

Typewriting

The speedier a stenographer can typewrite a letter the more valuable she becomes to the busy business man.

Practice does a great deal, but correct fingering and the "Touch System," which we teach thoroughly, are of paramount importance.

When the "Touch System" is mastered the operator never looks at the keyboard, but keeps her eyes on her notes. She saves the time lost

by the "sight" operator in glancing from notes to keyboard and back to notes again—a considerable item in a day's work and a severe strain on the eyes as well.

Our large, free catalogue tells more about our stenographer's course and gives much valuable information about the diplomas of the Business Educators' Association.

The supply of our graduates is not equal to the demand.

QUESTIONS AND ANSWERS. Veterinary.

RHEUMATISM.

Cow is all stiffened up, her legs are quite stiff, sometimes she can hardly walk. There does not appear to be any soreness in feet or legs. She has failed in flesh and milk supply.

A. C.

Ans.—The symptoms indicate rheumatism. Purge her with 2 lbs. Epsom salts and 1 ounce ginger. Follow up with 2-dram doses of salicylic acid three times daily, and rub the joints well, three times daily, with camphorated liniment.

V.

ENLARGEMENT FROM WOUND.

Last-year colt got leg wounded just above the hoof. The wound has healed, but an enlargement of a hard, bony consistency remains. Colt is not lame.

R. J. M.

Ans.—If this enlargement is bony, it cannot be removed. If it be fibrous, the following will reduce it: Take 4 drams each of resublimed crystals of iodine and iodide of potassium and 4 ounces each of glycerine and alcohol. Mix. Apply a little, with smart friction, once daily. Keep up the treatment for two or three months, as these enlargements are very hard and tedious to reduce.

V.

ENLARGED TEAT.

Mare produced a filly on June 1st. One of her (the filly's) teats was much too large, and it has continued to enlarge as the foal has grown. It is not sore, and apparently does no harm.

K. C. McP.

Ans.—It is not probable this will prove serious. If the growth of the teat continues until it becomes unsightly, or in any way interferes with the foal's health, it will be necessary to get your veterinarian to dissect out all the diseased tissue. While the occurrence is very uncommon, it is possible this is a malignant mammary tumor; but I am of the opinion it is not, and will not prove serious. Applications will do no good. The condition is congenital, and if intervention becomes necessary, dissection is the only way to treat.

TRADE TOPICS.

KINGSTON DAIRY SCHOOL.—The 1907-8 calendar for the Eastern Dairy School, at Kingston, is out. It is well manned by a strong staff, under J. W. Mitchell, B. A. The introductory remarks are based on the principle that "the majority of us would do better if we knew better," and that is the business of this institution to know better about dairying. Write the superintendent for a copy of the calendar, and learn about their short and long courses.

THE O. A. C. CALENDAR.—Have you seen the 1907-8 calendar of the Ontario Agricultural College, Guelph, established in 1874, and getting better ever since? This calendar is not a picture gallery, but, what's better, it is a mine of valuable data about how to get practical education in agriculture, home economics, nature study and manual training, and how little it will cost you. Write President G. C. Creelman for a copy free.

GOSSIP.

His Royal Highness Prince Arthur of Connaught, K. G., has consented to accept the office of President of the Royal Counties Agricultural Society for 1908. His father, the Duke of Connaught, has already held the office of president on two separate occasions, and visited the show at Maidenhead during the present year.

By an error in August 29th issue, the imported Clydesdale stallion, President Roosevelt, the property of Messrs. Smith & Richardson, was credited with winning the £100 premium, so many years held by the great Baron's Pride. It should have read, Sir Marquis (imp.), the property of Messrs. Graham & Renfrew. This is an honor of no mean importance, as the Kirkcudbright Premium is the best in Scotland, and the fact that Sir Marquis was chosen to follow such an illustrious sire as Baron's Pride shows him to be one of the very best horses in Scotland. He can be seen at any time at his owners' stable, at Bedford Park, Ont.
