Women's Christian Association Meets at Home of President To Discuss Plans.

treatment at our hands.

to and one in London—so it is a seen that the scope for work is large. The population in Western rio is steadily increasing, and with a number of patients for the home

it the number of patients for the home increases also.

One plan is to tear down the present buildings and erect a suitable home on the present property. A great many of the members, however, feel that the property in East London, situated as it is on Dundas street, in the midst of a business section, is too valuable to be retained by the home, and should be sold. Property might then be purchased in a more outlying district, which would be less valuable and still as suitable for the purpose of the institution.

Another plan is to make use of the property near the Aged People's Home in North London, already owned by the Women's Christian Association. The two homes under their jurisdiction would then be conveniently situated together. There are, however, some objective this retained.

A matter of public interest came up for discussion at the regular monthly meeting of the Women's Christian Association, held yesterday afternoon at the home of the president, Mrs. Marshall. This concerned the proposed erection of a new "Home for Incurables" in the city. For some time past the work of this institution has been exceedingly cramped, owing to the fact that it has been necessary to carry it on in three different buildings. The main building, situated on Dundas street east, and known as the Victoria Home, was originally an old farm house. This was, however, extended at the front to meet the needs of the increasing number of patients.

Still later it became necessary to take over the residence directly east of the main building and known as the annex. Four rooms above the laundry to the rear of the home are also in use at the present time, communicating with the main building by means of an overhead bridge.

As all meals must be prepared in the main kitchen, it is most difficult to carry on the work. In addition to this.

Still steries the came necessary to take over the residence directly east of the main building and known as the annex. Four rooms above the laundry to the rear of the home are also in use at the present time, communicating with the main building by means of an overhead bridge.

As all meals must be prepared in the main kitchen, it is most difficult to carry on the work. In addition to this. A SERVICEABLE MODEL.

2689—For this practical apron one could select gingham, seersucker, drill, sateen, percale, cambric, muslin, or isterial Alliance and laymen in the are called upon to conduct these ces, which are greatly appreciated to patients.

Golden Text.—Bear ye one another's burdens, and so fulfil the law of Christ.—Gal. vi., 2.

A MOTHER SHOULD NOT DO ALL THE WORK.

As I have stated before in substance, doing the work which others should do is not helping them bear their burdens, but actually increasing the load which they carry. Love itself needs to be educated as to how best help those whom we love. A mother, in order to save her daughters from the drudgery of the household work, who does all the work herself is hurting her daughters very much more than helping them. The way she should lighten the load which her daughters will carry through life is to teach them how to do a woman's wark and her problems could very gracefully withdraw without many tears being shed over them.

Dear Miss Grey.—As it is such a grand day, and as I have nothing in particular to do, I thought I would without many tears being shed over them.

A couple of hints; To measure your skirt evenly, chelk the edge of table, stand against it, and turn round, which the stocking-foot pattern and was bleased with it. Say, Grace Darling is some kid; she writes such interesting letters. I wonder where Farmerette from Oxford is. She does not write any more, I wonder if she lives near the Indian Reserve? I believe I know

Reply Re Dr. Knowles.

Reply Re Dr. Knowles.

Dear Cynthia Grey,—In reply to "Canada Thistle," allow me to say that I, too, have followed the Rev. Dr. Knowles case. As a minister of the gospel, he had no right to commend questionable books, and no Christian has any right to listen to misleading doctrine. As to "bluffing" and "pretending," the "better Methodists" who dealt with his case plainly did not indulge in either. Loyal Canadian Thistles should never patronize Germany so far as to uphold preachers of German theology.

Broadness in a certain sense is very well, but let us beware lest our broadness become looseness. "Strait is the gate and narrow is the way which leadeth unto life." There are many religions, but only one gospel.

And dare we say conscience is a safe guide? G. Campbell Morgan says: "Conscience is a very delicate instrument, as is the compass. It may be diverted from true relation to eternal principles by all kinds of currents, as may the compass. It needs, therefore, readjustment by the standards, which know no varying, as does the compass. We should be profoundly grateful that God has not abandoned us to conscience, but has revealed himself."

