

G. F. W. PRICE FOR CITY ARCHITECT

Acting Official Gains Big Majority Over Colonel Moorhouse.

FIVE-MINUTE LIMIT

Order has at last arisen out of chaos, and it is hoped that from now on the city architect's department will be a place of order and efficiency. After discussion, wrangling and alleged lobbying, the troublesome case of appointing a city architect has been brought to a finish, and G. F. W. Price, acting city architect, will now assume charge of that department.

The board of control at their last session nominated Maguire-Col. Moorhouse, D.S.O., a returned soldier, for appointment to the coveted position of city architect and superintendent of building, to fill the vacancy created by the resignation of W. W. Pearce. It was recommended that an annual salary of \$5,000 be attached to this position.

When the city council gathered themselves together yesterday afternoon for the regular fortnightly meeting, this appointment was the first matter of business brought under fire. Charges, counter-charges, accusations and an immense volume of incidental talk resulted in G. F. W. Price being elected by a vote of 17 to 5. His supporters were: Aldermen Cowan, Honeyford, Nesbitt, F. W. Johnston, MacGregor, Baker, Maher, Beamish, Whetzel, Hiltz, Blackburn, Winnett, Miss G. Burgess, Phinmore, Maxwell, and Controller Cameron. Opposed and strongly for Lieut.-Col. Moorhouse were Controller Maguire, Ramsden, Gibbons and Aldermen Sykes and Flewman. Mayor Church did not record his vote, also supporting Col. Moorhouse's nomination at the recent board of control meeting.

State of Chaos.

Ald. Blackburn threw the first bomb into the hostile camp by moving that the name of Col. Moorhouse be struck out from the board's recommendation and that of Mr. Price inserted. Controller Maguire rose in turn and said that a state of chaos had arisen in the city architect's department since Mr. Price had been its active head; and that, in his opinion, the latter name was not the logical man for the position. In this he was supported by Mayor Church, who stated that never before had he been subjected to so much persistent lobbying. But when I find this condition of affairs, I invariably have found it a good plan of procedure to find out what the lobbyists want, and then do the opposite.

Ald. Burgess challenged Controller Maguire's statement that the city architect's department was in a state of chaos. "I visited that office and saw things as they are running very smoothly," he said.

"That statement is ridiculous on the face of it," retorted the controller. "Naturally, the subordinate officials would have cause enough not to say anything derogatory to the acting head of their department, on whom they might have to rely for favors. If you will refer this matter back for two weeks I will bring forward evidence which will conclusively prove that what I say is true."

After all the council, with the exception of one or two aldermen, had given vent to their opinion on the subject, the vote was taken, resulting in a big majority for G. F. W. Price.

Rosedale Stadium.

When the report of the committee on parks and exhibitions was brought into the limelight, the mayor seized the opportunity to rush in his over-falling hobby, the athletic stadium in Rosedale. He got well under way in a long monologue describing the advantages of having an athletic ground situated there, and urged that the necessary \$60,000 be applied for with which to fit the place for sporting events. In this he was finally brought to a halt by the chairman, Ald. Beamish, ruling him out of order. Parks Commissioner Chambers, when asked upon, stated that there had been some misconception of his attitude on the question of procuring more recreation centres. That such was absolutely necessary, there was no doubt, but he stated that he was not satisfied with the Rosedale site. Cont. Cameron rose in the commissioner's support, saying that Mr. Chambers had been subjected to undeserving criticism by the press. "For vision for these recreation centres should be left more in the hands of the commissioner, who is preparing a comprehensive plan," he said. Several members began to wrangle over this, but Ald. (Mrs.) Hamilton poured oil on the troubled waters, by arising in corroboration of Cont. Cameron. "We should defer this matter until we have heard the various athletic organizations in the city, before we do anything further," she said. "Commissioner Chambers has an extensive plan also under way and we should wait and give it consideration."

An Honorable Bargain.

His worship then reintroduced the Rosedale stadium, stating that the only interest he had in the matter was that of an honorable bargain with the late Mr. Bocking, that this property should be used for athletics. Controller Cameron thought that the council was not in any way responsible for any agreement between the mayor and any outside person or organization, when council was not taken into confidence. Ald. Baker supported the mayor by stating that we should have a municipal conscience and that a bargain was bargain. Ald. Maher said, "Sentiment is a great thing, but it can be carried too far. Rosedale is not the right place for an athletic stadium. We need a place more central and nearer the car lines. The people would not go away to Rosedale. Ald. Johnston then moved that this matter be referred back to the parks committee, with a resulting motion carried. Chairman Beamish then cast the deciding vote and back it will go for another bout.

