## VIOLENCE NOT HELPING "VOTES FOR WOMEN" CAUSE

Woman's Fitness for Real Usefulness in Government will not be Speedily Recognized by Using Methods of the Anarchist or Bandit, Says Rev. Dr. Morison — True Womanhood.

"Modern Woman and What is Required of Her," was the subject of Rev. Dr. J. A. Morison's address in the First Presbyterian church of Carleton last evening, when he delivered a strong and interesting sermon, replete with examples of the meaning of true womanhood. Rev. Dr. Morison took his text from Proverbs 14 and 1. He said in part:

The names of five women, all British subjects, have been flashed around the world this week. One is dead—one is in prison and three have added their names to the long list of noble martyrs.

As the field of 15 horses thundered round the turn at the Epsom Derby, Emily Davison rushed out on the race track and flung herself at the head of the horse entered by the King. Horse, jockey and woman all went down together and the woman was so badly injured that she died a few days later. Her death marked the first sacrifice of life in the suffrage cause.

Mrs. Emmeline Pankhurst, the second whose name we have in mind, and the recognized leader of the physical force suffragists in England, has spoken with approbation of this rash act and apparently is of the opinion that this death will do much to advance the cause of "Votes for women."

Whatever may be the result of the suffragette movement, people for the most part will unite in censuring the practice by their representatives of such insane and futile methods as have been adopted by the more violent members of their ranks.

The condemnation to penal servitude of some six of the leading suffragettes on the 17th inst., in London, on the charge of conspiracy to commit malicious damage to property, indicates that the British authorities will not permit themselves to be terrorized into radical and uncertain changes in the matter of serious public importance by the criminal conduct of these ill-advised and misguided people.

Woman's capacity in the domain of art, literature and science is not questioned by any, but up to the present her duties in the sphere of civil government have not been made clear, nor will her fitness for such public service in government be speedily recognized through the adoption by her of the methods of the anarchist or the bandit.

Coincidentally with these reports from London comes a story of the dedication of three Montreal ladies to a life of voluntary martyrdom in the cause of suffering humanity that has caught the imagination of all people and supplied a quiet but none the less effective rebuke to the materialism of the modern age.

## FOREMAN INJURED ON WEST END WORK

A number of workmen tried to save him, but the water and it was found that his leg had been badly bruised.

Dr. Neve was summoned to attend the injured man. The right leg was bruised about the knee and some of the ligaments torn away. He was removed to the quarters of the construction company where his wounds were dressed.

### \$2,500 A YEAR FOR POLICEMEN.

Socialist Orator Thinks Guardian of Peace Should Get That Much.

At the meeting of the Socialists last evening Comrade Hanson spoke on the powers of the capitalist state, saying that as the clergyman and other moral policemen of the capitalists were losing their power over the minds and feelings of the working class, the capitalists, if they were wise, would pay the policemen who represent the direct force of the ruling class a great deal more wages than they are doing now.

He thought a policeman should have at least \$2,500 a year, so he would not remember he was a member of the working class, or have any sympathies with the working class. In other cities than St. John they were having trouble getting policemen, because the capitalists were cutting out the policeman's graft, and the men were getting too much sense to risk their lives in the interests of other people for \$2.00 or \$3.00 a day.
