TORONTO. ONT

THE TORONTO WORLD. ONE CENT MORNING PAPER. No. 83 YONGE-STREET. Toronto.

allow any dictation upon the part of the wilful negligence of the average citizen t policy of wrong, which in our time is cau in the world. As an integral part of the tural, manufacturing, and other interest Empire, Canada has a right to voice its of the entire country. It is quite time that the exploitation of spirations and make itself heard on Imperial matters. What influence we will exert in Imperial councils rests for the privileges should cease. exert in Imperial councils rests for the most part with ourselves. In the building MRS. WEBSTER IS FREE, up of the Empire it will be the duty of Canadians to see that the advantages of The Woman Shown to Have Been this country from an Imperial point of view are extensively advertised and vigor-Brockville, Ont., May 10.-Mrs. W. H ecome firmly seized with the idea that its Webster appeared for trial before Judge material development and innence will increase much faster, relative- McDonald to-day on a charge of blackmail. If, than that of any other portion of the Empire. Great Britain will have difficulty in retaining her present population. It is more likely to decrease than increase. The population of Canada, on the other hand, will rapidly increase from now on. Great Britain, as a producer of iron, is losing her grip. Canada has just made a start in this industry the possibilities of which, in this country, are illimitable. The contrast between the Mother Country and the Dominion of Canada is equally pronounced all along the line. We have an immense country, rich in natural resources. Great Britain is restricted in its area and is obliged to assemble most of the raw machine of the raw machine of the raw machine of the raw foreign. y, than that of any other portion of the She elected to be tried by His Honor and obliged to assemble most of the raw materials of its manufactories from foreign countries. Canada is, to a large extent, a self-contained nation, more than able to feed itself and possessing the raw materials that make possible the most important industries. It is well that Canadians should understand the resources and possibilities of their own country, as compared with every other part of the Empire. They should not only know the resources of Canada but they should not be slow to let the whole world know of them also. No opportunity should be lost in keeping Great Britain posted on the fact that Canada possesses the greatest coal fields in the world, the greatest ron and nickel deposits, the most promising copper mines. If the Mother Country is threatened with a coal famine in the near future, if her supplies of iron are giving out, it is not necessary that the capital invested in these industries should be lost to the Empire. A transfer of these and similar industries to Canada, where they may be extended illimitably, will prove a great gain, instead of being a loss to the Empire. The people of Great Britain have not begun to look at imperialism in this light as yet. Their efforts are all centred in the development of their own rade. They have not yet grasped the full significance of Imperialism. They fall to appreciate the fact that it is just as important for the success of the Empire that big-industries should exist in Canada and in Australia as in Great Britain. It is the duty of Canada's statesmen and public men to preach the doc trine that the Empire must be developed as a whole, and that those parts of it which promise the most should receive the which promise the most should receive the Editor World: I see by the papers that Editor World: A second and more careta, in leading of Mr. Waish's stories depend in the anticing for their author. His style impreases muld in reading of Mr. Waish's stories and leading of Mr. Waish's stories depend in the Helling for their author. as a whole, and that those parts of it which promise the most should receive the most consideration.

In educating Canadians to realize the important position this country occupies in itself and as a part of the British Empire, advantage should be taken of the Public Schools as a means for inspiring loyalty and developing national pride. We can well afford to follow to some extent the example of the United States in this respect. The setting apart of a day in the Public School calendar, to be known as "Empire Day," was a commendable idea. The first "Empire Day" in Ontario schools will be celebrated on May 23 next. The most should be made of the occasion to inculcate in the minds of the children the idea that Canada is a country to be proud idea that Canada is a country to be proud

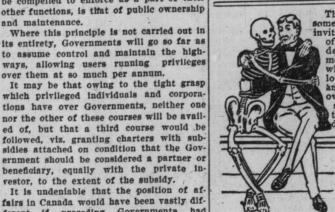

idea that Canada is a country to be proud of, and that it has a glorious future ahead of it. The World hopes that every school teacher in the country will prime himself for the occasion and will see that the young idea under his charge will receive a liberal and intelligent dose of patriotism.

The Czarina Helps the Sufferers.

St. Petersburg, May 10.—At the instance of the Czarina two commissioners have been sent to the famine-stricken district of Russia to inquire into the distress there and to take prompt means for its alleviation. The Czarina has given 50,000 roubles for the relief of the suffering people.

