Was delighted at the welcome he had recived. Where would the Dominion Government be to-day, but for the local government? (Cheers and laughter.) The big steamboats which could carry the commerce of Canada to the whole world would be built of Ontario timber. He was delighted with President Wilkie's financial statement, whose spirit had been copied from the Ontario Government. (Laughter.) As to the President's strictures on the absence of agricultural training in the schools, the schools had afready been provided by the Educational Department with the means. In the High Schools they did not go in for special training so much as the highest development of the students' mind and character. He believed the British Empire could do nothing wiser than to extend to the colonies the preferential tariff given by Canada to the Motherland. (Cheers.)

Mr. Dobell Complimentary.

The toast of the Dominion and Ontario Parliaments, when the singing of "He's a jolly good fellow" had ended, was first responded to by Hon. R. R. Dobell. He never saw a more contented body of men all through, and argued from it how happy had been the influence of the blear Government. He repeated his advice to the bankers, that the rein should be steady, and that the brakes should only be put on while going down hill. [Cheers.]

Canada's Trade Increasing.

Acid dyspepsia, commonly called heart

Acid dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food. The stomach being too weak to promptly digest it, the food remains until fermentation begins, filling the stomach with gas, and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic, and being an everyday occurrence is given but little attention. Because dyspepsia is not immediately fatal, many people do nothing for the trouble.

## THE NIGHT CLERK'S STORY. A FACE LIKE CHALK

year ago last winter left my system in a very weak state and my nervous system completely unstrung. After getting over the dangerous stage of the disease I naturally expected to gain strength, but, unfortunately, did not do so. On the unfortunately, did not do so. On the contrary, my blood became weaker. I daily lost strength and vitality, and my nervous system became so weak that it was a constant source of suffering both day and night. I lost appetite, the sight of food nauseated me, the weak state of my system caused shortness of breath and unnatural action of the heart, such and training and violent polaritation and the second states of the second states of the second states of the second states and states are states and states are states and states and states are states and states are states and states are states as a state of states and states are states and states are states and states are states and states are states as a state of states are states and states are states and states are states as a state of states are states as a state of states are states and states are states as a state of states are states a as fluttering and violent palpitation, and my face was like chalk. I was in this condition and constantly getting weaker when I began taking Dr. Ward's Blood and Nerve Pills. I had read the books they distributed and their advertisements. they distributed and their advertisements in the papers, and thought, "Well, I have taken so much medicine without benefit it is useless to spend any more money. However, I finally made up my mind. It is a forlorn hope; I can but try. If I am not benefited I will not be hurt. So I bought one box and received great benefit therefrom, so continued their use and to-day am a well man in consequence; my blood is strong, my face has the ruddy hue of health, my appetite has returned, I sleep well, I have not the slightest in-dications of nervousness or heart trouble, and from a sick, weak, nervous man Dr. Ward's Blood and Nerve Pills have transformed me in six weeks to full health and strength," I am yours very truly, (Signed) WILLIAM WILLARD, Night Clerk Grand Central Hotel,
