In the house of lords yesterday the Marquis of Salisbury announced that he hoped to obtain the Queen's consent to the dissolution of parliament on July 5. The time had not arrived, he said, for a declaration of policy on behalf of the Conservative party. The latter, he added, only had one policy at present, and that was to dissolve parliament as soon as possible.

Lord Rosebery expressed surprise at the government declining to disclose its policy. He said that the Marquis of Salisbury's strange proceedings in sending to the Rt. Hon. Campbell-Bannerman, Secretary of State for War, on Tuesday morning for the seals of the latter's office.

The Marquis of Salisbury said Lord Rosebery's statement was incorrect. He explained that after Friday's vote in the house of commons, he, the Marquis of Salisbury, thought it desirable to appoint a new Minister of War forthwith, and therefore he sent to Mr. Campbell-Bannerman to ask him if it was convenient to deliver his official seals to the Sovereign earlier than the other ministers, and if he did not desire to go to Windsor himself he could deliver them to the private secretary of the Marquis of Salisbury.

Lord Rosebery went to Windsor Castle this afternoon and paid his respects to the Queen. Her Majesty graciously accorded him an audience and approved the outgoing ministry's list of royal honors. The retiring premier took luncheon at the castle. The Queen privately invested him with the badge and ribbon of the Order of the Thistle.

The Times says that Lord Londonderry declined the office of lord privy seal with a seat in the cabinet because it

Tenders for the New Franco-Canadian Line—Schultz's Closing Speech.

Winnipeg, June 28.—Engineer Farr, charged with arson and attempted murder, was again up for trial today. Being asked if he had anything to say, Farr's reply, in a clear voice, was: "I have nothing to say, except that I am not guilty." Farr's counsel then said he would reserve the case for the defence till the higher court, and the prisoner was committed to the October assizes.

Montreal, June 28.—Eight tenders have been received by the Dominion government for the establishment of a line of steamships between Canada, Belgium and France, as follows: Two from the Furness Company of England, one from the Hamburg-American Packet Co., two from the Columbia and Belge Steamship Co., one from the Boreaux syndicate, one from N. Winnipeg, June 28.—The Manitoba legislature has prorogued this afternoon. Lieut-Governor Schultz, in dismissing the members said: "I am pleased to relieve you from your prolonged legislative duties at the close of this session. Circumstances arising outside of this legislature have necessitated your attendance in Winnipeg on two occasions at inconvenient periods of the year, after the legislature had been in session for the usual time. I congratulate you on your public business. During the session you have been called upon by His Excellency the Governor-General in Council to pass legislation which would have the effect of impairing the public schools act of 1890, by restoring to one class in this province rights and privileges previously enjoyed by them. Your refusal to comply with this order, I have no doubt, meets with the approval of the majority of the people of Manitoba. I commend your memorial to His Excellency in Council for its firmness and moderation of tone. Several measures of great public advantage have been passed by you. I note particularly an act respecting the constitution and practice of the Court of Queen's Bench, which I am assured will have the effect of simplifying legal procedure and lessening its expense."

Hamilton, Ont., June 28.—James Neelon, 18 years of age, went into the bar-room of the Tremont house this afternoon with three companions and called for drinks and put down a \$2 bill and only received back 80 cents from James Ward, the hotel proprietor. Mrs. Ward says her husband fired in self-defence, while Neelon's companion says the firing was deliberate. Ward having prefaced the shot by the remark that if they did not leave the saloon at once he would shoot them all.
