# The Dingwall Jewellery Catalogue

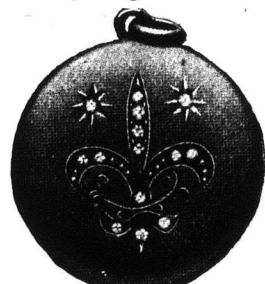

Makes the Choosing of Christmas Gifts an Easy and a Pleasant Task

You can order from this page as you would from a page in Our Catalogue

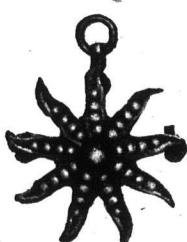

One month from to-day and Christmas Eve will find you giving the last little touches to your preparation for the joyous holiday to follow. But, in the meantime, gifts have to be chosen, and the pleasantest and most satisfactory way for you to do at least part of your gift-buying will be through the use of the finely illustrated Dingwall Jewellery and Silverware Catalogue. It shows gifts for every member of the family, grandfather, grandmother, father, mother, sister, brother, big and little, old and young.

Each article of usefulness and lasting value—at prices varying from 25 cents to \$500.00. A diamond ring, a piece of gold jewellery, a watch, a clock, a bit of sterling silver, silver plate, cut glass, brass or leather goods—all are shown in our book in great variety. You can have a copy post paid and free of charge if you will send us your name and address.

## The Sparkle of Cut Glass and the Soft Glow of Candlelight

Give to a Dining Table an Added Touch of Brightness and Comfort that is Most Enjoyable.

One, two or three pairs of the candlesticks illustrated will lend this extra charm to your dining table or to that of your friends. Plain black-and-white illustrations cannot do them justice, but even as pictured above, you can easily see the fine proportions of the candlesticks themselves, and the graceful floral twining of the design cut and engraved on the four sides and base. They stand 7 1/2 inches high without the holders and are made of clear, hard glass, cut in the new dull-finished, engraved style, and may be purchased with or without the candle holders and shades.
