It is one of the grandest works of administrative statistics which have ever been issued by any nation, and should earn for its author and designer the gratitude of every one who has the welfare and good government of our Indian Empire at heart.—*The Times* (second notice.)

No nation has ever attempted so comprehensive, so detailed, and so stupendous a statistical enterprise, and the whole has been planned and executed with a smoothness and a certainty which are truly marvellous.—*The Athenæum*.

It sets forth the fruits of the author's personal and long-protracted researches, and forms a monument of Dr. Hunter's knowledge of the topography, agriculture, administration, and health aspects of the whole Empire of India.—*Kölnische Zeitung*.
