken the operation of a 100-mile road as an experiment. They had commenced to build and operate more mileage because the government and people of the western provinces were demanding some relief in the way of better transportation facilities. Then they had acquired the Northern Pa-cific lines in Manitoba and had built a line to the head of the lakes. Final-ly they saw that they must have an outlet both east and west. They had sloner. Mr. Hodgson's charge is as follows: "I am informed that Ald. Meredith made use of his position as alderman of the City of Toronto to further his of the City of Toronto to further his own interest, as follows: (1) In or about the month of April last, 1915, Ald. Meredith offered to one, Thos. Self, of Toronto, contractor. if he, Self, would assist Ald. Meredith in obtaining a certain position, that he Meredith, would assist Self in procuring from the City of Toronto, con-tract for the building of incinerators. (2) In or about the month of August, 1913, the defendant sold to Isaac Brooutlet both east and west. They had made certain arrangements with the government of British Columbia, but die the property on the corner of Lennox and northwest Bathurst instead of building a road across the mountains, according to specifications, they had built one so immeasurably chase the land at an advance price they had built one so immeasurably chase the land at an advance price superior that the longest passenger of the purpose of a public library site. in ever hauled across the continent the month of Septem dents at the aviation school ber, 1914, Ald Meredith, by his agent, A. E. Hacker, entered into negotiation for the purpose of the said Moredith had been moved over the mountain section by one engine as easily as over the prairies. He and Sir Donald Mann had been using his position as alderman of Toronto to procure the using of cetraduced and maligned is a most out-traduced and maligned is a most out-rageous manner, and so had the Can-adian Northern Railway. They had, however, kept silent and bided their time, but now the road spoke for itment instead of steel in connection with the Bloor street viaduct, the precise nature and character of which negotiations I am unable to state." The foregoing is merely a signed statement, not sworn to, but accord-ing to Mr. Ludwig, city's counsel, it will be included in the investigation, which will be continued tomorrow night at 8 o'clock at the city hall. precise nature and character of which self. Dominion a Partner. D. B. Hanna, third vice-president of the C.N.R., said he was the first offi-cial of the road who had seen it ex-pand from 100 miles to 10,000. During that time Sir William Mackenzie had to raise \$40,000,000. He had appealed to the suprement can had a year or SCORE'S CLOTHES. to the government for help a year or two ago, and the Dominion of Canada Re ad on Page 8, our prices are reasonable, but our work is of the best standard whatever figure you Was now a partner in the enterprise. It was therefore proper that the re-presentatives of the people should go over the road and see it for them-selves. The road. Mr. Hanna added had been lied about abouinably, espe-cially by people who knew nothing about it. A prejudice, therefore, had grown up against the system and no doubt its successful completion meant a loss of traffic to some other enter-pises. Up to date every mile of the was now a partner in the enterprise. prefer to pay. IMPORTANT CONFERENCE WAS HELD IN LONDON pises. Up to date every mile of the road had paid its way, and could always do so in normal times, but we were facing abnormal times, and it Britain and France Consider Latwas therefore proper that the coun-try thru its members of parliament should jearn what were the resources and possibilities of the line. est Developments in Near East. **ITALIAN SQUADRON HAS** LONDON, Oct. 20, 1.50 a.m.-A com-LEFT FOR NEAR EAST nittee of the cabinet. known as the war committee, met Tuesday after PARIS, Oct. 19 .- An Italian squadnoon and was joined by Alexandre Millerand, French minister of war, Paul ron has left for the near east, under sealed orders, supposedly to partici-pate in the blockade of the Bulgarian coast, according to a Brindisi de-spatch received here this evening, but which had been delayed in transmis-cion. Cambon, French ambassador to Great Britain, and M. Millerand's secretary The committee sat for an hour and a half, after which another cabinet councily was held at the house of common Nothing was made public regarding the circumstances calling for two cabi-net meetings in the same day as well as the conference of the war com-mittee with the French war minister, A Message To Thin Weak Scrawny Folks but it may be assumed that they had to do with the development of the military situation in the near east. An Easy Way to Gain 10 to 30 Pounds **APPEAL OF RAILWAYS** of Solid, Healthy, Permanent Flesh. AGAINST ASSESSMENT Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste. In the court of revision yesterday when Ward Three appeals were being considered, the C.P.R. appealed against an assessment of \$97,000 on the rightof way on the Esplanade between Yonge street and Bay street. The tax commissioner for the company thought \$70,000 a fair figure, but the maxing elements of your food instead of passing them out through the body as waste.
What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the olis and fats and hand them over to the blood, where they may reach the starved, them up. The thin person's body is like a dry sponge-eager and hungry for the fatty materials of which it is being deprived by the fatlure of the alimentary canal to take them from the food. A splendid way of working to overcome this sinful waste of faces is to irry sparsely to take twith every meal and see if your cheeks don't quickly fill out and rolls of firm, healthy flesh form over your body, covering each bony angle and projecting point. All good druggists have Sargoi or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it provide and while excellent results in cases of nervous indigestion etc., have been reported, case should be taken about using it unless a gain of weight is desired.