The recommendation by the parks committee that application be made to the Ontario legislature for an act enabling the city, without the consent of the ratepayers, to spend two hundred thousand dollars for the erection and equipment of recreation centres, was favorably received and will be passed on, for the necessary legislation.

Five-Minute Limit.

Those interested in municipal affairs will be overjoyed to learn that the by-law regulating proceedings in council, which limits each speaker to only five minutes, was carried. Up to the present fifteen minutes was the allotted time for each member, which was sometimes lived up to, but this further restriction was first brought up as a great improvement. When this amendment to by-law No. 424 was first brought up a vote was cast to have it struck out, but a later voting had it reinstated.

Ald. Honeyford then introduced his motion to provide for the holding of an annual municipal election day in the

IDA AT THE CITY COUNCIL

BY IDA L. WEBSTER.

As usual, the opening of the city council was 15 minutes late. In fact, by the time that all of the members had managed to get to their respective seats it was practically three o'clock. Owing to the lateness of the beginning, we could not help wondering why the members could not have remained in the chamber for at least five consecutive minutes, instead of dashing in and out, upsetting several others, and generally drawing attention from the matter in hand to themselves. This was especially so of Alderman Maxwell, and, of course, Alderman Baker, the latter gentleman never failing in his entering and exiting.

The first exciting issue arrived in the guise of a recommendation from the board of control asking that speeches be limited to five minutes, instead of the 15 now in order. After 45 minutes hard battling, both for and against, the motion was turned down. Four hours later it was reinserted and passed.

The appointment of a city architect was the next matter of moment. Alderman Blackburn had the first say in this instance, and he made a motion to withdraw the name of Col. Moorhouse and substitute that of Mr. Price, the man who is now acting city architect. Controller Cameron made a good speech in favor of the present man, as did several others.

Not simply an advertised statement, but a "Fact" beyond all question

Tea for quality, value and economical usage, stands unrivalled and alone, "that's all".

VANCOUVER BISHOP ON CAPITAL-LABOR

Rev. Timothy Casey Says Right and Wrong on Both Sides.

Vancouver, B.C., Feb. 10.—In an official circular read in all archdiocesan churches the Grace Most Reverend Bishop of Vancouver, addressed the clergy of the Catholic archdiocese on the subject of the relations between capital and labor and urged "just co-ordination" between the employer and the employee. He said in part: "The great struggle of the day is between capital and labor and upon this the working men, as each looks upon the other as an adversary."

"There is some right and some wrong on the side of both; that is, of the employer and the employee, and it is for us to point out where the right shall be promoted and the wrong set aside, so that justice and charity prevailing, the different elements of society may, according to God's design, draw closer together to carry on just co-ordination, and so work in harmony that the peace and prosperity of the community may be assured."

Right of Ownership.

"The right of ownership is unsalable, doubtless, and is founded on the law of nature. Besides that, it is sound economic and of sovereign advantage to the laborer. It opens to him the way of owning his home and property, and thus secures him that true liberty, which is the greatest common good of mankind. Why there are so many attacks upon the principle is largely due to the fact that there is vast ownership which has not been legitimately acquired, and is a peril to the public interest. This abuse does not, however, destroy a sound principle."

"The overthrow of this principle—the right of ownership—would, of course, disrupt the present social order, which may well be the subject of reform but not of destruction. It is for us, then, to preach and teach those things which will accord not only with justice, but that, each element of society recognizing the rights of the other and willing to fulfil its duties towards the other, but also with duty."

Charged with Stealing Watch.

Thomas Carlisle, no home, was arrested last night by Policeman Eagleston charged with stealing a gold watch from Thomas Trevers of 127 Parliament street.

REPORT CALF-KILLING HURTING BEEF SUPPLY

Calgary, Alta., Feb. 9.—Steps should be taken to prevent the slaughter of young calves, city commissioners stated during an interview yesterday. Witnesses at the milk probe have testified that dairymen are in the habit of killing calves for their hides, in order that they would not have to provide them with milk.

"The destruction of she-stock and calves, because of the shortage of feed this season, has made serious inroads on the beef supply of the province, and the killing of calves still further reduces seriously the future beef supply of the country," it was stated. "This wanton destruction should be stopped summarily. It is being done not only in Alberta, but in other provinces, where men are pursuing a selfish, short-sighted policy."

A Dominion act was suggested as the best means of remedying the condition.

Western Professor Hopes To Evolve Rust-Proof Wheat

Regina, Sask., Feb. 9.—Hon. C. A. Dunning informed the Saskatchewan legislature that Prof. John Bracken was conducting experiments in the hope of being able to breed a rust-resistant wheat, which, if successful, would result in the saving of millions of dollars to the country. The announcement was made in connection with the vote of \$15,000 for special research work at the university.

