Strong Sentiment for the Reciprocity Agreement

Greatest Enthusiasm Ever Known There at Political Meetings, and Victory for Mr. Lowell is Assured— Rev. Mr. McCaskill and A.

An interesting sidelight upon the reciprocity comes into force. When Hon, Dr. Pugsley rose he was greeted with hearty cheers. He dealt with the arguments put forth by the Conservatives against reciprocity and proved to the satisfaction of every one present that the proposed trade agreement would be a great benefit to Canada. He spoke of the improvements at St. John and set forth the policy of the Liberals in regard to branch line railways. The meetings broke up with cheers for the king, the Liberal candidates and reciprocity. After the spirit shown at these intestings it 's certain that James Lowell will be the representative of St. John icenty after this election. LEGER WILL HAVE A BIG WAJURITY IF RECIPROCITY. WINS We restricted the benefits of saturday, Sept. 2. An interesting sidelight upon the reciprocity question was given yesterday, not by a politician or an armchair "economist," but by a live wideawake Canadian He was a Conservative in all previous federal contests but this time he says he is going to vote for the trade agreement whether he ever votes the Liberal ticket again or not. The business visitor represents a merger of flour mills and his argument from the standpoint of his own particular line of trade is a bit unique and goes to show how many phases there are to the benefits of the proposed pact if one had the time to hear them all or look for them. "There seems to be an impression in the minds of some Canadian folk," the traveier said, "that our Canadian mills and Canadian labor generally are inferior to the American. This certainly amuses me greatly. Some go so far as to say that we will be swamped with American mills and millers when the reciprocity agreement is completed, leaving no loophole of escape for the ignorant native and his mills." "The sooner that fool notion is knocked."

Richibucto, N. B., Sept. 2—One of the largest political meetings ever held in St. Charles was addressed last evening by Mr. Turcotte, ex.M. P., of Quebec, in the interest of Mr. Leger, the Liberal candidate for Kent. Mr. Turcotte, who is an elequent speaker, occupied over two hours in discussing reciprocity.

St. Charles, formerly a Conservative parish, is expected this time to roll up a large majority for the Liberal candidate. Mr. Leger will be elected by a large majority.

"The sooner that fool notion is knocked out of the leads of blue-ruin preachers and pessimists generally the sooner the agreement will be seen in its true light. Our Canadian mills and Canadian labor are equal to anything of the kind in the wide world. The flour manufacturers do not fear reciprocity, they welcome it with open arms. I'll tell you why. In the first place we will not suffer, if it becomes a fact, from competition in wheat. On the other hand it will give us a great boost. There are many times in the course of a year when Canadian mills have to refuse European orders because of shortage of grain. There are instances quite frequent-law, who is an elequent speaker, occupied over two hours in discussing reciprocity.

James Lowell received a tremendous ovation. He dealt very fully with the arguments of the Conservatives against reciprocity is being favorably received even in districts where the Tory machine has the most influence.

the North End, Aug. 31.)

Another feature worth noting was that the St. John river was a trading river, and so far as the lumber business was concerned should be kept open to both countries. "One hundred million feet of logs come down the St. John river annually by way of Grand Falls. Up to eight or nine years ago these came to St. John for manufacture. About nine years ago a company was formed which erected mills at Van Buren, Maine. This company was manufacturing annually 40,000,000 feet of logs which should have come to St. John.

It was felt that the company were not within their rights and a commis-

sion was appointed to deal with the matter. Investigations were held and sion was appointed to deal with the matter. Investigations were held and I for one did everything that I could in the way of giving evidence and the like to stop the manufacture of that lumber at Van Buren, because not only were they manufacturing the 45,000,000 feet of logs that should be coming to St. John but, in addition, they were halding up all the logs and delaying their delivery at this city. The difficul-ty met with in this latter way was one of the chief reasons for the lumone of the chief reasons for the lumber business in this city diminishing in the way in which it has. The company at Van Buren were antagonistic, and apparently did everything possible to injure the local lumber industry. When St. John took up the fight against them which was a fight in the interests of the lumber business of the city, the company went about looking for a lawyer to protect their succial for a lawyer to protect their ap interests and who do you think were successful in getting? A voice—"Mr. Powell."

Worked Against New Brunswick's Interest

"Yes, Mr. Powell. He was the man who offered to assist them in their work. In pursuance of this end he made trips to Washington and also coursed about the river in birch bark conces. Fighting against the interests of the local lumber men, he now has the audacity to come before them and solicit their votes. Why when I went up to Van Buren to give evidence in which I hoped to safeguard the interests of St. John, Mr. Powell sat back and did everything he possibly could to defeat anything that I could say that might be in our interests. (Great applause.) A citizen of St. John who would work in the endeavor to take everything away from us that belongs to us, in he loyal?"