Yankee Soldiers Will Not Be Invited SHIP.

delight of such men to boast of what "tough fel-lows" they are, and tell how they overwork them-selves and how -that put other

It is undeniable that the position of affairs in Canada would have been vastly different if preceding Governments had followed the only wise course, viz., constructing and maintaining railways for the future beneat of Canada, instead of allowing some few individuals to derive unearned riches and privileges for themselves and their beirs. Without a question of right or wrong in the matter, Governments have not only granted railway charters for the asking, large silces of ferti'e territory and cash subsidies to promoters, but also granted power to bond the undertakings for from two to four times the actual cost of construction, on which watered capitalization the public are privileged to pay excessive charges and interest on their own investments. Though the public have actually paid for much more than the cost of construction of all or nearly all subsidized railways, it hasn't even the vestige of a right, intolerable as it may seem, to draw a cent of interest, and apparently no power to determine how railways may be run or what rates may be justly charged the users of them. With hardly an exception where railway charters have been disposed of in the past, the primeter has simply acted as a buffer between the Governments had followed the users of them. With hardly an exception where railway charters have been disposed of in the past, the primeter has simply acted as a buffer between the Governments and a handful of patriotic gentle-

simply acted as a buffer between the Gov ernment and a handful of patriotic gentlemen, who stood by waiting a favorable opportunity to exploit and plunder the

London Chronicle Rakes Up the Past to Show How His Millions Were Made.

THE HOMESTEAD RIOTS RECALLED.

Now the Scotch Pittsburger Proposes to Help Hon. Joseph

London, May 10 .- In the course of an editorial article commenting upon the retime to spend his millions for philanthropi cal purposes, The Chronicle to-day indulges in severe criticism of the alleged means by which Mr. Carnegie built up his fortune and says: "We will remember how the Homestead Works were shut down for nonths because the men refused to have their wages lowered, and how barbed wire fences charged with electricity, were set up, the place fortified, Pinkerton men sent for, and, finally, after a state of war and siege, the Steel Workers' Union was smashed to atoms and the millionaire's works were filled with Poles and Hungarlans."

Offers to Help Birmingham.

Birmingham, May 10.—Mr. Andrew Carnegle has written a letter to Mr. Joseph Chamberlain offering to contribute the last \$250,000 which Mr. Cham Birmingham, May 10.—Mr. Andrew Carnegle has written a letter to Mr. Joseph Chamberlain offering to contribute the last \$250,000 which Mr. Chamberlain is trying to raise for the University of Birmingham, provided the scientific school be made the principal department in the institution. Mr. Carnegle points out the great' need in England of young scientific experts to manage works of the class which England must secure if she is to remain one of the principal manufacturing nations of the world. He urges Mr. Chamberlain to take Cornell University as a model, where the scientific department has won first place in the number of strent and gives degrees in science as in the classics. Mr. Carnegle continues: "I am sure that our people of the Birmingham across the Atlantic (Pittsburg) will heartily approve of a gift to their prototype on this side of the water; for what does not the younger owe of its greatness and prosperity to the Old Land? Let the gift, therefore, be considered only as a slight acknowledgment of a debt that Pittsburg, the greatest beneficiary of your steel inventions, can never hope to repay."

Baltimore, Md., May 10.—Richard Love, colored, and Lewis H. Davis, white, were shockingly mangled this morning by a premature explosion of a dynamite blast in the stone quarry of Daniel Leonard & Son. Both had their eyes completely torn out, and sustained other injuries, which, it is thought, will prove fatal.

Mr. Douglas Claimed the C. P. R.'s Methods of Grain Shipment in Manitoba Had That Effect.

Ottawa, May 10.-(Special.)-Rev. Douglas' special committee on the grain trade met this morning, when Mr. R. Rob lin, representing the Dominion Elevator Company and the C. P. R., gave some in teresting information as to the workings of the present elevator system, explaining, at some length, the manner of charging the method of allowances on freights, the cost of clearing, and showing incidentally that the elevator companies were put to considerable loss on the carriage of uncleaned wheat, comparatively few farmers possessing the means of cleaning their wheat, and shipping it just as it comes from the thrashers.

Mr. McFee, president of the Corn Exchange of Montreal, expressed himself as opposed to the bill.

An adjournment was taken till Friday.