Dies in the Penitentiary While Serving a Long Term

Guelph, Feb. 9.—(Special).—Word was received here this afternoon by James Malott, to the effect that his son, Tom Malott, had died while serving a term in the penitentiary at Kingston. Malott, who was a full-blooded negro, was convicted here last April on the charge of assault with intent to rob, and sentenced to serve ten years at Kingston. He was in the same mix-up for which Jimmie Giovannozzo was convicted of murder and hanged last August. He was about 30 years of age.

TO GOVERN SILESIA.

Paris, Feb. 9.—The inter-allied commission, presided over by General Lomax, left for Upper Silesia this evening. The commission will govern the province and organize the plebiscite to be held there. Colonel Percival represents Great Britain on the commission, while General Boigiano is the Italian representative. The occupation of Upper Silesia by allied troops, which began on January 31, will be completed tomorrow.

CHARGED WITH RECEIVING

Harry Cohen, 20 Montrose avenue, was arrested last night by Detective Bain charged with receiving stolen goods. Cohen is alleged to have had about \$500 worth of stolen cloth in his possession. The police say the cloth was stolen from the tailor shop of J. Paul, 329 Bathurst street, on October 29.

PREPAREDNESS HAS EXCELLENT RESULTS

Influenza Epidemic Shows Low Mortality Compared to 1918.

If figures speak for anything they go clearly to prove that the "flu" and pneumonia are not gathering anything like the number of deaths they claimed during the previous outbreak. Over the week end—a total of 48 hours—there were only 34 deaths registered at the city hall as occurring from flu and pneumonia. In one week end in the early stages of the 1918 outbreak there were recorded from Saturday morning, Oct. 13, to Monday evening, Oct. 15, no less than 133 deaths. No such terrible figures have been reached this year and it is not anticipated by the authorities that the present rate of mortality will be materially increased. Considering that Dr. Hastings, M. O. H., looks for the peak of the outbreak in five days time—Feb. 15—it is fairly safe to state that the total percentage of deaths will be very small in comparison with 1918. For instance, from October 1, 1918, to Oct. 23, no less than 729 persons died, while on that day, Oct. 23, there were registered 127 deaths. This one day of deaths has not been equalled in nine days of this year, the total for this month being 124. Although the outbreak is still very bad the "preparedness" of the city health department, showing splendid results so far as the death rate is concerned.

Prompt Response.

The warning Dr. Hastings issued concerning the danger of infection from private and public indulgence in dancing has had a prompt response. The lieutenant-governor of Ontario had issued invitations to a young people's dance for Thursday next at Government House. Realizing that Dr. Hastings' request was for the public good, the lieutenant-governor yesterday canceled the dance, thereby to the disappointment of the young people, but very much in the interests of their health.

The St. Andrew's cadet ball due for this week has also been postponed in accordance with the M. O. H.'s request.

ATTEMPTED SUICIDE IN CHARGE

John Preston, 314 West Dundas street, was arrested last night at the General Hospital by Detective Tuft on a charge of attempted suicide. Preston, it is alleged, attempted to end his life on Jan. 17, by placing a gas tube in his mouth. He was found unconscious and taken to the hospital. He was released from there yesterday and Tuft took him into custody.

CHARGED WITH STEALING WATCH

Thomas Carlisle, no home, was arrested last night by Policeman Eagleston charged with stealing a gold watch from Thomas Trevers of 127 Parliament street.

IS YOUR GUARD DOWN?

Every man is a fighter, though he may not be a pugilist. His daily task is his fight—and he needs to be fit and ready for it.

Constipation to the business fighter is the "out-of-condition" of the pugilist. Constipation not only makes the business fighter dull and slow, and unfit for effort, but it is the "lowered guard" that leaves the opening for the jarring blows of serious diseases.

90% of all diseases have their origin in the intestinal canal—in constipation. Constipation not only causes the generation of poisons, which are carried through the system by the blood and attack it from within, but also by thus

lowering the general stamina makes the weakened system an easier prey to harmful germs from without.

