GENERAL GOZZALES

JOINS REVOLUTION AGAINST CARRANZA

With Body of Federal Troops

He is Near Mexican Capital.

CARRANZA IS INACTIVE

Washington, May 4.—Gen. Pablo Gonzales, long regarded by Carranza as his staunchest supporter, has joined in the revolution, according to advices today thru official channels. He was a few miles east of the Mexican capital yesterday in command of two regiments of federal troops and had severed both railway lines ex- tending to Vera Cruz.

Another report received here thru unofficial channels was that high mil- itary officers whom Carranza sum- moned in council a few days ago had supplemented their advice to him to resign, with an ultimatum fixing May 15 as the limit for his tenure of office.

The reported determination of the military group to force him out of office would go far, officials here be- lieve, to account for the failure that has been met by Carranza in getting under way any offensive campaign.

To date the revolution has moved forward without a battle, and the re- port mentioning the ultimatum, added that his military advisers were de- termined not to follow a course that would inevitably involve the country in a long struggle filled with danger of foreign complications.

On to Puebla

When Gonzales disappeared from Mexico City government officials there are said to have professed ig- norance as to his whereabouts, but all secrecy as to his movements was removed when he joined Manuel Gon- zales, commanding a federal force near Los Reyes. This meeting was followed by the immediate utilization of the force as a revolting unit. After cutting the railroads Gonzales and his co-operators are said to have moved towards the state of Puebla, where a strong force of rurales recently announced their support of the rebellion.

Gonzales, who was the leading op- ponent of Obregon for the presidency, until Ambassador Bonillas entered as a candidate, conferred with Obregon and the latter agreed to join him in the capital, where he was being held as an important witness in a case brought against General Cejudo for sedition. Prior to that a conference had been held between Obregon, Gon- zales and Bonillas, at which it was announced Bonillas had been urged by both Obregon and Gonzales to join them in withdrawing their three can- didacies in the interest of harmony. Bonillas refused was followed by the revolt in Sonora and the flight of Obregon.

MERGER FORMATION

DISCUSSED IN HOUSE

(Continued from Page 1.)

ger, he urged, was advertised as go- ing to be the biggest industrial com- plex in the empire and to vie with the Canadian Pacific Railway. He cited a letter he received from "a prominent financial man in Toronto," who had declined to mention his name, but who had stated that the merger was going to be a success. The letter stated that the merger was going to be a success. The letter stated that the merger was going to be a success.

Capital Might Be Billion

Mr. Richardson said he had seen at the office of the under-secretary of state the application for information concerning this company. The company was a Canadian company. The capital stock proposed was \$500,000,000, and it was intimated that this would later be increased to one billion dollars. The lawyers for the corporation had protested that it cost \$100,000 to in- corporate a \$500,000,000 company, and they could get an act thru the house for half that sum. They suggested therefore that there should be a rebate. Mr. Richardson submitted that there should be a rebate. Mr. Richardson submitted that there should be a rebate.

View of Sir George Foster

However essential it might be to protect natural resources, capital also was needed in the country for their development, and we must try to be reasonable in trying to join the two together so far as we possibly can. Before we raise a cry against capital coming into this country, we must be sure that we are on reasonable ground."

F. S. Cahill (Pontiac) said the gov- ernment should be very careful about issuing a charter to any combination of promoters which could ultimately dictate the price of steel or the freight rates.

View of W. F. Maclean

W. F. Maclean (South York) said the government was about to embark upon the creation of a great oceanic marine empire, into which it was put- ting hundreds of millions more.

Ernest Lapointe (Quebec East): "Are you in favor of public own- ership of the transportation?"

"Certainly, and we are in it now," replied Mr. Maclean with emphasis.

Mr. Maclean said he wished to pro- tect against the transportation facili- ties being taken to the employees of the various industries. It is predicted that the majority of the ratepay- ers are against the adoption of new waterways. The council refuses to act without a majority opinion of the ratepayers.

Little Prospect of Waterloo

King Says People Have Power

Hon. W. L. Mackenzie King said at- tention ought to be drawn to the fact that under the combines investigation act of 1910, not only the government, but the people themselves, could de- mand an investigation into the pur- poses and methods of such a merger as the one projected. The men who were back of that merger ought to be reminded of what they will be up against if they are tempted to exceed what is right and in the public inter- est in the conduct of their corporation.

Col. J. A. Currie (Simcoe) defended the proposed combination in a vigor- ous speech. In the first place, he said, the people should understand that the federal government refused to grant this charter, the companies could get a charter from any one of the provinces on a Dominion charter, it would bring \$100,000 to the public treasury. They could also get a private bill thru the house of commons and save money, or they could go to Eng- land and get an imperial charter, which would be valid in Canada.

The tariff had nothing to do with the question. He objected to the cru- sade against capital, which, he said, was being carried on at the present time. The liquor crusade had given birth to a campaign against man- ufacturers which was unfair and should be discontinued.

TORNADO IN FLORIDA

Berlin, May 4.—Baron Von Waterhous- Yensburg, whose castle was sacked early in April, has been found dead in the neighborhood of his estate. He had been shot thru the head, and murder is sus- pected.

The baron was shortly to give testi- mony at Munster against the reds, who it is reported, placed a price of 20,000 marks on his head. Late he had been the recipient of many threatening at- tacks.

O.T.A. AMENDMENTS

PROMISED TODAY

Severe Existing Penalties Are Condemned in Legis- lature.

The severe penalties imposed under the O. T. A. were warmly condemned last night in the legislature. The Sandy short circuiting bill was up for discus- sion when K. R. Homuth (South Water- loo) took occasion to describe as unfair and unjust such heavy fines as the O. T. A. called for. The penalty of \$100 for each offence, he said, was a punishment which could surely be devised. (Applause.) It was ridiculous that a drunken man should only be fined \$10 while a perfect sober, decent citizen with a full flask of liquor on his person was liable to a fine of at least \$200.

Hartley Dewar: As I have said before, we should have the government's pro- posed amendments to the O. T. A. be- fore us before considering the terms of the bill. The bill, he said, was a pro- vision for the removal of liquor from one legal establishment to another, provided the ownership did not change.

The bill will be further discussed.

KITCHENER AUDITORIUM WILL IMPROVE RINK

Kitchener, May 4.—(Special.)—It was announced here today, following the annual meeting of the Kitchener Auditorium Company, that immediate steps are being taken to improve the Auditorium Rink. It is not thought, however, that the bu- cket work if the improvements are so intended, as the company are not in- cluding an artificial ice plant in their plans.
