

during the year being larger than ever before, and the attention paid by those who came to our meetings has been rewarded by an increased knowledge of the missionaries who are labouring in foreign lands.

Papers have been prepared by members, and these, with the letters from Miss Lyman, Miss Clarke, and Messrs. Currie, Lee and Pedley, have helped to keep up a growing interest in Missions. One of the most delightful features of our work was the enthusiasm displayed over the box for Mr. Currie, of Cisamba. This went last April through the Canada Congregational Women's Board of Missions, along with several other boxes from the eastern branch of the Board. We would most heartily thank those friends in the Church and Sunday School who so kindly helped us by their contributions.

Miss Clarke, a young lady from Guelph, who has lately gone to the West Central African Mission, was present at one of our meetings, and gave us much information on the work of the mission. We will not soon forget her earnest words, and will take a keener interest in the African Mission for having seen her.

After careful consideration, it has been decided not to send the usual grant of \$25 to Mrs. Windsor, of Sirur, India, as we have done for the last six years.

Our intention is to send \$50, the amount of one month's salary, to Miss Lily Lyman. She having been one of our former presidents, the Society felt it ought to be doing something towards her support. This sum has not all been raised yet, but we expect to have it in our hands about the middle of January.

For the coming year let us press forward, striving to have more loyalty to Christ and His service, more enthusiasm, more work, more contributions. "If we expect much from Heaven let us do much, remembering that as we give it is given to us."

Respectfully submitted,

E. JESSIE McDUNNOUGH,

*Secretary-Treasurer.*

#### CHINESE SUNDAY SCHOOL.

At the close of its sixth year, the Chinese Sunday School presents its report.

The attendance has varied, but there are now 15 names on the roll, and of these eight have come within the year, most of them straight from China. Several, however, have left us, and in this way our numbers increase little from year to year. One has returned to China, and 6 have gone to live in other Canadian cities. One old Chinaman refuses to attend during the absence of his teacher, to whom he is much attached, and whom he declines to have replaced.