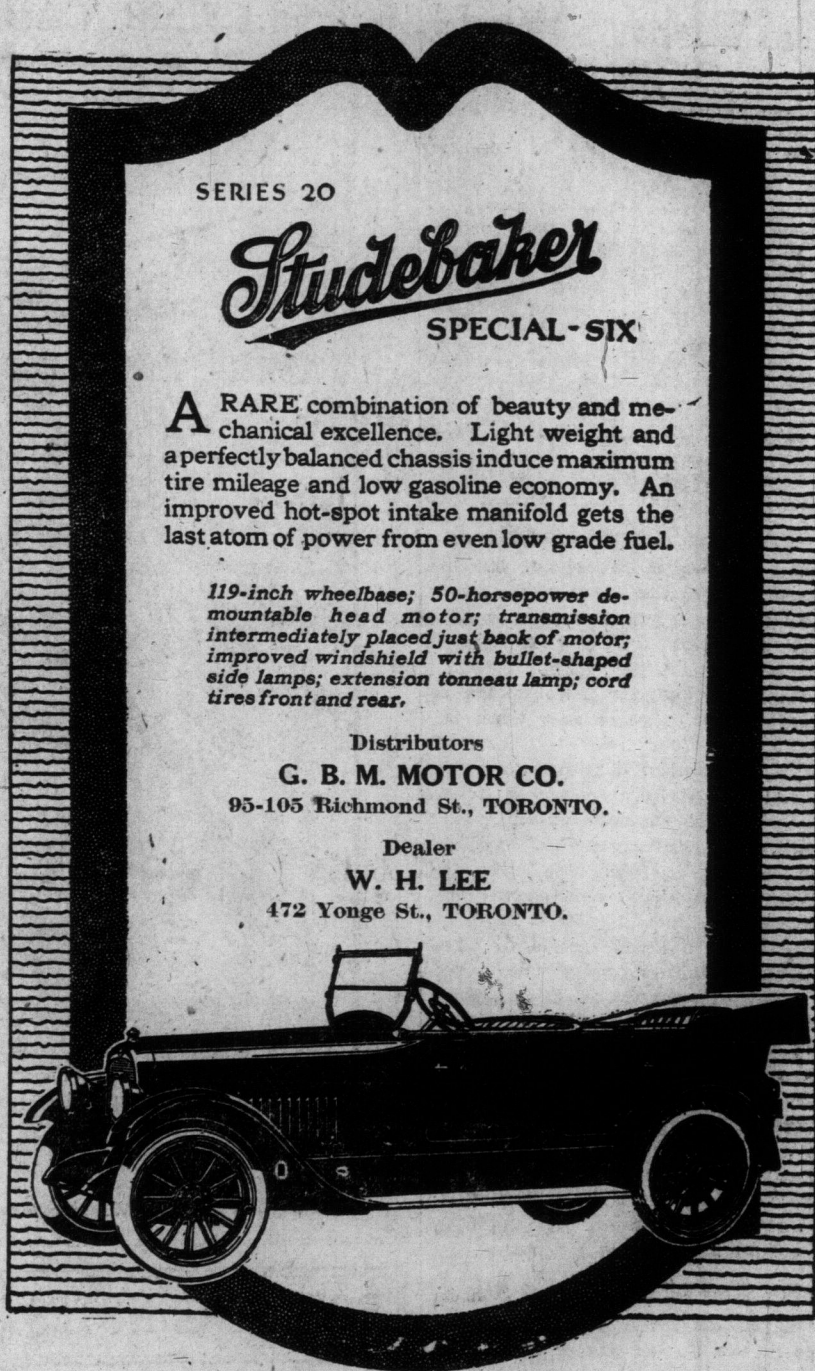

By an entirely new principle Nujol keeps the poisonous food waste moving out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system.

Nujol prevents constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

It is absolutely harmless and pleasant to take—try it.

Nujol is sold by all druggists in sealed bottles only, bearing Nujol trade-mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet "Thirty Feet of Danger."

A New Method of Treating an Old Complaint

A RARE combination of beauty and mechanical excellence. Light weight and perfectly balanced chassis induce maximum tire mileage and low gasoline economy. An improved hot-spot intake manifold gets the last atom of power from even low grade fuel.

119-inch wheelbase; 50-horsepower demountable head motor; transmission intermediately placed just back of motor; improved windshield with bullet-shaped side lamp; extension tonneau lamp; cord tires front and rear.

PROBABLY FATAL BURNS

When her clothing caught fire, while attending to the furnace in her home, 31 Grange avenue, yesterday morning, Mrs. Ethel Brownstein, aged 50, was so badly burned about the body that little hope is entertained for her recovery. She was admitted to the General Hospital and late last night no change was reported in her condition. Miss Julie Brownstein, daughter of the burned woman, was turned about the arms and hands trying to smother the fire of her mother's clothing.

ARRESTED UNDER O. T. A.

P. Lindzon, 174 West Dundas street, has been summoned to appear in police court charged with selling alcohol. Lindzon is alleged to have sold a bottle of alcohol.

The city street cleaning department has 65 men down with the flu, and there are 80 men absent from the fire brigade suffering from the same complaint.
