## NOTABLE DAY FOR QUEEN'S HAD DISTINGUISHED GUESTS

Before Largest Audience Ever Gathered, Degrees Presented to Earl Grey, Lord Strathcona and Dr. Kirkpatrick.

Kirkpatrick. The visit of Earl Grey to this city came to a close to-night. This morning he inspected the Royal Military College, gave a half-holiday to the cadets and remitted all punishments. He had lunch with Lord Strathcona, who arrived by special train at 1 o'clock, with Principal Gordon. After conversation he attended a reception in the old arts building. This evening Col. Read of the Royal Military College gave a luncheon to 1800 people, he lectured at midnight to Ottawa.

In point of numbers and in enthusiasm, the medical convocation this afternoon was the most notable in the history of Queen's. On the platform were Lord Strathcona and Sir Sandford Fleming, two of the most prominent citizens of the province. The governor-general, and Rev. Dr. Kirkpatrick of Cambridge, one of the most eminent scholars in the Anglican Church. Grant Hall was used for the first time for convocation proceedings and contained over 1800 people, the largest public gathering ever held in any building in this city. Over 800 students thronged the galleries and witnessed the proceedings.

For the conferring of the honorary degrees of LL.D. on Earl Grey, Lord Strathcona and Dr. Kirkpatrick, the chancellor, Sir Sandford Fleming, in his address, gave reminiscences suggested by the occasion. In 1832, when he was a boy, he took part in the first public demonstration in Scotland to celebrate the victory of the present emperor's grandfather, who, as premier of England, won the great battle for reform. Thirty-three years ago, when he was in company with the late Principal Grant, was travelling through the Northwest on the first Canadian engineering expedition for the proposed Canadian Pacific Railway. He ended at Silver Heights the hospitality of Lord Strathcona, the chief officer of the "grand old Hudson Bay Company."

After the graduates had received their degrees, Principal Gordon presented Earl Grey for his degree, conferred for his eminent services in upholding the home life of England by the suppression of intemperance, and for his active work in the extension of British influence in South Africa.

Earl Grey delivered an address, lofty in its scope. He said Queen's impressed one with the idea that the business of education was to fit man to do his higher duty to himself and to his country, and that the motto, "God and the People," as the watchword of the great statesman, the late Lord Palmerston, was the watchword of the present generation.

## ROGERS SAYS HE'S GENEROUS IN BLAMING IT TO MEMORY

Takes Up Inaccuracies in Prime Minister's Statements—Challenges Proof of False Assertions.

Winnipeg, April 7.—(Special.)—Nothing new developed to-day beyond Rogers' statement, giving the gist of the Ottawa clique. The deadlock still continues at the parliament buildings, with the government on one side and Lieutenant-Governor McMillan, evidently backed by Sir Wilfrid Laurier, on the other.

It is probable that the next development will be the convening of an extraordinary session of the legislature, to be followed by dissolution in due course.

The general temper of the people is in favor of the case made out by Rogers' statement, giving the gist of the Ottawa clique. ## Don't Cough Away Your Lungs

That Catarrh Will Soon Be Deadly Consumption Unless You Use "Catarhose" at Once.

Discouraged sufferers and blessed relief and permanent cure in Catarrhose, which goes direct to the real cause of the disease. By coughing and healing the inflamed membrane, relief comes instantly. Impossible for anything to be more prompt or satisfactory.

To prove to you that "Catarhose" cures are permanent, the following letters are given. Study them carefully, for your case may be similar. To these people Catarrhose has brought health. For you it will do likewise.

None Completely Suffered Up.  
Mr. Archibald Haas of New Harbor, N.S., writes: "Catarhose" proved itself a remarkable remedy in my case. I suffered terribly from catarrh in the throat and my nose was so stuffed up every morning I could hardly draw my breath. The mucus dropped back into my stomach, upset my digestion and kept me sick all the time. Catarrhose relieved me in a short time and cured perfectly."

Catarhose Brought All.  
Mrs. F. Fraser of Chapman P.O., writes: "I have used a great many catarrh remedies, but none of them ever cured my Catarrh. I cleared out my nose and throat, and stopped a ringing noise in my ears."

Catarhose Brought All.  
Mrs. F. Fraser of Chapman P.O., writes: "I have used a great many catarrh remedies, but none of them ever cured my Catarrh. I cleared out my nose and throat, and stopped a ringing noise in my ears."

Viscount Ridley on Canada and the Motherland.

(Canadian Associated Press Cable.)

London, April 7.—Viscount Ridley, speaking at Newmarket, said he knew from Mr. Chamberlain the extent of the desire of Canadians to extend their trade relations with the mother country. They were being continually invited to enter into preferential relations with the United Kingdom.

London, April 7.—The Daily News says in voting for the deceased's wife's sister.

London, April 7.—The Times says that the opinion of the colonies more accurately than he is accustomed to do. It is a grave grievance and scandal that marriage perfectly legal in the colonies should be treated as invalid in the mother country.
