HIGH SCHOOL ELECTION.  
An election with wards and polling booths, returning officers, clerks and other officials was held in the high school today. The pupils voted for the candi-

dates of their choice, the candidates for election being the gentlemen who are on the tickets of the three parties in St. John-Albert. The idea behind the election was to familiarize the pupils with the methods of voting and at the same time learn something of the geography of the constituency. Each of the nineteen departments in the high school represented some city ward or country polling district. The teachers previously gave the pupils instructions in the boundaries of the several wards and districts of the city and county.