Thanking you for space,

SCOTCH THISTLE.

Fond of Lemon Desserts.

Dear Miss Grey,—I am another who is asking for that ever-popular stocking-foot pattern. I wonder if anyone has a recipe called "lemon sponge"? It is excellent, but I have lost it. I am very fond of lemon desserts. As I am not giving any help this time (first time), I must not ask for too much. Hoping you are enjoying this nice weather, and thanking you in advance. weather, and thanking you in advance

Ans.—This lemon foam recipe may answer in place of the last one: 2 cups boiling water, 1 scant cup sugar, juice of two lemons, 2 eggs, 3 tablespoons cornstarch. Mix the cornstarch in a little cold water and put in double boiler with sugar and water for five minutes, add lemon juice, cool, use the minutes, add lemon juice, cool, use the whites, pour mixture in and beat light and foamy. Serve with boiled custard made with the yolks.

Yokes With Sleeves. Yokes With Sleeves.

Dear Miss Grey,—I see where one of your readers were asking for the "Face on the Barroom Floor." I am sending it. Would she please return it? May I, too. have your stocking-foot pattern? Have any of the readers some crochet yoke patterns with sleeves in? I shall be pleased to send, some in return.

DEWDROP. some in return.

A Friend in Need.

Dear Miss Grey,—Here is another asking for the much-wanted stocking-foot pattern. I'll pass it around in this district and save others bothering

Babies of the Empire Society

One of the grandest movements of all time was inaugurated in London, England, when the prime minister of New Zealand, Mr. W. F. Massey, P.C., performed the opening ceremony for the babies of the empire mothercraft training centre at 31 Trebovir road, Earl's Court, S. W. As was fitting, Lord Plunkett was in the chair and Dr. Truby King the medical director of the centre was one of the speakers. These three mon represent the beginning of this world-wide babies' Red Cross movement for it was due to Dr. Truby King's realization of what a baby is entitled to and how these things may be obtained that New Zealand placed itself on the map as the world's champion of babies. It was through Lord Plunkett that Dr. King's ideas could be given practical working support.

Reduced To Lowest Rate.

Mr. Massey pointed out that in eight wears after heginning his work. The new station which was opened so the red was opened so the lowest Rate.

Mr. Massey pointed out that in eight wears after heginning his work. The new station which was opened so the lowest Rate.

Mr. Massey pointed out that in eight wears after heginning his work. The new station which was opened so the lowest Rate.

King's ideas could be given practical working support.

Reduced To Lowest Rate.

Mr. Massey pointed out that in eight years after beginning his work, Dr. King had reduced the infant death rate of New Zealand to the lowest in the world, thus proving that infant mortality is, in almost all instances, due to the carelessness of the supposed caretakers of those infants—in other words, infant mortality is, for the most part, unnecessary. Of course, Dr. King could have done nothing but theorize and at best, work successfully in one little spot just as countless milk stations enthusiasts are working today in Canada, had not the public health department made pure milk and pure food supplies obligatory. They also did other invaluable preventative work by probibiting aliens from entering the country if they were suffering from contagious disease. It was in this national work that Lord Plunkett—had a hand in the good work, also, for she organized the band of nurses who were trained specially in mothercraft and sent into the homes of babies to instruct and advise mothers. Baby hospitals were the next step and from these centres the saving of babies went steadily forward. Every advance was made possible and permanent because of government aid. This took the form, financially of a grant of £1 ds for every pound donated voluntarily by individuals. All finity of the form of the first of the proves beyond a doubt that instead of being a hopeless undertaking the provest seyond a fouth that instead of being a hopeless undertaking the provents every formation of the public to assume their right of emergency fathers and mothers. Mr. Massey dwelt particularly on the entire and the public to assume their right of emergency fathers and mothers. Mr. Massey dwelt particularly on the entire and the public to assume their right of emergency fathers and mothers.
