

MUNICIPAL CHAPTER IN MONTHLY SESSION

Among Matters Discussed in Safety of Old Military Cemetery Near Old Fort at Stanley Barracks.

The monthly meeting of the Municipal Chapter, I. O. D. E., was held at the Sherbourne House clubrooms yesterday afternoon. Mrs. R. S. Wilson, regent, in the chair. Reports showed that a good deal of visiting had been done by the visiting committees among the families of soldiers and that assistance had been given in the shape of fruit, flowers and dainties generally to the military convalescent hospital.

Mrs. Bruce made an appeal for the officers' quarters at the Base Hospital, which she had visited and where she found fifty-four officers, all of whom with one exception have been overseas. The wards were in need of many little comforts in the way of furnishings, and in answer to her plea for assistance a number of representatives promised to interest their chapter at once in the work of replenishing.

Some discussion arose over the little old military cemetery near the old fort at Stanley Barracks, which it was reported was in danger of being absorbed by the railroads. As the preservation of the graves of soldiers is the Empire, it was decided to inquire into the matter with a view to preventing any desecration.

To Prevent Wool Waste. Prevention of wool wastage in the knitting of sweaters or fancy articles was brought up by a resolution moved by Mrs. Angus MacMurchy asking that the 2,500 members of Toronto discontinue the manufacture of fancy wools, that the women refrain from purchasing such wool, and that they devote themselves to sox and soldier comforts generally.

In response to a letter from the home and school council, Mrs. Wilson and Mrs. E. F. B. Johnston will attend a meeting in the interests of the appointment of women on the board of education.

Mrs. Angus MacMurchy, treasurer, gave final reports on Alexandra Rose Day, showing total receipts \$18,813.57, cost of roses \$1,787.50, and total distribution amongst institutions \$16,483.15.

Sergeant Turley, of the Great War Veterans' Association, addressed the meeting, asking for co-operation in the work of looking after the dependents of soldiers. He reminded his audience that they had promised their support at their late national gathering in Victoria, and expressed the opinion that they as women could very often get at particulars which would lead to immediate action more quickly than men.

The regent explained that the order was already doing the work in connection with visiting the families in question, but proposed still further effort thru a special committee. In response to the appeal the matter will be seen to as speedily as possible.

The report on the meeting of the National Chapter, which was to have been given by Mrs. Bruce, was postponed until next meeting owing to press of business.

LUX

An exquisite "newness" for all woollens

Somehow, with ordinary washing, one always thinks of woollen garments coming out of the wash a little worse off than when they went in.

Far otherwise when you let LUX wash them. They come out of the wash with a soft, fleecy "new" feeling, as well as being absolutely clean—quite unshrunk, and quite unthickened.

How is it done? Allow 3 tablespoonfuls of LUX for each gallon of water, which should be near the boiling point. Put the woollens in and stir them about with a stick. Then let them soak until the solution is cool enough for you to squeeze the woollens with the hands—when the dirt will run out. Then rinse in 2 or 3 relays of tepid water and hang to dry.

How to Reduce Fat Without Dieting Or Exercise. This is the time when fat people should be thinking about reducing their weight and should stop making the fat that is such a burden to them. The best and easiest way is the one about which so much has been said and written this past year. This way is the Marmola way. The famous Marmola Prescription has been prepared in tablet form. These little tablets contain nothing but the elements that go to change the best things that produce fat into good, strong blood, nerves, tissues and bone. More than this, these tablets absorb and remove the fat remaining at the rate of two, three or four pounds a week. You must not confuse Marmola Prescription Tablets with harmful patent drugs and hurtful reducing methods. These tablets go into your stomach just like the food you eat. They build up the juices of your digestive organs and correct these juices so that they produce no more fat. They are harmless, yet thousands of men and women all over this land today are of firm figure and normal sizes because of these little tablets. This is why every druggist everywhere carries them. If you would rather send 75 cents, the price of a case, to the Marmola Company, 881 Woodward Ave., Detroit, Mich., they will send them to you at once in a plain package, postage paid.
