Chicago Gossip.

J. P. Bickell & Co. say at the close:

Wheat—Higher. Improvement in cash demand and less favorable weather conditions were the factors that created short covering, closing the session with a gain of ¼c to ⅝c. Speculative trade is extremely light, and professionals still bearish, but in our opinion the situation is not weak, and continue to advise purchases of September wheat.

Erickson Perkins & Co. say at the close:

Wheat—During the latter part of the session the market was firm, and the weight of long wheat seemed to have been lifted. Northwest markets were steady, with cash prices firm. We believe that the market is in shape to rally sharply. We in no way change our opinion about the long side of September wheat.

Corn—Cash prices for the better grades were higher in sympathy with the futures. Low grades were in some instances ½c lower. A still further rally is possible, but we are not advising taking the long side of the market.

Oats—As in wheat, there has been a pretty thoro liquidation of speculative holdings, especially in September. We look for a narrow market for the time being.

Provisions—A large western packer again led in the selling, and there was considerable selling of a general character.

New York Dairy Market.

NEW YORK, May 25.—Butter—Firm; receipts, 18,008; prices unchanged.

Cheese—Steady; receipts, 1262; prices unchanged.

Corn—Spot quiet; old American mixed, 5s 7¼d; new, kiln-dried, 5s 5½d; via Galveston, 5s 6½d. Futures quiet; July nominal, Sept. 4s 8¾d.

Lard—Prime western steady, 64s 3d; American refined, 64s, steady.

Turpentine—Spirits steady, 44s.

Montreal Live Stock.

MONTREAL, May 25.—(Special.)—At the Canadian Pacific live stock market this morning the offerings of live stock were 500 cattle, 25 sheep and lambs, 1050 hogs and 1500 calves. There was no important change in the condition of the market for cattle to-day, prices being firmly maintained at the recent advance, on account of the continued small supply coming forward for this season of the year. The weather was warm and depressing, but notwithstanding this fact there was a very good demand for cattle and a clearance was made early. There were no extra choice beeves on the market, consequently the top price paid for choice was 7¼c, while good stock sold at 6¾c to 7c, fairly good at 6¼c to 6¼c, fair at 6c per lb. Cows were somewhat scarce and prices were firmer at 4½c to 6½c per lb., as to quality. A few very choice bulls brought 6½c, and the lower grades sold from that down to 5½c per lb.

Supplies of small meats were larger than they have been of late, and in consequence a more active trade was done in them at steady prices. The demand for both sheep and lambs was good, and sales of the former were made at from $4 to $6 each, and the latter at from $3 to $6 each. Calves met with an active demand and, as supplies were more plentiful than on Monday, prices ruled at from $2.50 to $6 each. The tone of the market for hogs was firm, and prices show no change, as compared with Monday. The demand was good and sales of selected lots were made at $10.25 to $10.50 per cwt. The offerings of live stock at the Montreal stock yards, west end market, were 200 cattle, 100 sheep and lambs, 500 hogs and 300 calves. The trade in all lines was fairly good and the prices realized were much the same as those quoted above.

British Cattle Markets

LONDON, May 25.—London and Liverpool cables quote live cattle (American) steady, at 14c to 15c, dressed weight; refrigerator beef steady, at 11c to 11¼c per pound.

Toronto Live Stock.

The railways reported 32 carloads of live stock at the City Market.

Trade was dull, with dealers trying to get cattle prices down, but, droyers having paid high rates in the country, are holding on, the result being that all the cattle were not sold at the close of the market. The sales made were at about the same rates as on Tuesday.

Sheep, lambs and calves were unchanged and hogs about steady, at $9.85 for selects, fed and watered, and $9.50, f.o.b. cars at country points.

Union Stock Yards.

There was a more active trade than on Tuesday, all of the cattle being cleaned up. Prices, as seen below, were about steady.

Alex. McIntosh bought about 300 export cattle at prices ranging from $6.50 to $7.25 per cwt.

