BRITAIN'S PREPARATIONS

to Increase Naval Strength.

British Navy Vigilant.

"As regards the preparedness of the British navy, I can only say that the successive lords of the admiralty have most anxiously considered the methods by which the building resources of this country can best be used. Speaking broadly, it may be said that every dockyard, public or private, at home or in the Mediterranean, is being used either for new constructions or for reparing the requirements of ourselves and our allies. This being so, it is impossible to add to the magnitude of our preparations.

"On Jan. 18 Turkish troops made a surprise attack on the enemy's camp, west of Korna, killing numerous enemies and a great number of cattle."

our preparations.
"The most we can do is to alter the character of the type of ship under construction, but nothing has yet occurred which would justify us in thinking that any serious error of judgment has been made in connection with the type of ship under construction.

It is understood the formal reply will defend the action of the British authorities by citing evidence that Germans have been abusing the pri-vileges of first-class mails. The British Government will rely on the post-al conventions adopted at The Hague jor justification of its measures.

The United States protested to Great Britain last month against interfering with mails between the United States and Sweden. Large quantities of mail matter, particularly parcel post packages, have been taken from a number of steamships which were detained in British ports on voyages to

STEEL STOCKS FEATURE OF MONTREAL TRADING

Early Strength Was Followed by Recessions-Textile at High Level.

MONTREAL, Jan. 26.—The steel stocks furnished what little feature there was to the market today, rising and falling in sympathy with the movement in U. S. Steel. Iron rose ½ to 46% early in the morning and Steel of Canada opened ¾ up at 40, both issues being in fair demand. Both stocks held close to their best prices thruout the morning, but yielded in the afternoon. Iron fell to 45½ and closed at the lowest with a net loss of ¾, and Steel of Canada to 37½, where it closed, 1¾ off. Sootla was dull between 96 and 96½.

The balance of the list was devoid of feature and price movements in some directions were highly irregular. Textile went to 80, 3½ above the last board lot transaction on the market, and a new high since the reopening of the market. Bridge was inactive at 227½.

C.P.R. was moderately active at 173½ to 171¼, but became weaker—in the afternoon.

Privileges of First-Class
Mails.

LONDON, Jan. 26.—Money was in good demand, and discount rates were firm today. American exchange was somewhat uncertain in anticipation of the blockade debate in the house of commons, but cable transfers closed steady at 4.77. Scandinavian, Italian and Holland exchange rates were all, firmer. There is little business passing on the stock exchange outside of rubber shares, gilt-edged securities and the loan. The latter was firm.

LONDON, Jan. 26.—Mr. Balfour was asked in the commons to make a statement of such a nature as to assure the country of the navy's preparedness to meet any development in the way of new Ships or larger guns in the way of new Ships or larger guns in the way of naval inactivity. He said:

"What Germany fis doing in the way of shipbuliding must necessarily be a matter of conjecture. No doubt it has been within her power to initiate during the course of the war, and perhaps complete, the building of large ships with powerful armanient.

"I have seen in the press mention of guns of 17-inch calibre, but we have no evidence that such exist. But given the time and labor, there would be no difficulty in making them. The most make a saked in the commons to make a ficial press bureau today gave out the following, dealing with the fighting in the fighting in the fighting in the fighting in Mesopotamia:
