McMaclean informs the Times that on the date mentioned 1,000 pairs of mule-hide mittens, wool lined, approved by Major MacArthur, were on the way to the 29th Battalion. They were sent by the Knights of Pythias of St. John, in response to an appeal from Major Pringle. Mr. McMaclean was chairman of the K. of P. committee, and they consulted Major MacArthur before selecting the mittens.

A STORY OF GEORGE DIXON

Rev. F. M. Clay of New York, addressed the Halifax Rotary Club on Tuesday. He is a native of Halifax, and for years he had sailed out of Vancouver as master of a sailing steamer. He had been in the frozen Arctic. He had visited China and Japan, and slept under the sun of the South Sea Isles, and later had entered the ministry. He is now an evangelist. In his report of his address to the Rotary Club, the Halifax Chronicle tells this story:—

"As a boy he had often put on the boxing gloves with a little colored chap whom he loved as dearly as any of his white playmates. Later he had met that boy when he was a man in New York, and had said to him, 'You are hitting the booze, are you not? To which he replied, 'Oh, I only take a couple of drinks now and then.' That man's bank book showed that in one bank he had deposited \$22,000. The speaker advised him to go back home and take care of it. The man was George Dixon, later world's champion featherweight. Some years later he was carried to Bellevue Hospital, New York, and when he died he would have been buried in a pauper's grave had it not been for John L. Sullivan, a man who had since reformed, and who sent \$200 to give him a decent burial. A short time ago, while going through the cemetery where that man was buried, he stopped for a while by his grave and thought of another life that had been wasted. That little colored boy had gone to school with him at Abro street school in Halifax."

FOR PROVIDING SKATING PLANS

Discussion at Meeting of the Commissioners—The Manawagonish Road Lots

At a meeting of the common council this morning Commissioner Fisher asked for the support of the members if he brought in a recommendation asking the government to contribute towards repairing certain streets, which are practically highways and over which a large amount of traffic comes into the city from the surrounding counties. He was assured of unanimous support. He mentioned the Marsh road, Douglas avenue and Millidge road. He said that the Marsh road was used extensively by King county farmers and it was to their interest that it be put in better condition, as well as for the light traffic over the street from the city.

A letter was read by Commissioner McCallan from H. E. Wright asking that he do all in his power to have the dam at Newman Brook kept flooded this winter so that the young people of the North End would have a place to enjoy skating. He wrote that it was the only place where they could skate as Marble Cove was considered dangerous because of the dredging operations. Commissioner McCallan said that he had called up F. C. Beattie, who is in charge of the dam, which is owned by Stetson, Cutler & Co., and asked him if it would be possible to secure it for skating purposes this winter. He said that he had asked Mr. Beattie to send in an answer in writing, specifying the conditions under which he would grant the request. Mr. Beattie replied that he would be pleased to allow citizens the use of the mill dam for skating if the city would repair any damage that might be done to the dam and gates. He said in former years the privilege was abused and he was put to considerable expense repairing the dam. Commissioner Wigmore spoke about having the mill dam in former years. He felt that the idea was a good one and that if possible the place should be secured for the citizens' use. He said he would do anything possible in the matter.

Commissioner Fisher said he was in favor of establishing rinks for skating purposes and that his department would render any assistance possible after the work on the city streets had been completed. He felt that the responsibility should be well defined. In reply Commissioner McCallan said that he would willingly take the matter in hand and see that it was looked after. He was not in favor of any half-hearted methods of seeing to the rink after some other work was done. On motion of Commissioner Fisher, seconded by Mayor Hayes, the matter was referred to Commissioner Wigmore to report back at the next meeting. When the motion was put Commissioner Fisher answered yes and Commissioner McCallan nay, Commissioner Wigmore not voting.

Mayor Hayes suggested that some interest should be taken in Lily Lake this winter as he understood there would be a scarcity of places to skate. He thought the city should assist in keeping it in condition. Commissioner Fisher said his department would willingly assist in clearing off the ice and do anything else possible to assure good skating conditions. A discussion then took place regarding the city property on the Manawagonish road. Some offers had been received for lots and in addition many had applied for permission to use the land for cultivation purposes. Commissioner McCallan spoke against certain people getting plots free when they were not taxpayers in the city. A discussion also took place regarding fines collected and the opinion prevailed that the city should have a share in them.

SECOND TIME WOUNDED

Alfred McCutcheon of Springfield Already Had Been Year in Hospital

For a second time, Alfred McCutcheon, son of Benjamin McCutcheon, of Springfield, Kings county (formerly of St. John), has been wounded. His father received a telegram on Saturday that he had sustained serious wounds on Nov. 26. The full extent of them is not known. This gallant young soldier crossed the Atlantic two years ago with a noted battalion that was here for a time. After participating in some desperate fights, he was so seriously wounded in April that he had to be returned to England. He spent more than a year in hospital, returning to the firing line a few months ago.
