

## MEDICINAL COMPATIBILITY.

The adoption of this principle is peculiar to the R. R. R. system of medicine.

In strict accordance with this great principle, we unite ingredients so as to secure perfect harmony of chemical composition and medicinal action, that they may contribute an assisting power to the curative properties of each other, thereby acquiring cumulative virtues; whereas medicines compounded after the ordinary methods, containing **INCOMPATIBLES**, not only often destroy themselves chemically, but neutralize the specific virtues of each ingredient medicinally, because of their want of compatibility.

Our success in reducing this principle to practice is most beautifully illustrated in that wonderful remedy, **RADWAY'S READY RELIEF**. Who has ever heard of this medicine **SPOILING**? None! As a chemical composition it is *perfect*.

In its action on the system each of its ingredients possesses single and special curative properties; none of them conflict; each aids the other, giving a combination of **HARMONIZED MEDICINAL POWER NEVER BEFORE ATTAINED**.

Witness the power of our Ready Relief in not only with electrical velocity stopping the most excruciating and agonizing pains, cramps, spasms, aches, and, in fact, the most distressing agony of **NEURALGIA**, and all other pains, but curing with singular rapidity the most malignant and frightful forms of Asiatic Cholera, Yellow Fever, Small-pox, Diphtheria, and such diseases that strike terror to people when it is known that a visitation of these scourges is threatened.

In all cases where an external embrocation or liniment is required, or where there is pain, inflammation, congestion—or where there is a disturbance inwardly, such as cramps, spasms, diarrhoea, sickness at stomach, headache, and other simple ailments, many people know from experience that the Ready Relief will remove all those difficulties in a few seconds; but in the more fatal diseases, such as Small-pox, Yellow Fever, Asiatic Cholera, Typhoid Fever, and the class of disease that terminate fatally in a few hours, they little know that in **RADWAY'S READY RELIEF** they have a life-preserver that will cure them, and protect them against attacks of those fatal diseases; and yet this is true, and it is the only remedial agent in existence that will absolutely **CURE** and **PREVENT** these diseases with safety.

The solution of this great medical problem is plain and simple, for in the **READY RELIEF** we have a **Counter-Irritant**, a **Disinfectant**, a **Diffusive Stimulant**, an **Antacid**, a **Diaphoretic**, an **Anti-Spasmodic**, a **Rubefacient**, an **Antiseptic**, a **Sudorific**, an **Anodyne**, a **Nervine**, and **Tonic**. These properties are so harmoniously combined and associated, that each performs, with singular and marvelous rapidity, its independent duty, and each, as a part, assists the other; and when the symptoms of the disease indicate their united influence, the Ready Relief instantly supplies this important requisite.

In Asiatic Cholera (and the same properties are called for in Yellow Fever and other malignant malarie) an **ANODYNE** is called for to as-

The greater the evil, the more vigorous the remedy.

Life is short, Art is long, Occasion brief, Judgment difficult.

Old men bear Abstinence best, Adolescence less, Infancy least.

In protracted illness, a severe regimen is dangerous.
