MY OLD OAK CHAIR.

e German of Karl Batz, by Profess My old oak chair ! what a host of thoughts is call'd forth when on thee I gaze : The heart, by memory's touch is wrought To think, and sigh for by-gone days.

And where are all thy fellows ?—Gone, Decayed, neglected, all but thee : With sadden'd air thou stand'st alone, Companionless, still loth to flee.

Thou draw'st the recollection back To those dear friends, then young and gay, Who wandered in life's rosy track, Led on by pleasure's brilliant ray.

The feast, the revel, and the dance, The joyous laugh, soft music's tone, The whispered sigh, the ardent glance, That tells what language may not own.

Those friends, those scenes, have pass'd away; The laugh is hush'd, and dim'd those eyes; And silence holds her pensive sway, Save when regret a requiem sighs.

Yet still, with outstretch'd arms, you stay, And fancy often places there Lov'd forms that seem, in twilight grey, 'To hover round my old oak chair.

BANK OF

BALDNESS.

BEAUTIFUL HEAD OF HAIR A BEAUTIFUL HEAD OF HAIR Is the grandest ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appear-ance of old ago, which causes many to recoil at being uncovered, and sometimes even abus society to avoid the jests and smeers of their acquaintance; the remain-der of their lives is consequently spent in retirement. In short, not even the loss of property fills the gene-rous thinking youth with that heavy sinking gloom as does the loss of his hair. To avert all these unplea-sant circumstances, OLDRIDGE' BALM OF COLUMBIA stops the hair from failing off on the first application, and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning grey, makes it curl beautifully, and frees it from scarf. Namerous certificates of the first applectability in support of the virtues of Old-ridge's Balm sre shown by the propristors. MCDERT WHARION, E.q., late Mayn of Philadelphia, the following gentument. MOFFAT'S Vegetable Life Medicines

THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor. In many hundred cer-tified cases which have been made public, and in al-most every species of disease to which the human frame is liable, the happy effects of MOFFAT'S LIFE PILLS AND PHENIX BITTERS have been gratefully and publicly acknowledged by the persons benefitted, and who were previously unac-quainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

The LIFE MEDICINE recommend themselves in diseases of every form and description. Their first operation is too loosen from the coats of the stomach and howels, the various impurities and crudities constantly settling around them, and to remove the hardened faces which collect in the convolutions of the small intertients. Other medicines only partially cleane these and leave such collected masses behind as to produce habitual costiveness, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death; and hence the prejudice of these well-informed men against queck medicines—or medicines prepared and heralled to the public by ignorant persons. The second effect of the Life Medicines is to cleane the kidneys and the bladder, and by this means the liver and the lung, the healthful action of which entirely depends upon the regularity of the uninst, organs.—The blood, which takes its red color from the agency of the liver and the lung before it passes into the heart, heing thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphautly mounts the banner of health in the blooming chek.
Moffat's Vegetable Life Medicines have been thoroty of Dyspesis, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Ill-temper, Ansiety, Langour and Melancholy; Costivenes, Diarthoa, Cholera, Fevers of all klnds Rheumatism, Gout, Dropsies of all klnds, Gravel, Worm, Asthma and Consumption, Scurvy, Ulcers, Inveterate Sores, Scothutic Eruptions and Bad Complexions, Eruptive complaints, Sallow, Cloudy, and other diagreeable Complaints, Sallow, Cloudy, and other diagreeable Complaints, Sallow, Cloudy, and other diagreeable dorphale in the is alone by the reuticals motion were seen and Acues, preves of all kinds requires of his patients is to be particular in taking the Life Medicines have been most eminently successful; so m