Cries—No, no,

"At the time he consented to act as counsel I considered it was disloyal on his part, but now that he comes before you as a candidate I do not think that he can be trusted." (No, no.) "Yes, Mr. Powell. He was the

THINK IT OVER

Conservatives are fond of trying to scare Canadians by quoting from American politicians and American newspapers. Very good; let them publish the following, from the Pittsburg Gazette-

"In course of the debate on Canadian reciprocity on Tuesday, Senator Gallinger of New Hampshire, declared that annexation of the Dominion at this time was an 'iridescent dream.' He explained that 'Canada has grown to be a big, strong, self-asserting nation' and he prophesied that 'by this treaty we will further strengthen it.' That such will be the effect of the trade agreement now pending, once it becomes operative, is not to be doubted. To open a free market of 92,000,000 of consumers for the products of 8,000,000 people across the boundary is certain to work more largely to the direct benefit of the smaller country. The purchasing and consuming capacity of Canada necessarily will be limited, whereas, at the immediate expense of the American farmer, it is proposed that the United States shall provide our neighbors with convenient territory and unlimited outlet for all their surplus food supplies. Thus in the border cities alone there will be more than half as many customers as the Dominion's entire population who will have Canadian truck gardens and farms to draw from. Lower cost of production and lower farm values will mean lower first charge for commodities, and the effect will be to depress American prices and depreciate the property of the farmer in our own country.

"This is carrying international altruism a little too far and paying too dearly for it. THE RESULT MUST BE TO STRENGTHEN CANADA IMMEASURABLY, TO CONTRIBUTE ENORMOUSLY TO DEVELOPMENT OF HER NATURAL RESOURCES AND TO INDUCE THAT BETTER CLASS OF IMMIGRATION FOR WHICH HER AUTHORITIES HAVE STRIVEN SO LONG."

SIR CHARLES TUPPER ON MR. CLIFFORD SIFTON

The Montreal Star of Friday, May 18, 1900, contained in its report of the debate in the House of Commons on the day previous, a speech by Sir Charles Tupper, in the course of which he delivered what the Star described as "a scathing denunciation"

We quote here from The Montreal Star's report on that

"Sir Charles referred to how the House was startled by the gigantic scheme of giving a kingdom for a tramway to the Yukon. Most of the machines in wheels were mustered into line to vote for the deal. Where was the Minister of the Interior now? He would seek from the Pacific to the Atlantic for a constituency that would disgrace itself by returning him. Who was he? He came here with a brand of bankruptcy on him, and yet he lived in a style that no Prime Minister could afford."

Ories of "shame."

"Sir Charles believed that he was a fugitive from the justice of this Parliament. His object in visiting the other side of the water was to avoid an investigation before the Public Accounts Committee, the results of his mal-administration. In conclusion he thanked the Premier, amid frequent interruptions, for his promise to refer the question to a judicial tribunal."

EX-GOVERNOR McCLELAN SPEAKS

Hon A. R. McClelan, ex-lieutenant-governor of the province, speaking at Hillsboro yesterday made a strong and dignified speech in favor of reciprocity. He recalled the negotiations for the reciprocity treaty of 1854 at which time he had voted for the measure in the provincial legislature, and he reviewed the efforts made by the provinces to prevent its abrogation by the United States. On these efforts failing, the lieutenant-governor of the province had expressed great regret, as the province had shown great growth and prosperity in the eleven years in which it was in force.

The same conditions existed today, he said. He did not know of a single industry which would not benefit from the agreement

The arguments used have all been most conclusively answered by Liberal speakers and it was painful for well informed persons in the audience to listen to the nonsense. Abuse of the Hon. William Pugsley, minister of public works, filled in the rest of the time. There were enough dyed-in-the-wool Conservatives present to manufacture plenty of enthusiasm, although a large number who were siasm, although a large number who were at the meeting were also at the Liberal meeting on the west side Thursday night judges placed Jack Leonard to d and were plainly disgusted with the wild Aiquire in the third heat, but he did not statements of the speakers last night. Recorder Bax-Nick R., ch. g., by Czar, F. The speakers contended that reciprocity will result in the shipment of raw pulp-wood to the United States and it's manufacture there. Mr. Tilley, evidently ignorant that pulpwood has been shipped free into the United States, said that a pulp mill was working at St. George and if reciprocity allowed the wood to be taken free into the United States, the American owners would remove their lan. American owners would remove their plant to the other side.

Mr. Powell made much of the provincial restriction on the export of the rossed

cial restriction on the export of the rossed wood but neglected to tell the people that it applied only to crown lands.

Mr. Tilley took exception to the statement which appeared in the Globe and The Telegraph that no one was on hand to receive Mr. Sifton when he came to the city on Tuesday. He took the trouble of wiring Mr. Sifton to question that gentleman and read the reply received that Mr. Tilley himself had received him at the station. This seemed to satisfy the speaker.
