There's a new Chinaman in town, a mere boy about 12 years of age, Ham Hi by name. He arrived only a short time ago, and was in attendance at the Chinese school in Brunswick St. Baptist Church yesterday. He cannot talk a word of English, but the Baptist teachers usually have their pupils in fairly good talking trim in six weeks. The new Centennial school pupil, Hum Oak, was taught the English language in this Sunday school.

Miss B. Rogerson, teacher in the St. John Business school, left on Saturday evening for Winnipeg, where she will make her future home. Previous to her departure a business incident took place in the college rooms. The address was read by Miss Stale Cunningham and Miss Rogerson briefly replied.

GOT MIXED ABOUT

A TUB OF BUTTER

A member of the firm of Lawson Brothers was in the police court this morning and complained of J. Pitt, a commission merchant, having obtained money under false pretenses. He stated that he tested a pound of butter in the market which was good and as a result purchased fifty pounds. As fast as he sold the butter the customer returned it as it was very strong and not the same as the sample pound. He had paid 24 cents a pound for the butter.

On being cross examined Mr. Lawson became mixed and said all the butter was the same. He was a poor witness and was sent from the court with instructions that he had better make a civil suit of the matter.

NO MORE BREAKS.

The leaks in No. 3 high service main have been repaired and this morning the high pressure was again put on. No breaks had occurred up to two o'clock and it is quite probable that no more trouble will be experienced with this main. The test of a pound of butter in the market which was good and as a result purchased fifty pounds. As fast as he sold the butter the customer returned it as it was very strong and not the same as the sample pound. He had paid 24 cents a pound for the butter.

MONTPELLIER, France, Oct. 15.—The local working bakers today declared a general strike because of the refusal of the proprietors of the bakeries to accord a weekly day of rest, as provided for by the law. The city authorities have appealed to the government officials for the assistance of military bakers in order to prevent a bread famine.

HE TAKLED A MOOSE WITH A PITCHFORK

And Only for the Interference of a Barbed Wire Fence, Mr. Brinley Might Have Had Success.

Whether St. Patrick, in his house-cleaning campaign in Ireland, included moose along with the snakes and toads is not on record, but at any rate R. J. Brinley, a native of the old sod, never had the misfortune to become acquainted with a moose until he struck this country. His recent experiences have been rare and interesting.

On Saturday night last, Mr. Brinley, who is employed with John Hannah, a milk dealer on the Boar's Head road, drove home from town and going into the barnyard found there an animal which was neither horse nor cow. It was something Mr. Brinley had not seen before, but having noticed pictures of moose, and seen heads stuck up in the shop windows, he concluded that the animal which he saw was a moose.

Mr. Brinley advanced in open order. The moose lowered its antlers and prepared to withstand the steel. Mr. Brinley lunged. The moose shook its head. Again the pitchfork was advanced, and this time the moose, becoming excited, executed a flank movement with the intention of taking Mr. Brinley by surprise. The latter used the pitchfork, the moose used his horns, and the barnyard was the scene of a more lively conflict than occurred on the Mahogany Road when Waltham's game rooster tackled the partridge.

During the melee a barbed wire fence which had been standing at the side of the yard came over to get a closer look at Mr. Brinley, walking backwards, sat down on it. The moose also swung around and the fence fence became so disengaged that it fell on the ground, carrying both parties with it. When Mr. Brinley recovered his equilibrium and pitchfork, the moose was seen bobbing around in a field, several hundred yards distant.

ST. JOHN MAN WAS ON BOARD THE YACHT FROLIC

Charles Cousins Now Under Arrest in Boston Worked Here With S. T. Golding?

Charles Cousins, one of the sailors arrested from the yacht Frolic, which drew attention to the city of St. John, Mass., is well known in St. John. He was employed at S. T. Golding's livery stables some months ago, and left for the States early last spring. While in the employ of Mr. Golding, Cousins showed himself to be a good workman, but a very wayward and saucy employe. When he left for the States he took a horse to one of the border towns for Mr. Golding, and when the animal was delivered to its new owner, a valuable blanket was missing. Cousins had said when he left that he would probably return in a few days, but Mr. Golding has not seen him since. The price of his fare to Maine was given him by Mr. Golding.

Cousins was not a heavy drinker, and was only seen intoxicated once. He is now behind the bars in Boston, with a serious charge against him.

CITY WILL APPEAL IN THE COLLINS ACTION

Recorder Skinner Put the Case Before the Ferry Committee This Morning.

The ferry committee met at City Hall this morning. Recorder Skinner had called the meeting in order that he might place some legal matters before the committee. The case of James Collins, who recently brought an action against the city, was dwelt upon for a time. The recorder stated some of the facts of the case. Collins claims that his wife met her death from injuries received on the ferry boats last February. Mrs. Collins fell between the wharf and ferry and was badly injured. She died some days later. In the circuit court the decision reached was that the city must pay to James Collins \$1,000. At this morning's meeting nothing definite was decided on, but it is quite certain that the city will protest the court's decision.

Those present at this morning's meeting were: Am. Lockhart, Willet, Pickett, Baxter, Tilley and Bullock.

NO. 2 CRIB SITE IS ALMOST FINISHED

The dredge Beaver will probably be finished at No. 2 crib site tomorrow. The boulders which now remain are small ones, and will be removed this afternoon.

Contractor Clark will sink No. 2 crib as soon as the dredge has finished work.

Mr. Mayes is of the opinion that the boulders should start work at No. 3 crib site, immediately after the work at No. 2 has been completed.