E. L. Woodward bought for Swift & Co. 120 exporters at $6.50 to $7 per cwt.

Rice & Whaley sold: 125 exporters, 1112 to 1240 lbs. each, at $6.10 to $7; 43 butchers, 906 to 1280 lbs. each, at $4.75 to $6.40; 25 feeders, 1116 to 1200 lbs. each, at $6.25 to $6.75; 14 hogs, 220 lbs. each, at $9.50, f.o.b. cars.

Coughlin & Co. sold one load of exporters, 1220 lbs. each, at $6.55 per cwt.

HIRED TO GET EVIDENCE

And Then He Was Arrested for Breaking the Law.

Harvey Rosenweig appeared in police court yesterday morning charged with taking bets. Three men swore to placing bets with him on a horse running on the Pimlico track. Rosenweig's counsel said he had been hired by Staff Inspector Kennedy to secure evidence against Charles W. Garner, charged with keeping a abetting house. The inspector admitted that he had offered the man $5 to secure evidence, but declared that he was acting on his own responsibility in taking bets himself. He was remanded till June 1.

Summonses have been issued calling upon the publishers of "The Racing Record" to come into police court this morning for alleged breach of the Miller Act in the publishing of information intended to facilitate the making of bets. The case is to be made a test one.

Thomas Doyle, who hales from Chicago, was arrested in the act of picking a pocket of $101 at the Woodbine Tuesday. In police court yesterday morning he told a story of the money being thrust into his hand by Pinkerton Detective Rogers. He said the Pinkertons were persecuting him from place to place. He was sent to the Central Prison for 18 months.

A War of Extermination.

HANKOW, China, May 25.—The Chinese rebels are in complete control of territory embracing several hundred square miles in the northern part of Hunan Province, and a war of extermination is being waged on all native Christians, according to reports reaching here to-day by indirect routes. The mobs have destroyed all telegraph wires, according to authentic information, as part of the preparations for the anti-foreign uprising called for May 29.

Fenian Veteran Dead.

BROCKVILLE, May 25.—(Special.)—The death occurred here to-day of Alexander H. Hume, a leading railway clerk for many years in local offices. For the past ten years he lived a retired life and died at the age of 77. Deceased figured in the Fenian raid as captain of the Brockville and Ottawa Rifle Co. He leaves three children.

COBALT--Nip. Makes New Record for Year

Cobalt Stocks in Sympathy With Break on N. Y. Market

La Rose and Nipissing Slump Late in Date When Wall Street Sells Off—Other Issues Steady.

World Office,
Wednesday Evening, May 25.

The upward movement in Nipissing, La Rose and Kerr Lake has stimulated a little better demand for the low priced Cobalts. In to-day's market, buying of Nova Scotia advanced this issue to 43 1-2, a rally of 2 points. The demand for Scotia is occasioned by the news which was given last week of an important strike on the company's own property.

Most of the dealings in the high-priced issues emanated from New York, at which point it is thought that pools are working in these issues with the idea of selling stock on the advances.

Like other markets, the mining exchanges are being influenced by the holidays and except in special instances no great activity is expected to transpire within the next few days.

It is reported among brokers that stocks are becoming scarcer than they were, and on these grounds the presumption is that there will be a gradual and steady improvement in values.

Both Nipissing and La Rose fell rapidly late in the day in sympathy with the break on Wall-street.

SILVER MARKET

Price Has Been Raised by Successive Indian Speculative Purchases.

Samuel Montagu & Co. write under date May 12: On some days silver has been both bought and sold on China account, but the former operations were probably mere adjustments; the attitude of China has been, on the whole, that of a seller.

There have been some small purchases made on behalf of Roumania, and other Balkan states may shortly be in the market for coinage purposes, but the buying will not be of sufficient importance to affect the price to any appreciable extent.

The future depends mainly upon Bombay's capacity to continue buying. The price has been raised by successive purchases on account of Indian speculators to such a point that other interests are left behind. The power of this combination to conserve their holdings and maintain the market level to which we have advanced and the extent of the help that will be rendered at a later date by the Indian harvests, should they be favorable, are the factors which will decide whether yet higher prices will be reached, or whether a reaction will occur. China is not likely to become a buyer except at a lower level.

Meanwhile, the offtake in Bombay has risen to 200 bars a day.

