CABINET CHANGES.

Probably the most important news from Ottawa will fall of extensive changes in the cabinet. Already many are forecasted in dispatches to the government organs which indicate that Sir Richard Cartwright and Hon. R. W. Scott are to be retired under the new pension system—which, with their senatorial indemnity will give them \$5,000 a year—and are to be succeeded probably by Mr. Lemieux, now solicitor general, who is to be secretary of state, while Archie Campbell, of Centre York, is slated for the portfolio of trade and commerce. For the vacant solicitor generalship report says Hugh Guthrie and Leighton McCarthy are the favored candidates with several dark horses in the running. For some time it has been understood that Hon. Mr. Fitzpatrick had ambitions toward the bench and since the two thousand dollar increase in the salary of high court judges has been ordered it is considered certain that he will soon retire from the cabinet to accept the chief justiceship of Quebec. If he does he will undoubtedly be succeeded by A. B. Aylesworth, K. C., should that unfortunate gentleman succeed in finding a constituency to elect him. This would leave, of the original 1894 cabinet, only Laurier, Mulock, Fielding, Patterson, Borden and Fisher.

JAPAN AND THE KOREANS.

Recent dispatches have told of a movement among upper class Koreans for an independent national existence. Only last week a prominent Korean waited upon the American government to secure its favor for the movement, to induce it to use its influence with the Japanese government in support of a plan by which the hermit nation should in the course of a few years be given its independence if during the interim it proves its fitness for the privilege.

Though of course the naive request will produce no such results as were intended it will serve to awaken interest in this peculiar people, who through long grinding between China and Japan have had most of the individuality and enterprise rubbed out of them. For centuries, though Korea has been nominally independent, it has been under the domination of one or the other of its stronger neighbors who have directed all affairs of importance until the government, the emperor included, have degenerated into an intriguing band of grafters who have mercilessly oppressed their subjects and transformed a once vigorous and sturdy people into a shiftless, fickle, appearanceless lot.

But those who have traveled in and studied the country believe that the germs of a decent nationality still exist and that under sound rulership the Koreans can again be made reliable and industrious. Under the circumstances a direct annexation of the country by Japan would undoubtedly be the best thing that would happen to it. Good government by foreigners is better than oppression at the hands of compatriots, for the common people at least, and it is doubtful if after experience of Japanese rule these would favor a return to a condition of nominal independence, for so long as greater nations are contending for Eastern supremacy actual existence as a separate nation would be impossible.

The people over in Lancaster are giving some valuable tips to the St. John common council in the way of getting fair treatment from the Street Railway Company. The prospects are that the action taken by the highway board Saturday night will result in the immediate extension of the line to Fairville, which, if the Lancaster councilors had been as indifferent to the interests of their constituents as the city aldermen are, would probably have been as long delayed as the Carleton loop. The conduct of the civic legislators in this and other matters connected with the street railway is inexcusable.

It certainly is a funny situation, as the Montreal Gazette remarks, to have one set of men paid by the country to manage its business and another man receiving pay from the same source to find fault with that management.

The street railway apparently resembles that prickly weed we used to read about which, touched tender handed, "only stings you for your pains" but "grasp it like a man of mettle, and it soft as silk remains."

Possibly the difference between the attitude of the Lancaster councilors and the city aldermen toward the street railway may be partially accounted for by the fact that the former do not receive favors from the company in the shape of free transportation.

The retirement of Sir Mackenzie Bowell from the Opposition leadership in the senate relieves a situation, strained and peculiar, which ought not to have existed so long. The ex-

minister is apparently determined to cling to the opinion that he was traitorously treated by Mr. Foster and the other bolters of 96 and persists in attempting to revenge himself upon them, regardless of party interests. A party leader cannot afford such a selfish luxury as personal spite, especially when its objects are of his own following and before this Sir Mackenzie should have chosen definitely between his revenge and the duty a leader owes to his party.

THE COST OF IT.

On the day that announcement was made of the increased indemnities, salaries and allowances, the Sun estimated the cost of the legislation at \$700,000. Now that further details have been received it would appear that the immediate increase will be somewhat less. So far as we can make out the extra payments as applied to the existing state of affairs will be as follows: One premier \$4,000 One opposition leader 7,500 Twelve ex-ministers 42,000 Eighty-one senators \$1,000 Two hundred and fourteen members \$14,000 Seven judges at Ottawa 14,000 Twenty-three Ontario judges 46,000 Twenty-two Quebec judges 84,000 Seven N. S. judges 14,000 Six N. B. judges 12,000 Three P. E. I. judges 6,000 Four Manitoba judges 8,000 Five B. C. judges 10,000 Six N. W. T. judges 12,000 Sixty-eight Ontario C. C. judges 40,800 Seven N. S. C. C. judges 4,800 Six N. B. C. C. judges 3,400

Total \$602,000 Three P. E. I. C. C. judges 1,700 Six N. S. C. C. judges 3,600 Seven B. C. C. C. judges 4,200

SWEET, MYSTERIOUS PLACES.

(Clinton Dangerfield, in Youth's Companion.) I want to go back to the sweet, mysterious places, The crook in the creeked nobody knew but me, Where the roots in the bank thrust out strange, knotty faces, Searching the squirrels who stole there timidly.

I want to lie under the corn and hear it rustle, Cool and green in a long, straight, soldierly row. I am tired of white-faced women and men of iron.

I want to go back where the country grasses grow, To the well-remembered pasture's shaded corner, Where under the trees the wild ferns wave their lace;

Hearing the whippoorwill's voice in its strange, rich sadness, I want to go back to the old, beloved places.

WHEN IT WAS REALLY HOT.

