Maritime Markets

Halifax, N.S., Feb. 8, 1906.

Business is much brighter than at the early part of the year. Receipts of butter and egg are improving slightly, and the market is a little easier owing to the renewed spell of mild weather. Case eggs have dropped to 21 cents. The continued mild weather has brought along a few fresh eggs but jobbers are not carrying too large stocks as they will be absorbed if the weather becomes colder. Eggs are jobbing here from 21 to 24 cents.

The price of butter is still about the same. Prints are quoted at 25 to 26 cents, rolls 23 cents. Cheese has advanced a half cent since last reporting. It is now quoted at 13½c for large and 14c for twins and small.

In the matter of vegetables the demand is quiet and prices unchanged with the exception of potatoes which are now selling at 40c per bushel for P. E. Island growth.

Feeds remain steady and without change in price. The market is exceedingly quiet in the absence of any quantity of Ontario bran. Supplies of Manitoba bran are also light. Both Ontario and Manitoba middlings are offered at unchanged prices. The hay market is easier and offerings more liberal but prices do not show any quotable change. The oat market remains firm at 45 to 47 cents per bushel.

Fresh meats are showing a slightly higher tendency in some lines. Beef is firm. Lamb also is firmer. Prices are one-half cent in advance of quotations a fortnight ago. Fowls and chickens are quoted at 12 cents per lb. Turkeys from 18 to 19 cents.

The demand for apples is rather light, the high prices keeping the consumer from buying. Spys, Golden Russets and Baldwin are quoted at \$2.50 per barrel. Although these fruits are marked No. 1, the quality is far below the average.