THINGS ARE BOOMING IN PORTLAND CANAL CAMP

D. D. Mann Has Extensive Interest in Properties—Developments Are Satisfactory.

Late reports from the Portland Canal (B. C.) mining camp indicate that things are booming in that district. Recent developments on several of the more important properties have disclosed excellent values in silver, with some gold, and work is progressing satisfactorily on every hand.

The last issue of The Portland Canal Miner states that H. E. Knobel, engineer-in-chief for D. D. Mann and associates, arrived in camp accompanied by W. H. Grant of Toronto, who will be general manager of construction for the Portland Canal Short Line Railway. Other members of the party were: E. O. Lewis, C.E., formerly a member of the engineering staff of the C. P. R.; Ross Welt, who will be the chief accountant here, and a large engineering staff. Material for the construction of the railway is now arriving on each steamer, and camps will be located immediately along the proposed route.

The last issue of The B. C. Gazette contains notice of the application for a license to carry on business in the province of the Mountain Boy Mining Co., Limited. Hhis is one of D. D. Mann's companies and is capitalized for $3,000,000 in 300,000 shares of the par value of $10 per share. The head office is at Toronto. It is the strongest company yet launched to operate in the Portland Canal.

When recently in Toronto Mart I. Stewart bonded to D. D. Mann and associates a group of 28 claims at Maple Bay, for the sum of $1,000,000. The property is owned by John Flewin of Port Simpson, William Noble of Stewart, and associates. Outside of the brief announcement of the bond, which is the largest deal consummated in the Portland Canal, further particulars are unattainable.

TWO KINGS MARKED

Anarchist Plot to Kill Both Alfonso of Spain and Manuel of Portugal.

MADRID, May 25.—Secret warnings have been sent to the government officials at Lisbon that an attempt on the life of King Manuel is likely to be made upon his return from London. The Spanish police, in tracing the details of the widespread anarchist plot for a campaign of terror, find not only King Manuel and King Alfonso marked for death, but members of their governments as well.

It is believed that the conspiracy extends no farther than the Iberian Peninsula, but secret officials of other governments are co-operating in the work of ferreting out the conspiracy. It is reported that several have been secretly arrested here, and there are even hints that the conspiracy extends to army circles.

Got in the Wrong Box.

Claiming that he had been beaten about the face, thrown down stairs and kicked out into the alley alongside the theatre, E. W. Hyde, jr., a young contractor, is suing the Gayety Theatre Company and Manager Thos. B. Henry for $5000 damages. O. D. Lashman, who was with Hyde, puts in a similar claim, altho he was not molested, excepting that someone, he says, gave him a punch in the back as they were going down stairs.

The action arises out of an effort by the theatre employes to have the plaintiffs vacate their seats because they had been shown to the wrong box, and the refusal of the two to show their seat checks, or to go. As to what happened, accounts differ. Hyde and Lashman claim to have acted in a reasonable and gentlemanly way, only to be sworn at and abused; evidence for the defence reverses these attitudes. The case goes on to-day.

Do You Realize
What an Important
Work the Kidneys Do?

Do you know that every drop of your blood goes to the kidneys hundreds of times every day? Do you know why?

To be filtered and purified from its impurities. That is the great work the kidneys have to do. They filter the blood. Then these impurities go to the bladder and are passed out of the body along with the urine.

Do you think it possible for you to be well, unless the kidneys do this work thoroughly?

It is these impurities—this unfiltered blood—that causes backaches, headaches, rheumatism, diabetes, Bright's disease, etc. They poison and interfere with the whole system.

If you have any kidney trouble let Doan's Kidney Pills do for you what they have done for thousands of others. They cure all forms of kidney trouble, and they cure them to stay cured.

Mrs. Maurice Doiron, Charlottetown, P.E.I., writes:—"I was troubled with my kidneys for five years. They were so bad at times that I could not cross the floor for the pain. I went to a doctor, but he did me no good at all. I sent to the druggist and got five boxes of Doan's Kidney Pills, and I am glad to say that after taking them I was cured. I have had no trouble for nearly three years now."

Price 50 cents per box or 3 for $1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's."