(Boston Globe.) It is recorded that in 1303 and 1304 the Rhine, Loire and Seine rivers ran dry. The heat in several French provinces during the summer of 1705 was equal to that of a gas furnace. Meat could be cooked by merely exposing it to the sun. Not a soul dare venture out between noon and 4 p. m. In 1718 the thermometer rose to 118 degrees. In 1778 the heat of Bologna was so great that many people were stifled. There was not sufficient air for the breath and people had to take refuge under the ground. In 1788 the heat again became intolerable. Vegetables were burned and fruit dried on the trees. The furniture and woodwork in dwelling houses cracked and split up, and meat went bad in an hour.

The hottest places in the world today are Bengal and the African desert, with 150 degrees Fahrenheit; Senegal and Camaloupe, 130 degrees; Fowla, 125 degrees; Calcutta and Central America, 120 degrees; Afghanistan and the Arabian desert, 110 degrees; Cape of Good Hope and Utah, 105 degrees.

SADA YACCO'S FRANKNESS.

(From the London Chronicle.) Sada Yacco, the charming little Japanese actress, is a great favorite in Paris. She is, moreover, exceedingly frank, appealingly so—as may appear from the following incident: Mistress Sada was invited to take part in a private performance given by President Louvet. She was delighted, and so were the host and his guests, the Louvet pleasure promptly taking the form of a magnificent seven vase, which was presented to the fascinating Oriental by the august donor himself.

A smile was his reward—that beaming, childlike smile which only a prettily Japanese girl can properly achieve. Sada Yacco recognized the gentleman's good intentions, and gave him full credit for them, but she is as practical as she is grateful, and this is what she said: "Very sorry. Very sorry. Not take vase to Japan. Too far. Get broken. Take money. Very sorry."

While the onlookers gasped, she became to the president all over again, sweetly, serenely unconscious she had done anything out of the ordinary. And she got the money.

LOCAL NEWS.

An enjoyable social evening was spent by the members of the congregation of Fairville Methodist church. The occasion was the annual strawberry social and Rev. Mr. Deinstadt, the new pastor, was present and the following programme was carried out: Duet, Messrs. Stout and Salmon; reading, Miss Lyman; reading, Miss Rubie Elderkin; solo, J. Stout; reading, John Salmon; recitation, Miss Elderkin; Scotch solo, J. Stout; Auld Lang Syne. The tennis tea which was postponed yesterday afternoon on account of the rain, will be given this afternoon at five o'clock. Mrs. Percy Thomson, Miss Avis Armstrong and Miss Mary Trueman will be in charge.

The annual meeting of the St. Andrew Land Company was held at St. Andrew's yesterday. A report was presented, and William Downie was re-elected president and H. H. McLean secretary-treasurer. Geo. Robertson said last night that he had received no notice of his appointment as registrar, and had also received no information on the subject. A. Gordon Leavitt has within a few days become the possessor of a fine specimen of the tree frog. This creature came from the south in a bunch of bananas and was found by Lebaron Clarke of King street, Carleton. The peculiar features of the frog are a sort of cushions on the feet, which cushions enable the frog to take a very tight grip on anything. The frog is probably the only one of its kind in the city. This animal does not take to water as do other frogs, but spends most of its time on trees.

Robert Belling, now fog alarm keeper at Leveaux, has been appointed light keeper at that place, to fill the vacancy caused by the resignation of W. H. Thomas. Frank Frawley, now fog alarm keeper at Tiner's Point, Placino, will be transferred to Point Leveaux for alarm. These appointments were made June 29th, but as the work now under construction at the point will not be finished until early in August, Mr. Thomas will continue in charge until the work is completed.

Whilst hanging out a quilt to dry on Tuesday evening Mrs. Samson, Evans of Lancaster street, West End, met with a nasty accident. Mrs. Evans took hold of a line which ran through a pulley attached by a hook to a fastening across the yard, when the hook gave way and she fell off the platform into the yard. Her right wrist was broken in two places and her left arm bruised, as was also her face and forehead. Dr. Wheeler attended to the injured lady who is over sixty years of age.

Two girls who were tasting of the pleasure of the roundabout at Seaside Park last evening tried to change from one horse to another, while the roundabout was in motion, with the result that a Miss Doucette fell and was dragged around a considerable distance, being held by her foot in the stirrup. Dr. Macfarlane, of Fairville, was quickly in attendance and found the girl badly bruised.

YOU NEED THE OTHER.

Ozone is a germ killer and a valuable remedy, but to get the best results from it you must have a tonic laxative to take with it. "Solution of Ozone (the coupon kind)" is the purest and best form in which Ozone is sold. Every bottle of this remedy contains a coupon which entitles you to a package of "Celery King," the well known remedy, free. In buying this solution you get about twice as much Ozone for your money as by buying other brands, in addition to getting a package of "Celery King" for nothing. You thus save money in two ways, besides getting Ozone in its purest and most concentrated form. Ask your druggist for "Solution of Ozone (the coupon kind)," and if he does not keep it you can get it from the Public Drug Company, Bridgewater, Ont., by writing for it.

COSTLY HATS FOR MEN.

"Talking about expensive hats," said a prominent hat dealer, "the most costly hat that was ever made was presented to Gen. Grant while in Mexico in 1852. It cost \$1,500 in gold. It is now in the National Museum at Washington. Panama hats used to be frequently sold as high as \$500 each. I remember a single day in 1873, that price in a single hat was obtained. The most expensive Panama I have sold in this year was bought by a banker of this city last week for \$100. It was the last fine Panama hat in stock. Such hats are still worn by the high dignitaries in South America. They are not made in Panama, but got the name because that city was formerly the greatest market for them. The finest hats come from Peru. They are made of the fibre of the pits or pineapple plant, which is as soft and pliable as silk, and some of them are made so fine that they can be folded up and carried in one's vest pocket."
