THE FAMOUS LE ROI

Stockholders Considering a Proposition for the Purchase of the Mine

What Some of the Stockholders Will Get if the Sale is Completed

It is stated that the directors of the Le Roi mine, who were empowered to sell the mine for \$5,000,000, have declined several offers of between \$4,500,000 and \$5,000,000, because they were unaccompanied by cash.

It is known that officers, trustees and stockholders of the Le Roi mine are now considering a cash offer for that great property.

The officers and trustees decline to give any information for publication, says the Spokesman-Review, but it is the general belief among mining men that the price offered is between \$4,000,000 and \$5,000,000.

Of the 500,000 shares of stock, 337,000 shares are owned by Spokane men, 131,000 shares are held in Danville, Ill., and 30,000 shares are scattered far and wide.

Table listing stockholders and their share counts: I. N. Peyton, 75,500; W. W. D. Turner, 47,000; W. J. Harris, 39,000; W. J. Smith, 35,000; George Turner, 35,000; D. W. Henley, 20,000; J. M. Armstrong, 17,000; Frank Graves, 15,000; Ed. Saunders, 13,000; E. F. Williams, 13,000; R. B. Blake, 3,000; W. J. C. Wakefield, 3,000; Other Spokane holdings, 20,000.

Valentine Peyton, 72,000; J. G. English, 21,000; C. S. English, 12,000; W. A. Peyton, 10,000; Other Danville people, 10,000.

Spokane is full of men who tell in saddened tones of the chances they once had to buy Le Roi stock almost for a song.

Another Spokane man had a still more sorrowful tale to tell. "I was urged once to take a block of the stock at 5 cents per share," he said, "and then he wandered down by the river and gazed pensively at the rushing stream."

How to have the claims recorded was then the problem, none of the prospectors having the few dollars required for that form of the law.

Orellia, Ont., Feb. 6.—Returns from the subdivisions not heard from show unexpected gains for McLeod, the Conservative candidate, and it is by no means certain the Patron-Liberal candidate, Graham, is elected.

There is some doubt as to the result of the election in North Ontario.

few cents per share. It will now bring as many dollars. The dreamer imagines that these great rewards have come with almost effort. The mine lay in the primeval wilderness, remote from lines of transportation, and the rugged, towering rock was never drilled than that which is locked in the treasure vaults now open to easy access.

Pluck, persistence and indomitable determination have converted the Le Roi into one of the great mines of the world, and this superb achievement was brought about by self-sacrificing, courageous men, knowing little of mining, and having to work out problems which the experts declared could not be brought to a successful solution.

The full court yesterday dismissed the defendant's appeal in the Matthew vs. Consolidated Railway Company. The plaintiff is the owner of the Le Roi mine.

RAINY RIVER MINE

Which if All Reports are True, is One of the Richest in America

Ex-Governor Flower's Private Secretary one of the Owners.

New York, Feb. 5.—For Canadians interested in the gold-mines in the Rainy river district, there is some interesting reading in today's World. That paper publishes two columns of a fabulous rich mine that has been discovered by Harry Folger, son of Henry Folger, of Kingston, Ont., and at present acting as private secretary to ex-Governor Roswell P. Flower, the well known New York banker.

THE ANTI-TRAP LAW

British Columbia Cannermen Said To Be Interested in Its Passage

Seattle, Feb. 5.—There are various interests at work for and against the anti-trap law, not only in this state, but in British Columbia. The seine men here want to see the law passed, while the fish cannermen and other classes oppose it.

There are no seasons, but the law passes it will have developed into one of the hottest affairs the country has yet experienced.

As soon as the sale was announced, the price of Crown Point shares jumped by leaps and bounds. They reached 50 cents, where they remained for some time.

Now comes the second chapter. When the option taken on the War Eagle in London parties failed to be taken up, and the head of the Fraser river carrying fish from this side went over the situation to a reporter for the Times yesterday afternoon and presented the view of the trap men.

There is another point presented in favor of the traps trap here. They are in a way bread and butter to a large number of farmers on ranches on the islands.

As soon as the deal was closed and the War Eagle and other properties passed into the possession of the new company, the shares advanced to par.

Now comes the information that the holders of Crown Point shares are to be allowed 50 cents per share in adjustment of the settlement between the company and the new War Eagle Consolidated company.

CARTER'S LITTLE LIVER PILLS. CURE SICK HEADACHE. It is claimed that while the traps have interfered in a measure with the seine men, they did not to the extent claimed and effected the capture of a vast amount of fish on this side that without their aid would have made straight for the Fraser river in the British Columbia.