In Closing the Distribution of TUMBLER SETS

The World takes this means of congratulating the large number of its women readers who have taken advantage of the opportunity offered by this paper, in placing in the hands of its readers an article which appeals to the taste of every woman who manages her own household and who delights in things chaste and elegant. In a few days we will be unable to supply late comers with these thin blown sterling silver decorated tumbler sets.

The coupon on another page describes the conditions to be complied with in order to obtain a set. The limited number at present in our possession will not permit of supplying one person with more than two sets. As the coupon will be withdrawn in a few days, clip it today. tary service. Owing to the bad weath-er the training period has lengthened out into 20 weeks for many of the students and during that time they have had to pay their fees, board, etc., and have not received any money in return. Many of the members have given up professions to take the course, but now find that they are unable to con-tinue thru lack of funds. Another draw back to them is the fact that there is talk of moving the school to Bermuda, so that flying may continue all winter. The students claim that they will have to pay their own trans-norration and hoard themselves down eturn. portation and board themselves down there while finishing their course. A statement was read at the meeting which it was shown that the ex-

penses during the training amounted to between \$400 and \$600. After graduating they would receive \$375 back from the British Government. Mayor Church said that he was in accord with the movement and that he would take the matter up with the proper authorities at Ottawa on Oc-tober 27. In the meantime the various members of parliament will be ap-proached with the idea of aiding the

SIR SAM COMMENDS

The almost universal use of magnesia is by physicians and specialists in the treat-ment of stomach troubles is due to the fact that it stops food fermentation and neutralizes the acid—the direct cause of nearly all stomach troubles. Of the many forms of magnesia, such as oxides, cit-rates, carbonates, sulphates, etc., the most suitable and efficient, and the one prescribed by leading specialists, is bisur-ated magnesia, a teaspoonful of which in a little warm water immediately after eating will instantly neutralize the acid, stop fermentation, and thus ensure pain-less, normal digestion. Care should be taken to get bisurated magnesia, as its action is infinitely more effective. It is also, by the way, usually stocked by drug-gists in convenient compressed tablets, as well as in the ordinary powder form. Stomach sufferers and dyspepties who follow this plan, and avoid the use of pepsin, charcoel, soda mints, drugs and medicines, are invariably astonished to find that the stomach, relieved of the ir-ritating acid and gas, soon regains its mommal tone, and can do its work alone, without the doubtful aid of artificial di-gestants.

Fighting in Riga Region. Stubborn fighting is reported along nearly the whole line in the Riga region, where the enemy is endeavoring to develop an offensive. The Germans occupied Kich on the Aa River below Mitau, and the combat is being continued on the road northwest of Mi-tau. The Germans also succeeded in advancing to the north in the wooded region above the Mitau-Neugat railway. Everywhere in this region the war office reports the prosecution of terrific fighting. Russian battle planes yesterday dropped fifty bombs on Mitau, Grosso-keau and Neugat, their target being behind the Germa **GERMANS NOW QUIT** WITHOUT FIGHTING PETROGRAD, Oct. 19. — According special Cable to The Toronto World, to an official statement issued by the Russian War Office tonight the Germans are becoming demoralized. The statement notes in referring to the fighting on the left bank of the Styr, above Novo Selki, that "the smooth-ness of our operations and the suc-30 vears watch cases bearing the cessful results attained are shown by the fact that a body of our troops yes-terday took prisener 50 officers and 1900 men and captured six machine "Winged Wheel" trade mark have been the recognized guns and a great quantity of arms and standard of quality is ammunition abandoned by the enemy, all with the loss of one officer and 50 Canada. Successful Offensive at Several Points on Tyrol-Trentino Frontier.

ROME. Oct. 19 .- The official statement issued from general headquarters covering the operations of Oct. 19 reads: Supported by an intense and effective artillery fire our infantry took the offensive at several points along the Tyrol-Trentino frontier, with considerable success. In Lagarina Valley we occupied

cess. In Lagarina Valley we occupied Brontonico and the country house situat-ed further along the road to Mori. On the upper Cordevole, northeast of Sasso di Mezodi, our troops took an im-portant height known as Mount 248, and the spur which descends therefrom to the right bank of the torrent between Sor-anas and Ornella. In Carnia the operations are being coa-tinued with great activity with the ob-jection of dislodging the enemy from the wooden zone at the head of Chiazo tor-rent.
