"FLORENCE AUTOMATIC" **OIL COOK STOVES**

THE blue flame from the Florence wickless burner is always steady, always under perfect control. A special jacket holds it directly under the cooking utensils-giving a quicker, more economical heat.

Used with McClary's Success oven, the Florence Automatic is a wonderful baker.

There are no wicks to clean, no odors, no trouble. Let us give you a demonstration of the Florence Automatic in actual operation.

TEMPERANCE GROWS

Delegates of All Nations Rewiew Chances of Pro-

Scenes of excitement reached a climax at the prohibition mass meeting at Massey Hall last night owing to the interruptions caused by a few returned soldiers. This was during the close of the address by Dr. Saleily of London, England. Dr. Saleily had declared that the British race was in danger of decay owing to the racial poison effects of alcohol. Such being the case, those who allied themselves with the liquor traffic were the enemies of Britain and of childhod.

Shouts of contradiction from a few soldiers were hurled at the speaker. The Inperial Concert Band played "Rule Britannia," but the disturbers refused to be seated. The police in consequence escorted a lame soldier from a front seat on the main floor, and with considerable force dragged another from the first gallery. The large audience cheered the police, while the band played on.

The Paul Rader Choir of 400 voices immediately followed with the hymn, "Onward Christian Soldiers."

Half a dozen soldiers in khaki, who had had the top sallery to themselves, left the hall, and the interruptions ceased.

Brief addresses were made by Ex-

Brief addresses were made by ExGovernor Paterson of Tennessee, Mrs.
S. R. Wright, Dominion president
Women's Christian Temperance Union,
and Rev. Ben. H. Spence.

Addresses by various delegates gave
a general review of the temperance
situation at the opening of the World'sTemperance Conference at Massey
Hall resterday morning. Miles Vokes,
president of the council of the Dominion Alliance, was chairman.

James Marion declared that in Australia the pro-German element was
allied with the liquor traffic and abetted sedition.

allied with the liquor traffic and abetted spaidton.

Dr. Larkin Kadet of Denmark said that Canada and the United States could render great service to the temperance societies of the Scandinavan countries by prohibiting the export of grain for brewing or distilling.

Jean Le Dort of Paris, France, protested against the export to France of strong beens and liquors as the French beer and wine were light by comparison.

Archdeacon G. J. Howson, representing the United Kingdom Alliance, declared that the restrictive war measures in relation to beer and liquor had worked wonders in Great Britain, and indicated the effect which might be expected from absolute prohibitien.

Rev. John aGiley of Belfast, Ireland, said that at present Ireland was simply deluged with strong drink, but the temperance leaders were confident that the temperance society efforts would ultimately see the Emerald Isle under prohibition.

In New Zealand

Progress along reduction and local option lines was reported from New Zealand by Rev. John Dawson, who said: "In the fight for prohibition we have reduced licenses by over five twelve are "dry." The hours of sake have been restricted to from 9 a.m. to 6 p.m.

THRUOUT WORLD Peak Loads

TN practically all public services there are what are known as peak load A hours hours during which the demands for service are greater than at other hours of the day. A striking example of this is seen in the case of the street railway rush in the period just preceding and following the business day.

The accompanying curve shows the distribution of Long Distance business over the various hours of the day. It is evident that to make use of the service at hours other than those in which the peak loads are being carried, means that you obtain a more prompt and satisfactory service.

We suggest that where possible, you place your Long Distance Calls so as to avoid the hours of peak loads.
