

have died after having been subjected to COURSES of Mercury; and we assert that the mischief of this agent, so popular with many physicians, is beyond all calculation. THOUSANDS have had their systems ruined by its use, and now that it is beginning to be found out, what we have ever asserted, that mercury will not cure a system affected with Syphilis or *private* disease, the thought becomes appalling. We say to you, whose systems have become broken-down by either Scrofula or Syphilis, never allow yourself to take Mercury or Calomel. To the poison that is lurking in your system it adds another as bad, if not worse, than that it attempts to cure. Witness the broken-down miner for quicksilver: Sores, Rheumatic pains, Brain and Liver troubles beset him the balance of the poor life he drags out. Would you inoculate him with Syphilis to cure his mercurial disease? The doctrine that you must give one poison to eradicate the other is fallacious, and, if space allowed, we could show you proofs upon proofs to establish the correctness of our views.

SEE "FALSE AND TRUE."

You must resist the ravages of the disease—the dissolution of the tissues—the decay of the system, by such medicines as RADWAY'S SARSAPARILLIAN. You can do this only by enriching the blood, building up the system, SUPPORTING it whilst the healing powers of nature are doing the good work. There is no Corrosive Sublimate or Mercurials in this great remedy of Nature.

Radway's Sarsaparillian is a *Tonic* and an *Alterative*.

MERCURIAL AND SYPHILITIC SORES

must be treated by Radway Pills and Resolvent. Warm baths and washes, with chloride of lime water, where they are very obstinate. See "False and True." In cases of constitutions broken down, with specific (Syphilitic) taint and systems poisoned with Mercury, Arsenic, and other poisonous remedies, the reader is referred to "False and True," where ampler directions and more specific treatment is laid down, and the subject more fully discussed than we can find space in the Almanac.

LOOK FOR CURES OF SYPHILOID TONGUE

for Syphilitic Ulcers cured. See cases of Mr. G. and a gentleman in the oil trade in New York. The reader will find, by reference to this publication, much that is interesting, instructive, and useful.

A PERSON SUFFERING WITH AN UNCURED SYPHILOID DISEASE RESTORED TO SOUND HEALTH.

Dr. RADWAY: I wish to acknowledge a debt of gratitude to you, as well as to save my fellow-creatures from the sufferings and torments inflicted from illicit and unfortunate associations. Some years since, after contracting a primary disease, fearing, through shame, to apply to a respectable physician, I was induced to seek the aid of an ignorant "Private-Cure Doctor." In a few weeks after this wretched treatment, that horrid disease, Syphilis, broke out, and sores appeared in my throat; for this I took Mercury, Potassium, Sarsaparilla, with gargles. For a time I thought myself cured; but my gums became sore, my teeth loose, pains in my bones, etc., and in a few months hard lumps would appear in my throat, around my neck, and other parts of my body. Sometimes these would gather and break, leaving discharging sores and ulcers; those things began to spread, and then my nose, roof of my mouth, eyes, tongue, would be attacked. For over three years I suffered all the torments of the wretched. I went to Paris, placed myself under the best doctors there; took vapor-baths of Mercury, Sulphur, Iod. of Potassium, Arsenic, and other popular treatments. For a while I thought myself cured; but in a few months old sores and ulcers would break out again, and new parts of my body would be covered with them. I visited the celebrated Springs of Bath, also the German Springs at Baden-Baden, and returned to this country still UNCURED.

Convulsions arising from a wound are dangerous.

Women whose blood is not evacuated by their menstrual flux, often vomit it up.

Excessive sleep or wakefulness is alike injurious.
