

AUSTRIANS HARD HIT AGAIN BY THE RUSSIANS

Petrograd, Nov. 6.—The Russians have recaptured the Galician town of Jaroslav and have taken 5,000 Austrian prisoners, according to a telegram from Lemberg. Jaroslav is seventeen miles northwest of Przemysl.

The Austrian attempts to cut off the Russian attackers finally have been broken down and the Austrians now are in retreat along the river San.

According to Russian information Wireball is the only obstacle to a general advance on the whole Russian front into East Prussia. The Germans, it is declared, soon will be forced to evacuate, being threatened by a flanking movement of the Russians.

The backward movement of the remainder of the German line left this point without sufficient support.

A Swede was working for a farmer, who demanded punctually above everything else. The farmer, according to the Youth's Companion, told him that he must be at work every morning at four o'clock sharp. The "hand" failed to get up in time, and the farmer threatened to discharge him. Then the "hand" bought an alarm clock, and for some time everything went along smoothly. But one morning he got to the field fifteen minutes late. The farmer immediately discharged him, in spite of his protestations that his alarm clock would be lame.

Sadly returning to his room, the discharged employe determined to find out the cause of his downfall. He took the alarm clock to pieces, and discovered a dead cockroach among the works. "Well," he soliloquized, "my tank it lams no wonder the clock wouldn't run—the engineer here dead."

A GOOD BILL AT THE LYRIC. The Lyric was patronized last evening by capacity audiences who seemed to richly enjoy both the vaudeville and pictures. S. C. Mr. Matthews displays decided ability to amuse, and his clever songs were so excellently rendered that he carried the audience by storm on his every appearance. Mrs. Alice Clark entertained with several classical selections, which displayed a rich and well trained voice. CANADA IN THE WAR

Sir Robert Borden may have to cut his holiday at Virginia Hot Springs short and return to Ottawa to grapple with the various problems now demanding attention in Canada.

All Turks in the dominion will be required to register in the same manner as the citizens of the German Empire. There are about 800,000 Austrians and Germans in Canada and a proposal to put them to work under guard on public works has been made.

Machine gun sections are to be added to the strength of the Montreal Home Guard Regiment, which is now being organized. While the work of recruiting has so far been left largely in the hands of the committee, already nearly 150 volunteers have called and paid in \$35 each to purchase their rifles, ammunition and equipment.

Mounted Rifles. (Continued from page 1) Com. Potts moved that the constitution of the committee be deferred until a special meeting one week later. By that time, he said, additional suggestions might be made, say for the co-operation of the other departments, which would make the plan even more valuable.

Mayor Frink declared himself heartily in favor of the project. The fact that the men are already organized and under discipline could be of great value to the department. He had asked the militia department if the Lee-Enfield rifles, discarded when the Ross rifle was introduced, would be available for such a purpose. It appeared to him that there might be some difficulty in securing rifles from the United States.

Com. Wigmore said he wanted to place himself on record as in favor of the plan. He thought that the greater the number of men who were trained to shoot the safer the citizens would feel. The mayor referred to the fact that sixty or seventy middle-aged men had offered to him for home defence but that the difficulties in the way of this would not interfere with this plan.

FAVOR ARMING FIREMEN FOR HOME DEFENCE

Com. Potts moved that the constitution of the committee be deferred until a special meeting one week later. By that time, he said, additional suggestions might be made, say for the co-operation of the other departments, which would make the plan even more valuable.

Mayor Frink declared himself heartily in favor of the project. The fact that the men are already organized and under discipline could be of great value to the department. He had asked the militia department if the Lee-Enfield rifles, discarded when the Ross rifle was introduced, would be available for such a purpose.

It appeared to him that there might be some difficulty in securing rifles from the United States. Com. Wigmore said he wanted to place himself on record as in favor of the plan. He thought that the greater the number of men who were trained to shoot the safer the citizens would feel.

The mayor referred to the fact that sixty or seventy middle-aged men had offered to him for home defence but that the difficulties in the way of this would not interfere with this plan.

The amendment was carried. Mr. McDonald then proposed to the committee that the plans submitted were not to be done. The section was adopted.

The funding of balances in the department was approved. The Harbor Berth. The commissioner of harbors, ferries and public lands recommended that he be authorized to purchase a raft of birch logs from Bohan Bros. for repairing wharves at \$17,500 per M.

That renewal lease issue to the executor of the estate of James Mills, Daniel C. Clark, Orlando C. Ward and David Magee. The allotment of berths be made for the coming winter as follows: Canadian Pacific Railway Company, Nos. 1, 2, and 3; Donaldson Line, No. 4; Manchester Line No. 5; Alland Line No. 6.

That there be given to John G. Spardack a lease of a lot on the west side of the harbor between the toll house and the C. P. R. wharf, to be subject to termination at any time on receiving one month's notice from the harbor board.

The report was adopted and the recommendations approved, with the exception of the Spardack's lease, which was laid over for one week.

THE POPE'S LETTER TO ARCHBISHOP OF MEXICO. Rome, Nov. 6.—Pope Benedict, writing under date of October 25, sent a paternal letter to the Archbishop of Mexico, comforting him and the Mexican episcopacy in the distressing situation in which they have been almost all forced into exile.

The Pontiff encouraged the Mexican clergy to trust in a better future and says that he adds his prayers to theirs for the triumph of the Church and of justice. In the meanwhile he sends them money for the aid of such priests who have been deprived of their possessions and well to succor the congregations driven from their homes. He regrets that his poverty does not permit him to send more.
