> SALE ALBERNI-CONSOLIDATED An English Company Has Made the First Purchase Payment.

It has been known for some time that an English company has been in negogotiation for the purchase of the Albernt-Consolidated mine in Alberni, says the Nanaimo Free Press. On Monday the purchase was effected and the first There are now three regular Oriental payment made. The terms of the purchase provide that the present share-holders shall receive 10 cents for each share held by them, and a quarter interes; in the stock of the new com-pany. If the cipital of the English company is placed at £100,000, this will be about equivalent to 45 cents a share for each share held by the present stock-

The recent developments of this mine have been eminently successful, and it can now be looked upon as a certainty that the Alberni-Consolidated will be operated on a large scale. This will mean much not only for the Alberni district, but for the mining interests in this coast portion of the province gen-erally. Experts have stated that the prospecting on Vancouver and adjacent islands shows very much better indications than did the Kootenay country at the same stage of prospecting. What is required now is capital and experienced and practical men at the head of development operations. Then we will take our position in the front rank of mineral-producing in the Dominion of Capada. This is warhang saying a good

Quite a sensational murder and suicide occurred in Tokio shortly before the steamer Yamaguchi Maru sailed om Yokohama. Yomekichi Shiba'a, lowered but nothing could be seen whilom usurer, murdered at his own the unforturate gentleman, who, it is buse Jum-ichiro Kiyono, another thought, had weighted his body with

> THREE DOCTORS IN CONSULTA- and this is a matter for regret. TION.

From Benjamin Franklin. "When you are sick, what you l'ke best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i.e., Theory) says is best to be chosen in the last place. But if to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the est advice that can be taken. When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy

change Case Undecided.

outset to the wording of the summous, contending that the onence was not specified and that under it a number of cases might be brought against his client. The objection was overruled, and the case was about to proceed when C. Pubbis Mason, who prosecuted, indicated that the most invocation was proceeded in the summous of the summous objection was overruled, and the case was about to proceed when C. Pubois Mason, who prosecuted, indicated that the most important witness had refused to respect the summons, and that the case could not be proceeded with until his presence was secured. The court was about to issue a warrant for the arrest of the reculcitrant witness when the counsel for the defence pointed out some informalities in the premiumnary procedure, which rendered the summons invalid. Owing to this the case was finally withdrawn.

S. Perry Mills appeared for the Bank Exercise to this province.

b ought to popular notice the resources of this province.

The spacious floor of the main building is largely given over to industrial and trade exhibits, the monotony of these being very sensibly relieved by displays of potted plants. These are about on a par with the same class of last year, but it is impossible to realise their numerical importance owing to their being so dispersed over the building. The department dealing with plants and flowers is scattered all over the building iminary procedure, which rendered the summons invalid. Owing to this the case was finally withdrawn.

S. Perry Mills appeared for the Bank Exchange, and while he admire a figure had been sold on the day in question, rested his case on the ground of no jurisdiction, and the interpretation of the statute. He contended that no offence known to the law had been committed or disclosed; that the pieblscite act embodied only that portion of the election act referring to the taking of the vote; and if allowed to apply fully, was an infringment of the power vested in the provincial government for the regulation of saloons, and as such was ultra vires of the Dominion government. He further stated that his client had not opened his saloon until informed by wire that closing was not he'ng efforced in other cities. Judgment was reserved. that closing was not he'ng enforce other cities. Judgment was reserved.

The Fruit Display is as Usual of the Very Highest Order-Outdoar Sports.

Dog Show a Success as Also the Poultry.

New Westminster, Oct. 5.-Never has dark not a cloud obscured the sunlight, but there was enough of sharpness in the air to remind that the end of sum-mer had arrived and that the autumn days are at hand. When the time came days are at hand. When the time came to open the provincial exhibition, the guard of hono; composed of a company from H.M.S. Amphion, a detachment from H.M.S. Sparrowhawk, together with No. 4 Company, Fifth Regiment, C.A., rec ived His Honor at the entrance to the building with a general salute. Mrs. McInnes, who accompanied His Honor seemed particularly ied His Honos, seemed particularly gratified at the warmth of the reception. The entrance to the building was tastefully decorated, the whole being set off with the Union Jack and the Stars and the same stage of prospecting. What is crossed large number of the city that crossed large number of the city crossed number of the city crossed large number of the city crossed large number of the city crossed large number of the city crossed number of the city crossed number of the city crossed number of the Stripes festooned. The notable persons present included the mayors of Victoria ried to success but for that aid. The Lieutenant-Governor, who was received with applause, said in the course of his remarks that he had to express the most profound, sympathy with the citizens, but his feeling was also one of pride but his feeling was also one of pride at the pluck and energy which in spite of sach a driwback had brought to an issue such a magnificent show as he had had the pleasure of inspecting, a show worthy of the province and of the people. He could not permit the opportunity passing without expressing his sease of gratitude to the people of the neighbourge republic; for their timely help to the city at the time of the fire. He enlarged apon the feeling of my bual esteem and respect which was mutual esteem and respect which was growing up between the two peoples and trusted that feeling would grow. The exhibition was then declared open.

