

Making Hay

As all progressive farmers are at all times ready to adopt any new machines which prove economical, we print a letter and clipping received by Dain Manfg. Co., Preston, Ont., from a party using their Loader.

Kingsmill, Feb. 27, '08

Dain Manfg. Co.:

Gentlemen,—I enclose clipping from "Aylmer Express," of July 25th, 1907:

"The haying outfit of L. M. Brown, of Kingsmill, put in 31 loads of hay one day last week, the product of 14 acres, two of which is orchard. Twenty-eight loads were loaded with a Dain Hay Loader on roller rack with only one man on the wagon, and for twenty-four loads the man drove his own team. Mostly unloaded in a shed with ordinary horse fork, although a gasoline engine is used for unloading in the barn. This looks like very fast work, and shows what can be done by an up-to-date farmer with modern machinery, even if men are scarce."

I do not regard this as a big day's work, the man with the loader easily kept the unloading gang at work, and they had long narrow sheds to work in most of the time.

I believe one man with your loader and roller racks, such as we use, will load ten loads per hour all day, if empty wagons are brought to him in the field.

Respectfully yours,

L. M. BROWN.

FREE Sample of Asbestos and Book about Roofing

EVERYONE contemplating building or repairing should get a sample of *crude Asbestos*—
the *fireproof, indestructible mineral* used exclusively by us in the manufacture of ready
roofing. Our Booklet explains why

J-M ASBESTOS ROOFING

is cheaper than tin, shingle and slate roofs, and more economical than any other ready roofing—
why it resists fire, rot, rust and wear, and why it requires no coating or painting.

J-M ROOFING is ideal for farm, stock and poultry buildings, because it keeps out the
cold in winter and the heat in summer, and has always an attractive, white appearance
without painting. Write for Book No. 80 and Samples.

The Canadian H. W. Johns Manville Co., Ltd., 85-87 Wellington St., West Toronto.

**WHY
THE
BISSELL
IS
BEST**

Because the "Bissell" is built for business it lasts for years and gives satisfactory service all the
time. It is made strong and durable to stand any strain. Steel drums with solid pressed steel
heads well riveted; axle of 2-in. solid steel; frame of hardwood reinforced with double truss rods
and steel angles make it rigid and stout. Bearings are large anti-friction rollers which
reduce friction to the minimum. The "Bissell" is the lightest draft roller ever built. Nothing flimsy or shoddy about it. Free
Booklet E tells why you should buy the "Bissell." Write today.
T. E. BISSELL CO. Ltd., Dept. W, ELORA, ONT.

"LEADER" fence Lock

Newer and Stronger

Think of the strongest lock of
which you know on a woven fence
and multiply its strength two fold.
You then have an idea of the
strength of the Leader lock—the
new lock with the double grip
(single grip locks have hitherto
been considered good enough for
woven fences).

The "Leader" is a brand new
No. 9 hard steel wire fence—more
durable and a better investment
than ever before offered.
