

About Heating Water

This cut illustrates a Jewel Range connected with Galvanized Water Boiler. The range is fitted with Waterfront which is tapped for one-inch pipe and connections to boiler should be the same size. In making connections sharp angles should be avoided as much as possible. Do not in any case make a fire in range before the boiler is filled with water.

CHOCOLATE CAKE

One cupful of sugar ; one-half cupful of butter ; one-half cupful of sour milk ; two eggs ; two cupful of flour ; one small teaspoonful of soda. Grate one-half cake of chocolate, mix with one-half cupful of sweet milk and the yolk of one egg, sweeten to taste, add one teaspoonful of vanilla and cook until stiff. Cool, and add to cake mixture. Bake in a moderate oven, and frost with confectioner's sugar. This makes a nice layer cake, using frosting for filling. Sweet milk and baking powder may be used instead of sour milk and soda.

WHITE MOUNTAIN CAKE

Two cupfuls of butter ; four cupful of sugar ; four cupful of flour ; one cupful of milk ; five eggs. Bake in jelly pans and put icing between each layer. Three eggs will make icing enough for the quantity, two heaping teaspoonful of baking powder. Flavor with bitter almonds.