> ber of industries. A roomy marquee is given over to field and garden produce. This arrangement is excellent, though it must be admitted that they do not appear to fill out in the new quarters as they did in the old. It must be remembered too that the displays made by the district societies all lessen the effect of the general show of vegetables. provinces. There are displays of squash, pumpkin and the like which have seldom been paralleled at a Royal City show and for general garden truck the display noticeable. For some unexplain reason there seems to have been a disinclination on the part of some previous exhibitors to compete this year, tering the large hall, the remaining vegetable display is found along the north wall. This is devoted exclusively to the district societies competition. is a matter for profound regret that there is not ten times the space given up to these, for they are the best object les sons ever put before the public consist of seven marvellous collections fairly typical of the productiveness of the province, coming as they do from Okanagan, Kelowna, Langley. Glen-wood, Cowichan, Kamloops. Chilliwack and the Experimental Farm at Agassiz. For beauty of arrangement Okanagan must, we think, be accorded unstinted praise, but Chilliwack comes a close second if not a tie. The merit of the Kelowna exhibit is not displayed, the truly grantic vegetables being lost to view by defective arrangement. The Shippers' Union, of Kelowna, have on view a fine show of bacon, and homeview a fine show of bacon, and home grown tobacco in all its stages from the condition. ered at the exhibition promenading and listening to a concert given by the city Whatever fault may have beeen The fly in the day, all cause for disappointment on that score has disappeared. The is clear that there are many visitors in the city. The cars arriving steadily from Vancouver are well filled and Westminster. The great fire of a few

there is no question but that this the first day of the fair, has attracted fully as many persons as the management anest taken in the event it may be stated that there were no fewer than seventeen press representatives on the grounds at the time of the opening ceremonie With to-morrow begins public interest in the citizens' celebration as distinguished from the exhibition. The leading features of the day's events will consist of Scottish sports, arranged by a Splendid Pyrotechnic Display-The representative committee of Scotchmen who promise that there will not be ing and sundown. The prizes consist for the greater part of cure full moment between the hour of open for the greater part of cups, medals, and brooches donated. There is to be a tug-of-war contest, which is creating New Westminster. Oct. 5.—Never has a brighter day dawned on the Royal City than the present. From dawn to dark not a cloud obscured the sunlight, tions. The elaborate preparations which have been going on for at least a week past have prepared the public mind for an evening quite apart from the ordinary. Many fresh arrivals may in the meantime be anticipated, and with such weather as we have had to-day New Westminster may hope for an en-joyable time as well as a prosperous one as regards gate receipts. Enquiries as to arrivals in the city

lead to the opinion that there has dur-ing the past few days and particularly to-day, been a considerable addition to our population. The hotels report most encouragingly as to the present state of affairs, and one genial manager declared with beaming face that he had never hoped for any such luck so early in the week. There are, it is certain, many visitors at private houses, and in conversation with one of the billeting committee is was ascertained that enquiries for private apartments had been numer-

monopolized the green and made dailings, lively for spectators. One of the centres of attraction was the magnificent display of minerals of British Columbia in the mineral hall. The exhibition on the whole was twice as good and twice as large as other years. The horse races were run this morning and proved existing of the work on the merits of the citing, as they were on the merits of the participants. The Caledonian games also were a success. The spectacular panorama presenting the fall of Santiago s very meritorious and continues to be big drawing card.

A collection of some 800 specimens of native plants is exhibited by the department of agriculture, Victoria. The collection, of course, represents but a small proportion of the flora of the country, as it was found impossible to make a larger display owing to the limited time. The plan of mounting many of the spec mens of algae on glass has been adopted very successfully, as it is often found impossible on account of the mucilag nous nature of this class of plants, to remove nature of this class of plants, to remove them from the drying papers. These specimens have been mostly collected by Mr. Anderson, deputy minister of agriculture, and mounted by Mr. Oliver G. Harbell. Included in this exhibit are some speciments of water color paintings of native plants by Miss Emily H. Woods, of Victoria. They are exceptionally well executed and true to nature. Miss Woods is seeking to bring her work before the public and would be glad to undertake commissions for paint-
