Big Variety of Belts.

Belt lines are very extensive and buyers are just about sampling them all. Variety is the keynote, and not only the narrow belt is selling, but wide girdles also. Slik girdles, in both wide and medium widths, are shown, and tho shirred effects are mainly noticeable, many novelties are noticed. The latest are so designed as to give the effect of the princesse skirt and to do this a deep girdle must be worn.

A decided novelty in girdle lines is the lace girdle. This is made of lace over satin ribbon and is a fetching effect. Many of the newer girdles fasten at wardrobe is the apron which never loses, and it is likely that some of the season's successes will be in this class. French knots and rosettes, or a buckle effect, are used to cover the fastenings. A few are seen that fasten under the left arm also. The gridle that fastens surplice style, crossing at the back and the ends terminating in front under fancy buckles of shirred silk over wire, are very new. Buckles are just as varied as belts and practically everything goes. Odd jeweled effects are seen in gilt. Steel buckles are much used and some in colors white, black and plaid effects are also therefore is not so much a consideration steel studded elastics are decidedly the strongest sellers. Black, of course is the back, and strongest sellers. Black, of course is the back of the prison and applauded the prison and will be quite an addition to the autumn school supply. The front and back hang lose, being fastened at the back with back with a traiting collar and pockets are the only trimming used to finish the back. A rolling cular and pockets are the only trimming used to finish the back. A rolling cular and pockets are the only trimming used to finish in a more fastenings. A few are seen in bishop style and finish effects are seen in gilt. Steel buckles are in bishop style and finish effects are seen in gilt. Steel buckles are in bishop style and finish effects are also the recipients of constraints. The product as training toward the elevation of the character of the Chinese nation. The released men thanked the people for the demonstration of the character of the claim where price is not so much a considera-tion steel studded elastics are decidedly the strongest sellers. Black of course, is the best color, but red and pastel shades, as well as empire, green and navy, are all represented. More origi-nal than the plaid belt, and just as likely to take the popular fancy, is the belt of Roman striped silk. Leather belts in all colors are looked upon as excellent for fall and the Fritzi Schieff

Accordion Pleased Skirts. The accordion-pleated skirt is to be such worn this season. Made of Age (if child's or miss' pattern)..... much worn this season. Made of black taffeta it is extremely fetching and is admirable for a house skirt to wear with lingerie waists. In white sicilian, or, better still, voite, it is fit for the most dressy occasions, and when made of Scotch or checked goods it is admirable for the street worn with a jaunty cloth or silk Jacket. These new accordion pleated skirts are made absolutely plain around the hips, the lutely plain around the hips, the graduated plaiting starting directly below the rounding point, and the result is a very stunning figure.

She was attended by her sister, Miss Winnifred Morgan, and Mr. David Dury of Buffalo supported the groom. The bride wore a pretty gown of white silk, with a bolero coat of rich lace; her veil was fastened with orange blossoms and she carried a white ivory prayerbook. The bridesmaid wore a pretty frock of pale plnk chiffon and carried pink roses. The

Eminent Doctors Praise its Ingredients. We refer to that boon to weak, nervous suffering women known as Dr. Pierce's Favorite Prescription.

Favorite Prescription.

Dr. John Fyfe o e of the Editorial Staff of The Eclectic Medical. Review says of Unicorn root (Helonias Dioica) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator "" makes for normal activity of the entire reproductive system."

He continues "in Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weak-ened condition of the reproductive system; amenor chea (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs

abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription." Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions." and general enfeeblement, it is useful."

Prof. John M. Seudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which here is such general unanimity of opinion. It is untersally regarded as the tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorhagia (flooding) and congestive dysmenorhaea (painful menstruation)."

Dr. Pierce's Favorite Prescription faithally represents all the above named indeients and cures the diseases for which by are recommended.
