In place of a problem this week we give the position in the match game No（1）now in progress between the Buston Gluhe Club and the St．John Club，as it stands after White＇s 16th moves．White，Messrs．Knowles，Itender－ son and Aarraway．Black，Me－srs，（i．A．Hall and others

Black to make his 16th move
Bowtox，March，1xim．
Dyar Eirtor，－The Newton Chess Isoria－ tion having accepted the invitation alluted to in my last，sent in a delegation on the evening of the 6th inst．，to play a fiemdly matchat the filotn Club rooms，and an interesting game， which I herewith chelose，resulted．The greater experience of the elder club was much in their favor，but the Newton p＇ayers made q⿴囗十介 determined defence，and the meeting was a suc cessfuland enjoyable aftair．
Mesors．Bates，Hunt and Sargent were comn－ selfor defendants，and Messrs，Snow，Mc－Mul－ en and MeIntyre conducted the prosecution on the part of the Gilobe
Some off hand play was indulged in after the match was over and one of the games，an amtsing（for Ist player）skirmish between Mr Sargent and a Globite whose morlesty blushes to be recognized，was spedily derided

It this point Black concluded that the sub－ sequent proceedingscould not interest him much more and resigned in a badly demoralized condition．
Next en our programme is the return game with the Newtons，and a Chess literary enter－ tainment at the Globe rooms，whose original verse and prose chess matter will be in noler， Truly yours，

Max．
We withholl the solution of Prob，No．. ， until ne＞t week，as none of our solvers have yet succeeded in it．The answers we have re－ ceived vary from seven to thirty－six moves， Some of them have overlooked the fact the $\mathbf{K t}$ covers Kt 2 si ，and therefore the king cannot oceupy that square．

Persoxal－Mt．C．F．Stubbs，who is spend－ ing a few weeks in the states，has been try－ ing the skill of chessers in Providence，Boston， de．，and we believe is holding his own．

A Leantei MkDteai．Atthonty sars ：－＂Con－ sumption is exsentially a disease of degencrotion and clecay．So it may be inferred that the treat． ment for the most part should be of a sustaining and inrigurating character－nutritious tood，pure， diry air，with such varied and moderate exercise in it as the strength will bear，the enlivening in－ fluence of bright snushine and agreeable seenery and cheerful society and occupation，nided by a judicious use of ma dicinal tonics ame stimutents． are among the means best suited to restore the defective functions and structures of frames prone te decay．＂

Robinson＇s Phosphorized Emulsion of Cod Liver Oil with Lacto－Phosphate of Lime by its gently stimulating and untritice tonic properties is adapted in an eminent degree to this office of iestoring the＂defective functions and struc－ tures，＂as the numbers of cases in which it has beeu so succesvfully used，together with its short record of a few months that has placed it in ti e foremost ranks of proprietary remedies will fully testify．
